HISTORY/FACTS/ISSUES:

In 1993, the Board approved a Conditional Use Permit (CUP 2-93-3) for Bedrock Resources (owned by Ocala Bedrock), which is located approximately 1 ½ miles east of the intersection of US 301 & C-470. The current Operating Permit (OP2005-0001) expired on April 26, 2010. On January 29, 2010, prior to the expiration of the existing Operating Permit, Bedrock Resources applied for an Operating Permit renewal for 10 years (previously approved for 5 years).

The County's consulting hydro-geological engineers (Tetra-Tech, Inc.) inspected the current mine operation on February 3, 2010 and found the mine in compliance with the terms and conditions of their operating permit. These inspections will continue bi-annually to assure compliance with the terms and conditions of the Operating Permit.

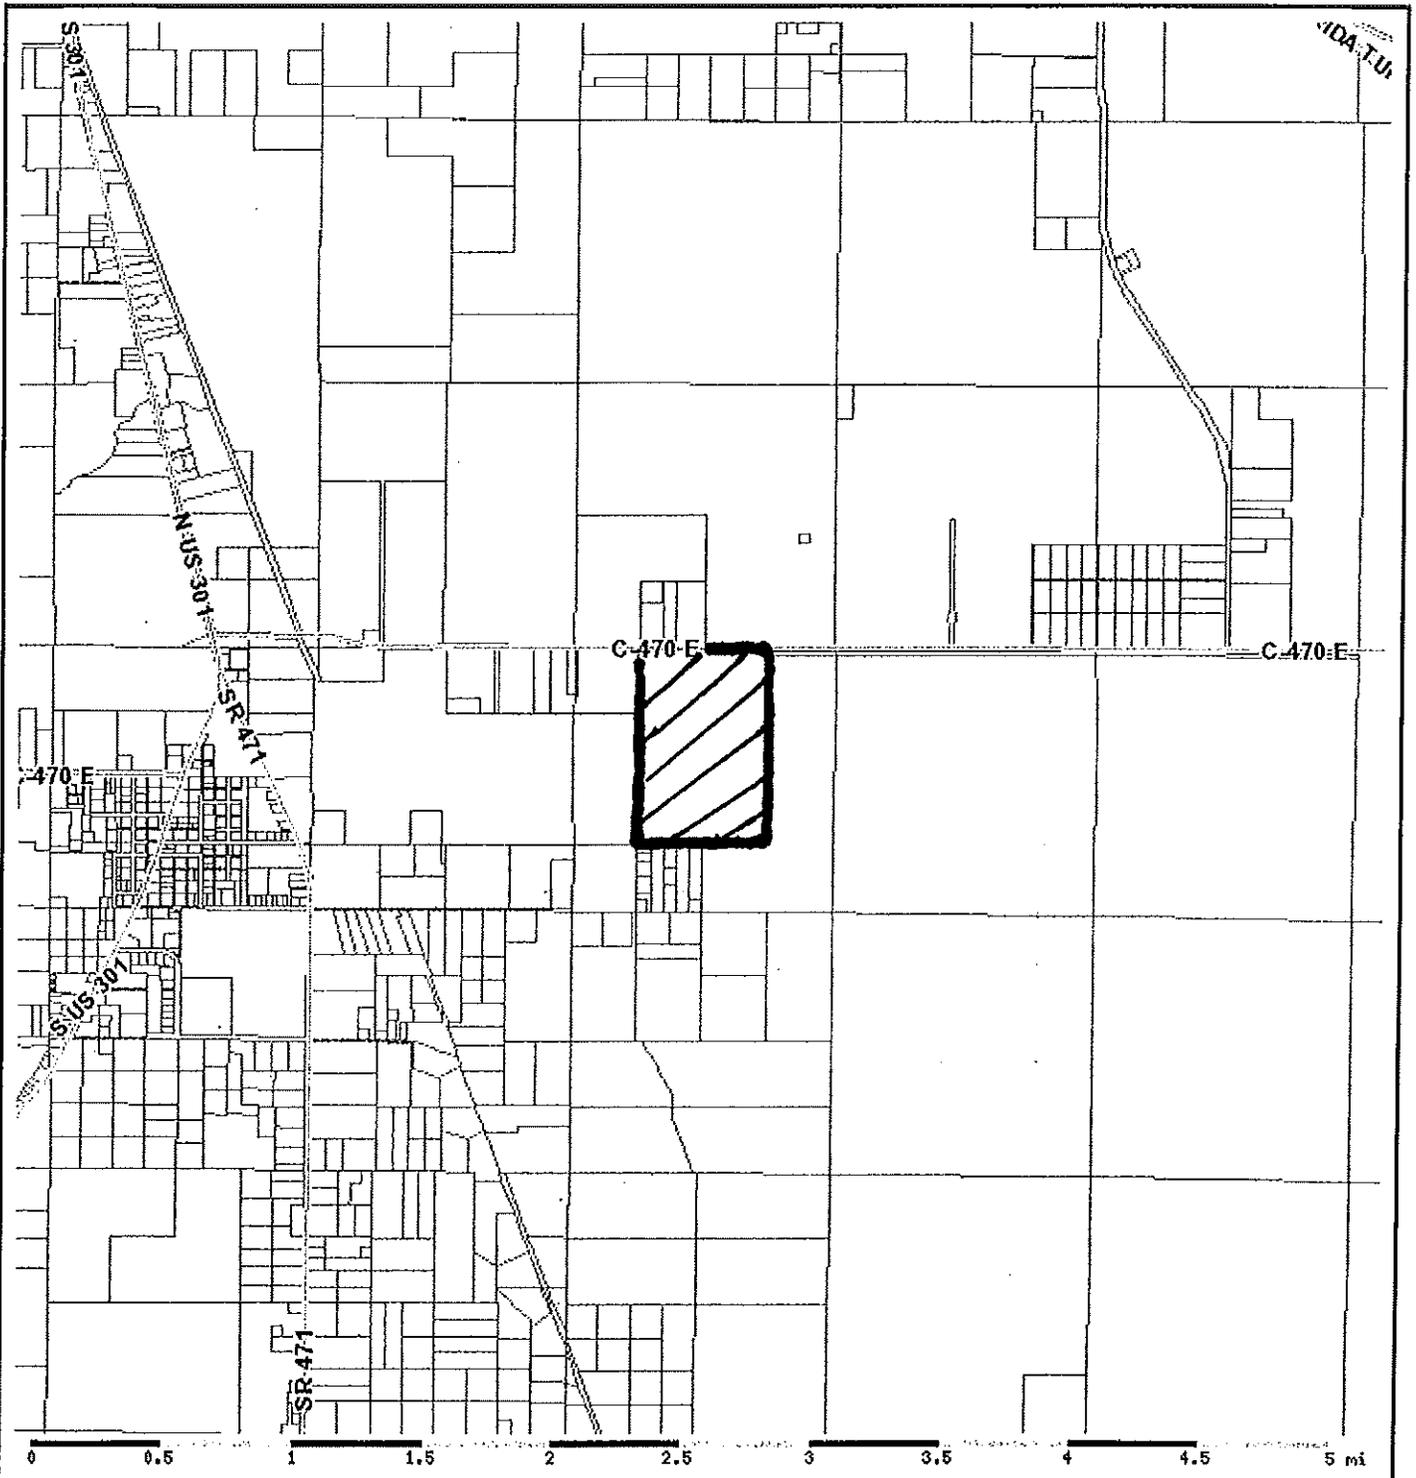

The applicants are agreeable to maintaining the current terms and conditions of the existing Operating Permit with the following amendments:

1. **Modify condition B5(c): On-site storage of hazardous materials is prohibited.**
Allow for on-site storage of fuels and oils for daily vehicle operations. This was approved in FDEP's MSSW permit (see attached).
2. **Remove condition B6: Blasting**
In September 2006, an independent seismologist conducted a video taped inspection of all structures within ½ mile of the permitted boundaries of the south 100 acres of the property.
3. **Remove condition B7(e): Conduct a traffic study to determine the need for a deceleration lane.**
The required turn lanes have been constructed.

On April 5, 2010, the Development Review Committee reviewed the proposed renewal and recommended approval.

Sixteen (16) notices were sent to surrounding property owners. One (1) was returned in objection, which is enclosed for your review.

Also included for your review are general locations map, proposed Operating Permit Extension (OP2010-0001), 10-year mining plan provided by the applicants, and a copy of OP2005-0001.

