274552	Case		Complaintant Narrative Witness	08/29/2008 08:37AM	louise	08/29/2008 08:35AM	louise	

The compl lives in Brevard County- she and a friend went to this facility where the compl adopted a dog. The dog became very sick after she got it home. She took it to a vet where it was diagnosed with many serious health issues. It is being treated and hopefully will live. Compl says this facility should be closed down it was dirty- the animals did not look well- with weepy eyes and living in filth. Could we please do something. Compl says she is also going to report to the Dept of Agriculture.

The office met with Margaret and she took her around the facility. There was 1 person cleaning the puppy room. 2 sic dogs in wire crates with a quarantine sign on it in the same room. Margaret said they had a litter of bulldog pups with parvo. They do fecals on the dogs on Fridays. adopters are sent home with 10 days of Albon and 2 weeks of de-wormer. They are also given a list of instructions on care of their new puppy. The facility is adequate and there is a new concrete pad with a building for 20 indoor, outdoor runs in the works. they are also in the process of installing drains off the puppy building.

345586	Case		Statements Nell	03/11/2009 04:32PM	nel	03/11/2009 04 20PM	nel	

Complainant went to see a dog at Humane Society of Inverness. When complainant was at the residence to look at a dog she was interested in, she witnessed a small dog with no hair and open sores. The dog was in an open area with no shelter the ground was sandy and the dog was scratching constantly. She was surprised that they could not enter the area where the other dogs were. the woman brought the dog outside the kennel area and did not want them back where the dogs were. She would like us to check care and condition of the animals. She also mentioned that the dog she was interested in was listed on Pet Finders for \$100.00 and when she brought the dog out she was told it would be \$150.00.

348978	Case		Officers Narrative Off. Guy Hall	03/20/2009 08:47AM	guy	03/19/2009 10:30AM	guy	
--------	------	--	--	-----------------------	-----	-----------------------	-----	--

Aco 33 and myself arrived at the Humane Society of Inverness and spoke with Karen 344-5207 and asked to speak with Margaret. She advised that she wasn't there. We explained to her that we received a complaint about a dog that is hairless and has alot of sores. The complaint is that it's kept in the dirt without shelter. Karen called Margaret and told her that we were there to inspect care and conditions and asked her if she could take us around. She told Karen that it would be alright to show us around. Karen said to please take into consideration that they've just arrived to start cleaning and there's only one person cleaning. While we were talking we witnesses a dog in a wire crate without water in the direct sunlight, wearing an E-collar and both ears bandaged. We asked Karen about that dog and she said it's adopted and waiting for Margaret to transport to the owner. Directly in front of the office was a young puppy that was skin and bones which didn't have shelter but had dry food and water. We asked her about the puppy and she said she just put it out there to get some fresh air. She said it normally is in a crate in the back. She said puppy's name is "Deisel" and was an adoption return. She said it has upper respiratory infection being treated by Dr. Fox. She wrote down on a note pad what puppy is receiving for treatment. .01 Gentomican, .5cc Penicillin, Nutrian drops, Robitussin 3 cc 2-3 times a day and .25 Chlorphenaramine tab. She took us to the kennel area which had all of the bedding removed from the prior night and piled up on the ground. She said they haven't started washing that yet and only have 1 washer and 1 dryer. The perimeter of the privacy fence has wire fencing with tarps over them and airline carriers inside of them for shelter. The majority of them on directly on the ground which is sand, all of which had water. In the center there was also an area of kennels. Outdoors in the kennel area they have a bank of cat cages which haven't been cleaned yet. There was a small building that has indoor outdoor runs with a wall mounted A/C unit. The building also has animals staged in wire crates. In one of the wire crates was the dog she thinks was complained about. She said it's name is "Hyenia" and has sarcoptic mange. We asked her to send us Dr. Fox's report on this dog as well as for "Diesel". Around Margarets home are her personal dogs which have access to the inside of her home at free will. In the backyard of the home were kennel areas set up the same way as the other kennel with no flooring. I mentioned to Karen that my biggest concern is the animals only having airline carriers for flooring, directly on the ground. She said they have enough donations for a new building in the main area, were they plan to remove all of the trees and pour concrete. She said they don't have the money for the concrete yet. We went back to the office and Karen was trying to find paperwork for us about the 2 dogs in question. Aco 33 gave "Diesel" a package of wet food which he immediately started to eat. We mentioned that to Karen who said they feed him wet food, homemade chicken and rice and other things that Margaret cooks. She said they do that several times a day. She was advised to feed the dog as often as it will eat. We moved the dog that was in the wire into the shade and advised her to fax the reports that we asked for.

