HISTORY/FACTS/ISSUES:
The City of Bushnell initiated the Interlocal Service Boundary and Joint Planning Agreement negotiation process but the process slowed due to the need for the City to initiate and conclude their visioning process as well as their water/sewer master plan document.

The next step is for me to provide objective dates for both parties to work towards to conclude this process successfully. The City of Bushnell intends to submit to DCA an overall comprehensive plan change that in our opinion may be greater than their financial and service capacity to serve. DCA on more than 4 occasions has stated their concerns regarding the large annexations that Bushnell has made that do not support focused dense development but rather promoting urban sprawl.

I will be sending a letter unless the BOCC objects to DCA notifying them that we are re-engaging the City of Bushnell with the ISBA and JPA meeting and our recommendation is that any action on their review/approval of the future submitted comprehensive plan change are delayed until our process with the City of Bushnell is concluded.