(800) 378-9477

Based on the facts and information provided at the public hearing held by the Sumter County Board of Commissioners (Board) on April 27, 2010, the Board authorizes the renewal of the Operating Permit for the Bedrock Resources limerock mine (OP2010-0001) for a 10-year period to April 27, 2020.

This Operating Permit is approved and issued subject to the following general and specific terms and conditions:

SECTION A -- GENERAL & SPECIFIC TERMS AND CONDITIONS

A1. Permit Expiration. This permit shall expire on April 27, 2020, unless renewed pursuant to Chapter 13, Sumter County Code.

A2. Legal Description of Property For Which Permit Is Approved:

Section 17, Township 20S, Range 23E:

Commence at the NW corner of the NE ¼ of the SW ¼ of Section 17, proceed S89°12'56"E a distance of 100' to the POB N 525.01' E 2472.69' S 1757.74' W 1234.16' W 1245.40' N 1233.20' thence to the POB. Containing 100 acres MOL.

Section 17, Township 20S, Range 23E:

The SE 1/4 of NW 1/4 and SW 1/4 of NE 1/4 and NE 1/4 of SW 1/4 and NW 1/4 of SE 1/4 and the West 165' of NE 1/4 of NW 1/4 LESS county road right of way for CR 470 containing 165 acres more or less.
AND

The NE 1/4 of NW 1/4, less the West 165 feet thereof. and NW 1/4 of NE 1/4 Section 17, Township 20 South, Range 23 East, LESS county road right of way for CR 470 containing 75 acres more or less.

LESS

The W 100' of NE 1/4 of NW 1/4 and of SE 1/4 of NW 1/4 and of NE 1/4 of SW 1/4 and except the S 100' of NE 1/4 of SW 1/4 and of NW 1/4 of SE 1/4 and except E 100' of NW 1/4 of NE 1/4 and of SW 1/4 of NE 1/4 and of NW 1/4 of SE 1/4 and except the N area bordering CR 470 as follows:

Commence at NW corner of NE 1/4 of NW 1/4 S along the West line of the NE 1/4 of the NW 1/4 100'; E parallel to N line of NE 1/4 of NW 1/4 100' to POB; thence East 1000' S 65° E 700' MOL East parallel to N line of NW 1/4 of NE 1/4 to a point 100' W of E Line of NW 1/4 of NE 1/4. Containing 100 acres MOL.

Section 17, Township 20S, Range 23E:

Commence at NW corner of NE 1/4 of NW 1/4 of Section 17 E 1100.00' to POB; S 100.00' S 63°00'00"E 904.83' E 755.82' N 500.00' to NE corner of NW 1/4 of NE 1/4 of Section 17; thence W along N line of NW 1/4 of NE 1/4 1564.32' to POB. Containing 14.24 acres more or less.

A3. Continuance of Permit General and Specific Terms and Conditions

Unless otherwise indicated in this Operating Permit, the General and Specific Terms and Conditions of Operating Permit OP2005-0001 shall remain in full force and effect during the term of this extension.

A4. Amendment to Conditions

The Conditions of Operating Permit OP2005-0001 are amended as follows:

- a. Amend Condition B5(c): Allow for on-site storage of fuels and oils used in daily vehicle operations.
- b. Remove Condition B6: In September 2006, an independent seismologist conducted a video taped inspection of all structures within 1/2 mile of the permitted boundaries of the south 100 acres of the property.
- c. Remove Condition B7(e): The required turn lanes have been constructed as required.

Mr. Leland R. Madsen, Administrator
Bedrock Resources
2441 East Fort King Street, Suite. 202
Ocala, Florida 34471

Dear Mr. Madsen:

RE: Application for a Minor Modification to MSSW Permit
Sumterville Quarry, File No. 164852-002
Request for Minor Modification

On April 9, 2007, your request to modify the referenced Management and Storage of Surface Waters Permit (MSSW No. MS60-224645) was received by the Bureau of Mine Reclamation. The modification is requested to remove a restriction in the existing permit that states that "no storage of fuels, equipment or equipment servicing or cleaning materials will occur on site".