369318	Case		Complainant Narrative	05/06/2009 03:14PM	louise	05/06/2009 03:04PM	louise	
--------	------	--	--------------------------	-----------------------	--------	-----------------------	--------	--

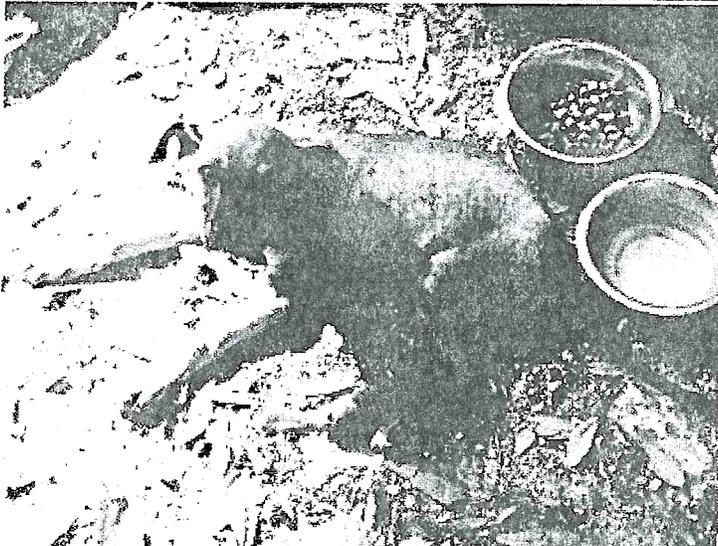

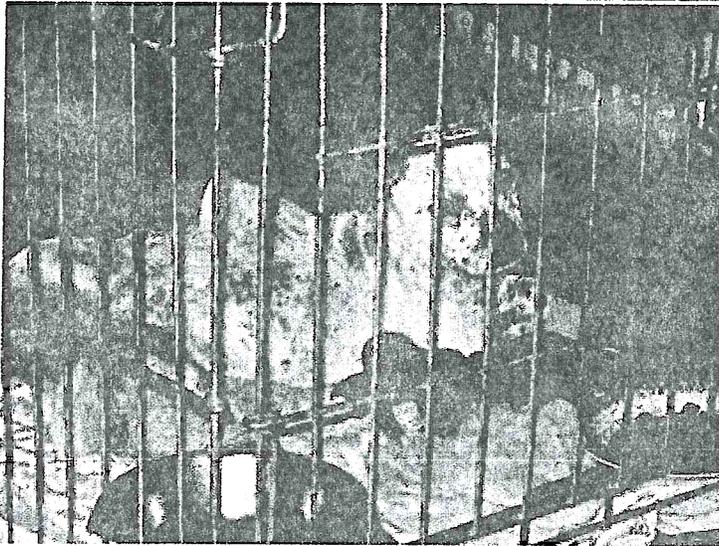

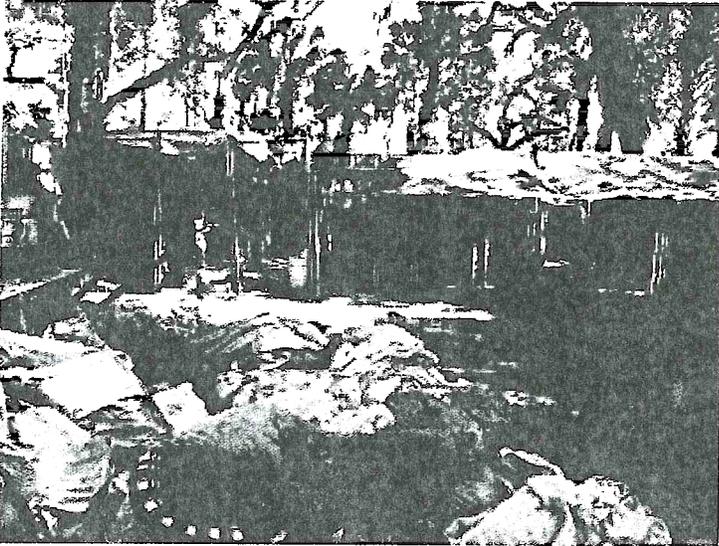

An older man called and was there on Mohican Trail- he said they wouldn't let him go in very far but dogs were in pens too small. The place was very dirty and most of the cages had flimsy tarps over the animals- not proper shelter at all. One small dog he saw stood up and its rear was raw from moving around in what looked like a rabbit cage.

