Subject: **Villages of Sumter: Unit 152
As-Built Turnover Acceptance Letter**

Dear Ms. Webb:

A Final As-Built Turnover Re-Inspection was conducted on October 16, 2012, to determine if the referenced site's roads and drainage are in condition to be accepted by the County. Based on this final inspection, all maintenance concerns have now been addressed. We find that the proposed roads and rights-of-way are in acceptable condition to be turned over to the County at this time.

It should be brought to the contractor's attention that all inlets affected by adjacent construction activities need to be protected. In addition, the contractors are responsible for cleaning the roadways and storm drains in these areas both during and after construction.

I trust this information meets your needs at this time. Should you have any questions or require additional information, please contact our office.

Sincerely,

Bowyer-Singleton & Associates, Inc.