The original permit, to construct a 200-acre surface water management system was issued by the Southwest Office of the Department of Environmental Protection (formerly D.E.R.) District on May 14, 1993. The permit was issued based on the criteria provided in Chapter 40D-45, Florida Administrative Code (F.A.C.) The permit was modified on February 29, 2000 (File No. 164852-001), to allow the construction of a perimeter ditch around the south half of the mine, to divert off-site drainage into Cat Sink. On March 7, 2005, a consent order, File No. 04-1163, was issued to resolve deficiencies in the design and construction of the ditch. In accordance with the consent order, the perimeter ditch was deepened and new culverts and weirs were installed that would alleviate the potential for flooding on the mine site and further upstream.

The enhanced perimeter ditch system is a major improvement over the drainage system that existed at the mine in 1993, when the permit was issued. The mine pit itself is less likely to be inundated by off-site drainage and has adequate stormwater retention capacity to handle multi-day storm events. As a result of these drainage improvements, the restriction on the storage of fuels, equipment or equipment servicing or cleaning materials on the mine site is no longer necessary.

Bedrock Resources, Inc.- Sumterville Quarry
Permit No. 164852-002
Page 2
October 5, 2007

The permittee will install a 12,000-gallon double-walled diesel fuel storage on a filled area near the existing shop building, which will be used to store lubricants, solvents and equipment servicing and cleaning materials. The handling of these materials will be conducted in accordance with the attached Pollution Prevention Plan.

There will be no additional wetland impacts or increase in the project area as a result of this modification. The specific conditions of the permit are unchanged by this modification and remain in effect. The proposed modification is not expected to result in any adverse environmental impact or water quality degradation.

Therefore, the permit is hereby modified, as requested, with the following changes:

1. Add the following Drawing, Figure 1, Rainfall Storage Area, as submitted on October 5, 2007.
2. Delete the following last sentence from the permit abstract on page 3 of 14 of the original MSSW permit, File No. MS602246452: ~~No storage of fuels, equipment or equipment servicing or cleaning materials will occur on site.~~
3. The storage of diesel fuel, lubricants, solvents and other hazardous materials shall be on a filled area such that the materials shall be above flood waters caused by the design storm event. Such materials shall be stored and handled in accordance with the Pollution Prevention Plan, and in a manner that will not violate water quality standards.

By copy of this letter, we are notifying all interested parties of the modification(s). This letter must be attached to the original permit.

This permit modification is hereby granted. This action is final and effective on the date filed with the Clerk of the Department unless a sufficient petition for an administrative hearing is timely filed under sections 120.569 and 120.57 of the Florida Statutes as provided below. If a sufficient petition for an administrative hearing is timely filed, this action automatically becomes only proposed agency action on the application, subject to the result of the administrative review process. Therefore, on the filing of a timely and sufficient petition, this action will not be final and effective until further order of the Department. Because an administrative hearing may result in the reversal or substantial modification of this action, the applicant is advised not to commence construction or other activities until the deadlines noted below for filing a petition for an administrative hearing or request for an extension of time have expired. Mediation is not available.

Bedrock Resources, Inc.- Sumterville Quarry

Permit No. 164852-002

Page 3

October 5, 2007

A person whose substantial interests are affected by the Department's action may petition for an administrative proceeding (hearing) under sections 120.569 and 120.57 of the Florida Statutes. The petition must contain the information set forth below and must be filed (received by the clerk) in the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000.

Under rule 62-110.106(4) of the Florida Administrative Code, a person whose substantial interests are affected by the Department's action may also request an extension of time to file a petition for an administrative hearing. The Department may, for good cause shown, grant the request for an extension of time. Requests for extension of time must be filed with the Office of General Counsel of the Department at 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida 32399-3000, before the applicable deadline. A timely request for extension of time shall toll the running of the time period for filing a petition until the request is acted upon. If a request is filed late, the Department may still grant it upon a motion by the requesting party showing that the failure to file a request for an extension of time before the deadline was the result of excusable neglect.

If a timely and sufficient petition for an administrative hearing is filed, other persons whose substantial interests will be affected by the outcome of the administrative process have the right to petition to intervene in the proceeding. Intervention will be permitted only at the discretion of the presiding officer upon the filing of a motion in compliance with rule 28-106.205 of the Florida Administrative Code.