ACO #23 & #31 went to do wellness check on animals at HSI. Margaret Meier was not present but spoke to volunteer/employee Lauri Miller and she instructed the other volunteer that was cleaning to allow us access to anywhere we wanted to go. There were multiple crates and cages sitting out front next to driveway with cats inside and several cages had the morning sun shining right into them and the heat was extreme. Discussed the need for some type of sun shade or awning over these cages. Lauri said she would either get some type of shade or move the cages so they are in the shade at all times. There was a portable "X pen" sitting to the side with 2 puppies in it and both puppies appeared to be very lethargic and thin. Lauri stated they are recovering from an illness and have been under vet care. Once inside the privacy fenced area where all the kennels and cages are located we saw a huge pile of dirty blankets and laundry that had a very strong odor and appeared to have been there for a long time. There were numerous puppies and dogs and most pens were relatively clean or

were in the process of being cleaned. A few plastic dog houses had been broken apart and needed to be either repaired or replaced, which was discussed with Lauri. All dogs except one had water and when brought to the volunteer's attention she immediately got the dog water. No major violations were observed. Photographed dogs, pens and areas.

Kathy Liford was bit by a min pin on 7/27/09 while visiting Wanda Zumas. Wanda Zumas adopted the min pin from Humane Society of Inverness at the Markets of Marion on 7/19/09. On 8/2/09, the dog was returned to Humane Society of Inverness at the Markets of Marion. Nel spoke with Lori Miller at Humane Society of Inverness on 8/4/09 and she states they do have the min pin in quarantine and are not going to adopt the dog to a citizen but are trying to get the dog into rescue. She also stated that Ms. Nolan was not aware that Animal Services needed to be notified of the bite because the dog was current on rabies. Nel advised that all animal bites need to be reported regardless of rabies status. Ms. Miller indicated that it would be difficult for anyone to be at the facility on Tuesday to do quarantine. Ms. Miller will bring the dog to Animal Services on 8/5/09. Quarantine paperwork will be signed and dog will be released from quarantine at the same time.

I met with 2 workers at the Humane Society of Inverness who said they witnessed suspect strike their cat to get it off of his vehicle. They went and got the cat and I took 2 photo's of her holding it. They said its an older spay female and it is brown/black/org and white. I spoke with the suspect who says he removed a gray/black mostly gray young adult feral cat by pushing it off his hood. I then spoke with the owner of the Humane society who said Dr. Fox will be examining the cat in the morning. I told her we need a report from him and sworn statements from workers. I didn't have any affidavits with me other than Nuisance affidavits so I asked them to document what occurred on regular paper while the event was fresh in their minds. I will try to make arrangements to get them affidavits.

--------	------	---	-----------------------	-------	-----------------------	-------

