HISTORY/FACTS/ISSUES:

The North Sumter County Utility Dependent District is a dependent special district created by the Board of Commissioners of Sumter County in accordance with the provisions of Florida Statute Chapters 125 and 189, and which provides for the provision of public utilities, including the collection and disposal of solid waste. The boundaries of the dependent special district are generally consistent with the extent of the Villages of Sumter and Villages of Wildwood DRI's, which were recently amended to include additional properties south of Sumter County Road 466A. The Board of Supervisors of the North Sumter County Utility Dependent District requested the Sumter County Board of Commissioners to approve an amendment to Section 22-17 of the Sumter County Code to provide for the modification of the boundaries of the dependent special district in order to provide solid waste collection and disposal services to these additional areas. This ordinance was approved by the Commission on October 23, 2012, but a revised ordinance is required to address minor technical errors in the previous approval related to appointment of members of the Governing Board.
