HISTORY/FACTS/ISSUES:

On March 25, 2008, the Board of County Commissioners entered into a Continuing Engineering Services Agreement with DRMP.

DRMP has submitted a Scope of Services to provide a Lake Panasoffkee Wastewater Study Update. The services provided by DRMP consist of updating the original study and investigating the feasibility of constructing a basic wastewater collection and transmission system along the C-470 corridor and connecting to the Bushnell wastewater treatment plant defined this Scope of Services. Services will also include review submittals with the County and public involvement.

Costs for the Feasibility Study is \$35,000.00.