I ACO#692s impression of the facility is that the general conditions and provisions for the animals is definately below standard and all areas need improvement.The small shed close to the office is where they tend to keep sick animals and keep the medications used to treat them is also keep in that room.There is a variety of common medications used to treat a variety of common diseases in dogs and cats.It appears as if all the medications are not being handled in accordance with the Pharmacy Act F.S.465 and 499.001-499.081 on all FDA approved medicines in ref:to labeling medications for each animal individually and keeping acurate record of such on each animal in a medical record.It is unknown if any of the animals that are fostered out are currently on any RX medications and if so were they labeled in accordance to the Pharmacy Act and dispenced by a licensed Vet-and if he is the pnamracy provider or is the facility dispensir,g meds?There are some meds that were donated and if the vet- is acting like a pharmacy for the animals then the law that forbids taking back meds,much less using them can possibly be in violation of F.S.465,005,64B 16-28.118 Florida Pharmacy Citation on returned meds.While reviewing the meds in this treatment room it was discovered that some of them had expired. 1.CEPHLAHEXIN 500 mg count 500 EXP-12/2009 2.PREDNISONE 10 mg count 1000no expiration date. 3.TYLAN INJ- EXP-11/2009 4.CONSTITUTED ORAL ANTIBIOTICS IN REFRIG NO GOOD,NO DATE MIXED ON BOTTLE/NO LABEL ALSO THER ARE 2 FREEZERS ON THE PROPERTY BY THE OFFICE TRAILER THAT HAVE FROZEN MEAT WHICH LOOKS LIKE SAUSAGE THAT ALL OF THE FOOD IS EXPIRED,WAS TOLD IT WAS FOR THE ANIMALS,ALSO ONE OF THE METAL SHEDS HAS BAGGED DOG FOOD THAT IS JUST THROWN EVERY WHERE AND THERE ARE SOME BAGS WITH SMALL AMOUNTS OF MOLD ON THEM AND DID SEE A COUPLE MICE IN THERE ALSO. In conversation with the staff one did mention that the owner took in 89 dogs from out of state (which the owner also told AC695)and after speaking with Division Of Agriculture (ladys name is SUMMER.)they said that if those animals were transported across state lines that someone should of had Health Certificates no matter if she is 501C3 or not They dont need a health certif-to sell dogs but need them to trans-over state lines.Dont know how animals made it to Fla.

STERILIZATION AUTHORIZATION AND RELEASE I the owner/authorized agent, authorize the Humanitarians of Florida Inc. (HOF), to sterilize my pet. I understand the operation presents some risk and that injury or death of an animal may conceivably result because of the risk in the procedures and the use of anesthetics and drugs used in providing this procedure. I understand HOF Inc has the right to refuse service to any animal to which surgery is deemed a health risk. I understand HOF does not provide any follow-up or emergency care for my animal and if my animal does need follow-up care or emergency assistance, I should contact my local veterinarian or choose a veterinarian from the list provided by HOF. I understand **I WILL BE RESPONSIBLE FOR ANY BOARDING FEES** if I do not pick up my animal. I understand if I do not pick up my animal within 3 days the animal will be considered abandoned and will be disposed of in accordance with HOF's policy. I hereby release HOF, the veterinarians, assistants, and all of its employees and volunteers from any and all claims.

	MISCELLANEOUS	

ions far outweigh the risk, certain events, some potentially fatal, can be associated with vaccination. Some of these may appear when your pet is vaccinated and occur within 48 hours. If your pet receives vaccinations, you should be assured that vaccine reactions are considered to be relatively rare. I am requesting and do consent to the above vaccination(s).

Message Dogs are under Nolan - not meier

	<u>RV</u>
<u>Stephanie</u>	<u>12/13/05</u>
<u>Zoey</u>	<u>12/13/05</u>

6/24/06

Ms Nolan brought in the  
some Certificates of Rabies  
on the 24th. said  
she could not find previous  
certificates. I gave her  
county tags for the remainder  
of 2005 rabies certificate

Danzel signs	11/10/06
Stephanie "	12/13/06
Zoe "	12/13/06

Did not give a tag for Helena  
because she had a current  
county tag

6/26/06

Ms Nolan brought in  
4 rabies certificates for  
Danzel, Stephanie, Zoey &  
Stephanie. She said they  
were all 3 yr Rabies  
but there was no signatures,  
date on them. I called  
HOF on three of them and  
they tell them if dog is same,  
it is a 3 yr and that  
the burden of proof is on  
them when they purchase a  
county tag. Stephanie's  
was done at Rowan from time.  
3 yr. is written on the  
certificates but the dog was  
only 3 1/2 mo old.

**To:** <adoptions@bocc.citrus.fl.us>  
**Date:** 12/17/2009 12:57 AM  
**Subject:** I need some help and don't know where to turn!

I was recently in your facility looking to adopt a puppy after being scammed by the Humane Society of Inverness! After leaving your facility I went to theirs to try and get my money back and it was UNBELIEVABLE! Let me tell you a little about my story and what I found at their "OFFICE"! Maybe you can direct me in the right direction of where I need to turn this woman over for animal cruelty!

