---

**HISTORY/FACTS/ISSUES:**

Each year Transit enters into an agreement with Mid Florida Community Services (MFCS) to provide transportation based on the county fiscal year. The intent of this amendment is solely to best service the contract by extending the termination date for three months which will coincide with MFCS fiscal year as well as its planning and grant cycle.

In December we will present a 12-month contract using the approved Transportation Disadvantaged Service Plan (TDSP) rate model calculation with estimated revenue of \$42,000.