In accordance with rules 28-106.111(2) and 62-110.106(3)(a)(4) of the Florida Administrative Code, petitions for an administrative hearing by the applicant must be filed within 21 days of receipt of this written notice. Petitions filed by any persons other than the applicant, and other than those entitled to written notice under subsection 120.60(3) of the Florida Statutes, must be filed within 21 days of publication of the notice or within 21 days of receipt of the written notice, whichever occurs first. Under subsection 120.60(3) of the Florida Statutes, however, any person who has asked the Department for notice of agency action may file a petition within 21 days of receipt of such notice, regardless of the date of publication.

The petitioner shall mail a copy of the petition to the applicant at the address indicated above at the time of filing. The failure of any person to file a petition for an administrative hearing within the appropriate time period shall constitute a waiver of that person's right to request an administrative determination (hearing) under sections 120.569 and 120.57 of the Florida Statutes.

Bedrock Resources, Inc.- Sumterville Quarry

Permit No. 164852-002

Page 4

October 5, 2007

A petition that disputes the material facts on which the Department's action is based must contain the following information:

- (a) The name and address of each agency affected and each agency's file or identification number, if known;
- (b) The name, address, and telephone number of the petitioner; the name, address, and telephone number of the petitioner's representative, if any, which shall be the address for service purposes during the course of the proceeding; and an explanation of how the petitioner's substantial interests are or will be affected by the agency determination;
- (c) A statement of when and how the petitioner received notice of the agency decision;
- (d) A statement of all disputed issues of material fact. If there are none, the petition must so indicate;
- (e) A concise statement of the ultimate facts alleged, including the specific facts that the petitioner contends warrant reversal or modification of the agency's proposed action;
- (f) A statement of the specific rules or statutes that the petitioner contends require reversal or modification of the agency's proposed action; and
- (g) A statement of the relief sought by the petitioner, stating precisely the action that the petitioner wishes the agency to take with respect to the agency's proposed action.

A petition that does not dispute the material facts on which the Department's action is based shall state that no such facts are in dispute and otherwise shall contain the same information as set forth above, as required by rule 28-106.301 of the Florida Administrative Code. Under paragraphs 120.569(2)(c) and (d) of the Florida Statutes, a petition for administrative hearing must be dismissed by the agency if the petition does not substantially comply with the above requirements or is untimely filed.

This permit constitutes an order of the Department. Subject to the provisions of paragraph 120.68(7)(a) of the Florida Statutes, which may require a remand for an administrative hearing, the applicant has the right to seek judicial review of the order under section 120.68 of the Florida Statutes, by the filing of a notice of appeal under rule

Bedrock Resources, Inc.- Sumterville Quarry

Permit No. 164852-002

Page 5

October 5, 2007

9.110 of the Florida Rules of Appellate Procedure with the Clerk of the Department in the Office of General Counsel, 3900 Commonwealth Boulevard, Mail Station 35, Tallahassee, Florida, 32399-3000; and by filing a copy of the notice of appeal accompanied by the applicable filing fees with the appropriate district court of appeal. The notice of appeal must be filed within 30 days from the date when the order is filed with the Clerk of the Department. The applicant, or any party within the meaning of paragraph 373.114(1)(a) or section 373.4275 of the Florida Statutes, may also seek appellate review of the order before the Land and Water Adjudicatory Commission under subsection 373.114(1) or section 373.4275 of the Florida Statutes. Requests for review before the Land and Water Adjudicatory Commission must be filed with the Secretary of the Commission and served on the Department within 20 days from the date when the order is filed with the Clerk of the Department.

Ocala, Florida 34471
(800) 378-9477

This permit renewal is approved and issued subject to the following general and specific terms and conditions:

SECTION A - GENERAL TERMS AND CONDITIONS

A1. That all statements in the application and supporting data are true and accurate and based upon the best information available, and that all conditions set forth herein will be complied with. If any of the statements in the application and in the supporting data are found to be untrue and inaccurate, or if applicant fails to comply with any or all of the conditions set forth herein, then this Permit may be suspended or revoked, pursuant to Section 13-174 Sumter County Land Development Regulations.

A2. The operation of this mine shall not constitute a hazard or threat to the health, safety, or general welfare of the public. The determination of a hazard or threat by the Board may be cause for permit amendment, suspension or revocation, pursuant to Section 13-174, Sumter County Land Development Regulations.