I recently "purchased" yes PURCHASED (they are a non profit agency that CHARGES a fee and don't give health certificates when technically if you SELL which they are SELLING you MUST give a health certificate for an animal in the state of florida) a boxer puppy from the Humane society of

Inverness. I got the puppy home and noticed a DAY later that she was sick! I e-mailed and called and called them and they wouldn't return my phone calls or e-mails and she became so sick a few days later that I had to take her to my vet (the day after Thanksgiving) I spent A LOT of money to get my puppy, who was already a part of our family well! She kept getting worse and they FINALLY contacted me and convinced me to let them take over her care and give her daily antibiotic shots that would be better than the oral antibiotics that I got from my vet. I reluctantly let them take her back to get her well because there wasn't anything else that I could do for her! A day after they took her back I got the phone call that our baby had passed away! I cried and cried for days and my 4 year old son was devastated! She slept with him night after night and even though she was so sick she still made sure he was "OK" Needless to say I was not allowed to pick out another puppy from them and they would not refund my money or the money I spent on the vet, so I went to their so called "OFFICE" and Margaret Nolan the operator was rude and belligerent with me and told me that I had signed a form stating that I was responsible for the care .. NOT if she sold me a sick puppy which my vet had informed me that the puppy had Pneumonia WELL before I had adopted her! When I visited the "Office" if thats what you want to call it, I was SHOCKED to see the conditions that these animals were living in! They were locked up in small cages some of the cages too small for the dogs that were in them, some of them wet from a recent bath with HUGE carpet dryers blowing directly on them while they were wet and in an enclosed cage! The cages were filthy and when I got back in my car my legs were COVERED in fleas! The gentlemen there that was "grooming" a dog that wasn't holding still actually hit the dog to make it be still, it yelped and a puppy in a pin next to it started barking and he turned around and KICKED the cage RIGHT in front of me! I'm not the first person that

she has sold a sick puppy too and not given a refund too! I've talked to atleast 10 other people that within the last two months that she has done this too! Lia was a wonderful puppy and we miss her everyday and what this woman is doing to these animals is CRUELTY!!! She needs to be investigated because the things that shes doing is just wrong to us as people and to those poor innocent animals! My son STILL cries at night for his puppy and it's been two weeks since shes been gone! The dogs stink, they are filthy, they are skinny, and they are COVERED in fleas! Please help me bring some justice to these animals and the community! I don't know where else to turn and I don't know who to contact! She has animal cruelty charges in 3 other counties in

Florida! There are so many people that have lost their beloved pets because of this woman! They leave USED syringes on their tables at Howard's flea market, their tables are covered in urine and feces which they don't clean! I have pictures, correspondence, receipts of how BAD this company is! INFACT I witnessed YES witnessed a couple take money out of their DONATION jars and walk down the aisle and purchase lottery tickets with the money. just this past weekend! Please tell me who I need to contact regarding this matter! If I don't get my money back then thats fine, thats not why i'm doing this! These poor animals are badly in need of someone to stand on their side!

Sincerely,  
Shannon Beck

Xan Rawls  
Director  
Citrus County Animal Services  
4030 South Airport Road  
Inverness, Florida 34450

Dear Ms. Rawls,

Thank you for taking the time to listen to my concerns about Margret (also spelled Margaret in some internet sites) Meier Nolan (MMN) and her organization, the Humane Society of Inverness. I greatly hope that you can direct my concerns, and the information I share with you to the appropriate authorities so Ms. Margret Meier Nolan and the Humane Society of Inverness either operate within the law, or cease to do any business in the line of animal rescue.

I first contacted the Humane Society of Inverness to enquire about Pilot, a Bouvier de Flandres listed as available for adoption on [www.petfinder.com](http://www.petfinder.com) (contact [Susan@petfinder.com](mailto:Susan@petfinder.com) or [Cary@petfinder.com](mailto:Cary@petfinder.com)) After filling out the application, MMN and I agreed to meet midway between our locations (Florida and Virginia) so my husband and I could meet Pilot, and if appropriate, complete the adoption process and take custody of the dog. My husband and I drove to Florence, SC on Sunday, April 16, 2006 as agreed. When MMN arrived at the meeting place, she stated she had "forgotten" Pilot's papers, records and rabies certificate, but assured us she would mail these to us when she returned to Florida on April 17<sup>th</sup>. When we paid the \$250 adoption fee and all copies of adoption papers were signed, she had also provided one crate, one bag of dogfood and a choke collar. She assured us that Pilot was up to date on all vaccinations and rabies shots, had been wormed, microchipped and was AKC registered; she repeatedly said she would send us all this paperwork immediately

