Dear Sirs,

My name is Bonnie Cowie, I am 61 years old, and an disable, in an electric wheelchair. I use the county shuttle system regularly. I started riding when you started the system. I used to be on the board.

I am happy with the system and I love your drivers. They are considerate and caring.

I think if you would ask the riders they all would say the same thing I do.

This county should be proud of the system they have. It is a real good service you profrom for us poor people of this county. I would be willing to pay a little more if need be to keep it the same. I pay 25¢ one way for a ride to Bushnell, because I ~~m~~ over 55.

Please consider our feelings before you change the service.

Sincerely,
Bonnie Cowie