A3. All applicable sections of the Florida Statutes, Florida Administrative Code, and Sumter County Code shall be complied with. All mining activities shall remain in compliance with all permits, authorizations, and conditions applicable to the mine. All terms and conditions of permits issued by other agencies for the mining operation, not in conflict with the herein terms and conditions, shall be adhered to. A substantial, or repeated violation of the terms and conditions of

Be

this permit, or the violation of any other ordinance, regulation or law, may be cause for this Permit to be suspended or revoked, pursuant to Section 13-174 Sumter County Land Development Regulations.

A4. An authorized Board representative may, upon reasonable notice, enter the mine property, inspect the facility, and make permit compliance assessments. The Permittee shall either accompany the Board's representative onto the property or make provision for access onto the property. The Permittee shall reasonably assist the Board's representative in investigating complaints filed regarding alleged adverse impacts from mining activities.

A5. If mining activities do not commence within three (3) years of issuance of this permit, or if once commenced, cease for a period of three (3) years, this permit shall expire unless extended by the Board upon request of the Permittee. A request for an extension must be submitted to the Board, in writing, at least sixty (60) days prior to the permit's expiration date.

A6. Dumping of debris, trash, garbage, hazardous or contaminated materials is prohibited in any excavation not permitted for such under local and state laws, and said dumping may be cause for amendment, suspension or revocation of this permit pursuant to Section 13-174 Sumter County Land Development Regulations.

A7. Permittee shall annually submit to the Board a progress report and certification pursuant to Appendix A 3.4.3 Sumter County Land Development Regulations and the required monitoring fee.

A8. This permit is non-transferable except in accordance with Section 13-772(b) Sumter County Land Development Regulations.

A9. No additional haul road(s) shall be connected to any county, state, or federal road.

A10. The Board of County Commissioners is to be promptly notified of any significant change in mining operations.

SECTION B - SPECIFIC TERMS AND CONDITIONS

B1. This is a renewal of operating permit OP 99-1. The operating permit shall expire on April 26, 2010, unless renewed pursuant to Chapter 13, Sumter Land Development Code.

02:10:53PM B-1387 P-377

B3. Mining Requirements. The mine operator shall maintain all regulatory agency permits for mining operations, in good standing, during operation of all mining activities. Copies of all permit renewals shall be submitted to the Board.

B4. Buffers and Setbacks.

- a. All mining activities are prohibited within one-hundred (100) feet of adjoining property lines.
- b. A minimum fifty (50) foot buffer shall be maintained around all jurisdictional wetlands requiring protection or mitigation, in which no mining activities may occur.

B5. Ground/Surface Water.

- a. De-watering or draw-down of aquifer water levels in mine pits is prohibited, except for the following and similar ancillary uses: dust control purposes, wetting of stockpiles, elimination and clearing of rock jams in equipment, water coolant for equipment, drilling of blast holes, truck tire washing, drainage of surface water collecting in re-contoured area, irrigation of reclaimed areas (re-vegetation), and sizing of aggregate material.
- b. Any impacts to on-site jurisdictional wetlands will be mitigated in accordance with the governing agency's requirements.
- c. On-site storage of hazardous materials is prohibited.
- d. Pre-mining surface water flow in to and out of sinks and lakes shall not be interrupted.

B6. Blasting.

A video taped inspection of all structures within ½ mile of the operating permit's boundaries shall be made by the operator prior to the initial blasting at the south 100 acres of the property subject to this operating permit. The inspection shall be for existing structural and cosmetic deficiencies that might later be attributed to blasting. An inspection report shall be furnished to the County and, by certified mail, to the respective property owner with instructions to report any disagreement with the report to the County.

B7. Traffic Circulation.

- a. Access for mining operations is restricted to CR-470.
- b. Interior devices or procedures shall be used to limit the accumulation of lime-rock material and water on CR-470 to a degree acceptable to the Board.
- c. Whenever, upon notice from the County Public Works Director, an accumulation, within ¼ mile of the mine's access point, of material or water from the mining operation renders the condition of CR-470 unacceptable, the mine operator shall, within 48 hours, or within the time limit set by the Public Works Director, correct such condition at the operator's expense.
- d. A stop sign shall be maintained at the property line for trucks exiting the property.
- e. A study to determine the need for a deceleration lane will be done by a consultant for the County, and paid for by the applicant. If the study

determines that a deceleration lane is needed, that improvement will be made at the expense of the applicant, and to the standards of the County, however the costs of such construction to be born by the applicant shall not exceed \$27,900.