As you can see from the copies of emails between MMN and myself, I made multiple attempts over the next two months to get MMN to send us this paperwork. I also made several telephone calls and left messages on her business and cell phone voice mail to that effect. She did not return any of the phone calls and only a few emails. At one point she offered to have her vet fax the paperwork to me, but I do not have a good fax system, so I requested she mail the documents. She stated she had done so, but when the documents did not arrive, I became suspicious and finally requested she send these to me by certified mail with a signature required. I wanted to make sure that the documents could be tracked once they left the Inverness Post Office.

The certified letter arrived at my local Post Office on June 27<sup>th</sup>, and I signed for it on June 28<sup>th</sup> (see enclosed copy of the envelope and the documents sent). The document she sent was not an original, but a copy of a rabies certificate of vaccination, and a copy of another document which seemed to indicate Pilot had been given a vaccine on 3/17 for Distemper-Adenovirus Type 2, etc. Neither of these documents carried a letterhead of any veterinarian, but the rabies vaccine certificate was signed, and the name of the vet appeared to be "Mary Edwards"

When I went to get a dog license from my local animal control service, I was asked to bring in the adoption papers and his rabies tag in addition to the certificate. When I inspected the paperwork with the intention of calling the vet who signed the forms to get a rabies tag sent to me, I noticed that in addition to no letterhead identifying the animal clinic, the signature on the certificate was extremely similar to Ms. Nolan's own signature on the adoption papers.

Because of my experiences with MMN I became suspicious that there was more to the stories she'd told than what I'd originally accepted. I tracked down the veterinarian who allegedly signed the certificate and the clinic where the original rabies tag was issued.

The clinic (**Rainbow River Animal Hospital of Dunnellon, FL – Tel. 352-489-5121**) verified they had issued tag number 63697, specified on the certificate, however it was issued on 4/25/2005 to a female Bouvier by the name of Selena. As you can see on the copy of the certificate MMN sent to me, the certificate is dated 3/17/06 and the animal is listed as Pilot, male. When I asked about the veterinarian named on the certificate, the clinic representative, **Betty Whittaker**, consulted with the head of the clinic, **Dr. Fox** and then stated that Dr. Edwards was no longer working at that clinic in 2006 – she had left their employment in November 2005.

Ms. Whittaker was able to provide information on where that vet was now working, and I called the vet, **Ms. Mary Kristi Edwards at her place of employment, the Banfield Animal Hospital of Ocala, FL. (Tel 352-861-0300)**. Ms. Edwards was very concerned about the documents I described and stated she had absolutely NOT signed those documents on 3/17/06. Later in the week I faxed a copy of the certificate to Dr. Edwards so she could see for herself how the certificate showed her name.

At this point, I contacted my local law enforcement office, **The Loudoun County Sheriff's Department in Leesburg, VA, and Officer Travenner** took a report and looked over the paperwork. I gave him a copy of the certificate MMN had sent to me.

I spoke with another bouvier owner who knows of MMN, and she informed me that she and others had had suspicions about the woman and her organization as MMN has solicited funds for her organization on the Internet using dramatic stories and heartrending scenarios such as hurricane evacuated animals dying in warehouse fires. I began to research internet stories and found that all were posted by others "who had spoken with Margret on the phone. ", I did not contact these people. I did, however, find a Google Link to a site that posted a "Fraud Alert" on MMN for representing herself as affiliated with another rescue organization when in fact she was not.

See:

<http://groups.yahoo.com/group/K9rescueUSA/messages/401?viscount=100>) and [http://www.google.com/search?hl=en&lr=&client=firefox-a&rls=org.mozilla%3Aen-US%3Aofficial&as\\_qdr=all&q=%22Margret+Meier%22%2Bfraud&btnG=Search](http://www.google.com/search?hl=en&lr=&client=firefox-a&rls=org.mozilla%3Aen-US%3Aofficial&as_qdr=all&q=%22Margret+Meier%22%2Bfraud&btnG=Search)

I contacted the woman who had posted the alert, **Ms. Mary Beth McManus (Tel. 561-379-2886)** who verified this was indeed her post and went on to tell me of this and other issues she had experienced directly in dealing with this individual and her organization. She suggested I check MMN's statement that the Humane Society of Inverness was in fact a 501 (3)c organization, since that had been an issue as far back as 2000 when Ms. McManus had been working in animal rescue. When I contacted the Florida **Department of Agriculture and Consumer Services/Consumer Affairs office**, I was informed that The Humane Society of Inverness was not actively licensed as a nonprofit organization and that the previous **license # CH18244 had expired on 1/5/2006**. (Please note that on her adoption contract and on her website she refers to her nonprofit status. She is also soliciting donations through several website locations on the internet). I filed a complaint with the FL. Dept. of Ag. (see copy attached).

It was Ms. Mary Beth McManus who suggested I contact you, Ms. Rawls, as she thought you might be able to help me in this matter. My specific concerns include:

- 1) How many other rabies certificates have been forged or altered by MMN/Humane Society of Inverness?
- 2) Are the animals adopted out from the Humane Society of Inverness vaccinated or are they at risk to contract and carry dangerous diseases?
- 3) Are MMN/Humane Society of Inverness illegally representing themselves as a nonprofit organization
- 4) Are the animals in the care of this individual safe and well treated or are they merely pawns in a con game which targets animals lovers?
- 5) What can be done to stop MMN from what certainly appears to be a long history of illegal activities and slick moves to stay one step ahead of the law?

I have included in this missive copies of all the correspondence I have had with MMN, copies of anything she ever sent me, and contact information for those who have are involved or have provided verified information. Unfortunately, when I did my original homework on MMN on internet before I pursued the adoption, I found nothing to indicate the trouble that was about to unfold (it did not occur to me to search for "Margret Meier+fraud" until just the other day), but you can see via your own search that there very little information to indicate the real situation.

Looking back, I can see that much (but not all!) of the information I eventually uncovered was indirect and would be considered hearsay – MMN has not posted anything (that I could find) that could be traced to her directly, except for her own website. There are a great many individuals who could likely be willing to contribute information from their own experiences should that be needed to get to the bottom of this – a single query to any of the bouvier discussion groups on the internet would likely result in a deluge of responses.

What is now needed is for **all public documents** pertaining to MMN to be available on the web for anyone to peruse, should they need to "check her references" prior to pursuing an animal adoption. Toward that objective, would you please send me any public records you might have, or direct me to other agencies, department or places I can gather those records. Enclosed is a check to cover the first \$10 of copying fees. Let me know if the costs exceed this and I will cover them.

Again, thank you for any help you can provide in this matter. I am pleased to report that the adopted dog, Pilot (renamed Pirate long before these events came to light) is settling in well and negative behaviors of growling and lunging have virtually disappeared. He has been rabies vaccinated by my vet and we are running titers to see if he needs additional vaccines. His microchip (inserted but never registered – go figure!) is now registered to us. If you have any questions or need additional information, please don't hesitate to call me at my work (540-270-4516) or home (540-668-6904).

Most respectfully,

Edythe (Dee) Dunn

Subject: Florida Consumer Services Complaint Form

**Date:** 6/30/2006 12:04:06 PM

**Person Filing Complaint:**

Edythe B. Dunn  
13245 Sagle Rd,  
Purcellville VA 20132 USA  
Work Phone: 540-270-4516  
Home Phone: 540-668-6904  
Age Group: 40 to 55

**Business or Person Complained Against:**

The Humane Society of Inverness, Inc  
2109 South Mohican Trail,  
Inverness, FL 34450 USA  
Date of Purchase: 4/16/2006  
Product or Service Involved: adopted dog  
Cost of Product: \$250