B8. Noise.

- a. Equipment used in mining activities shall be properly maintained and operated to minimize noise.
- b. Mining operations and procedures shall be conducted to minimize noise.

B9. Air Pollution.

- a. Equipment used in mining activities shall be properly maintained and operated to minimize air pollution.
- b. Mining operations and procedures shall be conducted to minimize air pollution.

B10. Stockpiles, Loading Areas.

Surface stockpiles and loading areas adjacent to CR-470 shall be a minimum of two-hundred feet from said road right-of-way.

B11. Mine Safety and Security.

- a. Excavated areas shall be secured from the public on all sides by adequate fencing or other means.
- b. The existing berm system along CR-470 shall be maintained throughout the life of this operating permit.

B12. Flora and Fauna.

- a. The listed Protected Wildlife species which may occur on this site are: Eastern Indigo Snake, Gopher Tortoise, Florida Pine Snake, Gopher Frog, Short-tailed Snake, Florida Sandhill Crane, Arctic Peregrine Falcon, Southeastern American Kestrel, and Shermans Fox Squirrel. All personnel involved in mining activities shall be educated in recognition of these species, and instructed to avoid taking, injuring, or killing these species during site preparation, resource extraction and site restoration.
- b. Mining activities shall not result in the harming, pursuit or harassment of wildlife species not identified in the application, or this permit, but classified as endangered, threatened, or a species of special concern by either the State or Federal governments in contravention of applicable State or Federal laws.

B13. Reclamation.

- a. The lands subject to this permit shall be reclaimed pursuant to the reclamation plan approved by the Florida Department of Environmental Protection (FDEP).
- b. In addition to FDEP requirements, the Commission reserves the right to require specific recognized best management practices on disturbed areas.

SUMTER COUNTY, FLORIDA
GLORIA HAYWARD, CLERK OF CIRCUIT COURT

B14. Sanitation.

- a. The operator will provide sanitary facilities and potable water as required by the Environment Health Department.
- b. All solid waste generated by this mining operation shall be disposed of at approved landfills.

B15. Reporting.

- a. Copies of all reports required by state or federal agencies shall also be submitted to the Board at the time of submission to the agency.
- b. During the term of this permit, and extension thereof, the Operator shall submit to the Commission copies of all applications for amendments to state agency permits and approvals at the same time they are transmitted to state agencies.
- c. Reports required by the Board shall be submitted as directed by ordinance or permit.

AMENDED OPERATING PERMIT APPROVAL:

Joey A. Chandler, Chairman
Sumter Board of County Commissioners

Attest:

Jan Kirkpatrick
Deputy Clerk

Renewed this April 26, 2005.

Roberta Rogers, Director
Division of Planning and Development

**MINING PLAN FOR 2010 – 2019 FOR THE
BEDROCK RESOURCES MINE AT SUMTERVILLE**

A. TERMS AND CONDITIONS OF CURRENT PERMIT:

Bedrock Resources has been and remains in compliance with Section A; paragraphs A1 through A10 of the current Operating Permit.

Bedrock Resources has been and remains in compliance with Section B; paragraphs B1 through B15 of the current Operating Permit.

The following amendments are recommended for the Renewal Permit being requested.

Paragraph B5 line c.

This line may be deleted because a minor modification to the MSSW permit, File No. 164852-002, for Sumterville Quarry was granted by the FDEP on October 5, 2007 removing the restriction.

Paragraph B6.

This requirement was completed by the independent seismologist in September of 2006 and may therefore be deleted from the permit.

Paragraph B7 line e.

Bedrock Resources has added the needed turn lanes on CR-470. This paragraph may now be deleted.

B. MINING PLAN AERIAL MAPS ENCLOSED:

Map 1: Is the aerial map of the entire Bedrock mine.

Map 2: Is an enlarged portion of the aerial map which shows the planned area in which mining will be concentrated on over the next ten years. This shows a yearly estimate of the proposed mining, however, changing economic factors may affect the acreage to be mined.