**Explain Your Complaint Fully:** I have two concerns in this complaint: 1. This rescue organization states on its website and on contracts that it is a nonprofit organization (license # CH18244)- but when I called to check the status, the FL Dept of Agriculture Consumer Affairs office informed me that the 501 c3 status had expired 1/5/06. 2. Margret Meier, the president and woman who sold me the dog, delivered the dog to me in SC. At the time, she stated she had forgotten to bring the health records and vaccine records with her, but would mail them when she returned to FL on 4/17/06. After several months of calling and emailing her, after hearing that she had sent them but them not arriving, she finally agreed to send them to me, by certified mail. When those papers arrived, it included only a copy of the rabies vaccine certificate, no tag, and no vet signature verifying the other vaccines. On closer inspection of the paper, I noticed the signature of the veterinarian looked like Margret's own signature on the adoption paper/contract. So I researched the name of the vet (based on the signed name) and finally located the clinic that registered the Rabies Tag. There are multiple discrepancies on the certificate - the tag was initially issued on 4/25/2005 to a female bouvier named Selena. The certificate states th is tag was issued on 3/17/06 to Pilot, a male dog. The Clinic who registered the tag stated that the vet whose name was signed did not work at the clinic in 2006 at all. With the help of the clinic (Rainbow - 352-489-5121 - Betty Whittaker, or Linda or Dr Fox) they helped me locate the vet who allegedly signed the form - Dr Mary K. Edwards, who is now working at Banfield Pet Hospital in Ocala (352-861-0300). I spoke with Dr Edwards who denied she signed that form on that date, reiterating she had left the clinic well before the 3/2006 date. So I was given a rabies vaccine certificate that was not issued by the person named on the form, not on the date, not to that dog. And it was issued by an organization that claims to be nonprofit 5013c licensed which it is not. I have the certified letter envelope and the fake rabies vaccine certificate to back up my complaint. I have faxed copies of this information to both the vet whose name was on the certificate, and to the vet clinic that issued the rabies tag. I also provided my local sheriff's department Officer Travenner - (Loudoun County Sheriff's Department - in Virginia) with a copy of the paper so they could begin to investigate the case. I have not contacted Ms. Meier to ask her why she sent this fake certificate because I would not believe what she says - she has told me too many lies for me to know what is true and what is not.

What Would Satisfy Your Complaint? I have had to spend money to get my dog legally vaccinated as well as tested for all the diseases Ms. Meier's assured me had been done with negative results, and also had to run titers on the other vaccines which should have been given to see if in fact this poor dog has had the shots he needs. The usual practice with rescue organizations is that the animal is fully vetted before the adoption occurs - with the exception of neutering if the animal is not old enough - and that was not an issue in this case. I want my \$250 dollars returned to me to cover these costs, and I want this woman to stop representing herself as a nonprofit rescue organization. I would like the facts of this case to be available, through any reasonable Google-type search, on the internet for anyone to read so that they can decide whether or not to do business with her in the future. Please email me a case number so when I mail copies of the documents it will be sure to reach the proper person/office.

Do you authorize DOACS to send a copy of complaint to the business you are complaining against or any other government agency for purposes of mediation, investigation or enforcement? Yes

Have you read 'FALSE OFFICIAL STATEMENTS' provided in the Florida Statutes? Yes

Have you read the paragraph regarding the role of the Department of Agriculture and Consumer Services in providing assistance to you? Yes

COMPLAINT DESCRIPTION									
<p>Margret Meier Nolan, president of The Humane Society of Inverness, issued to me a "Rabies Vaccination Certificate" that shows the signature of "Mary Edwards" as veterinarian. When I contacted Dr. Edwards directly she denied she had signed that certificate, stating she was not working at the vet clinic that issued the rabies tag #63697 on the date shown on the certificate. The original record on file at the Rainbow River Animal Hospital in Dunnellon, FL for that rabies tag states the rabies vaccine #63697 was given on 4/25/06 to a female Bouvier named "Selena" - the copy of the certificate Ms. Nolan sent to me clearly shows the date of vaccination was 3/17/06 and was allegedly given to a male Bouvier named "Pilot".</p> <p>It appears that Ms. Nolan issued a bogus rabies vaccine certificate to me when I adopted the dog named Pilot. I have heard informally from others that Ms. Nolan may have done the same in the past to other adopting individuals.</p> <p>The Humane Society of Inverness is listed on their business website as being a nonprofit 501 (c) 3 organization - in fact, according to the Fl. Dept of Agriculture/Consumer Affairs/nonprofit office, this status expired on 1/5/2006, although Ms. Nolan continues to solicit funds as though license was still valid. On adoption papers she provided and that we signed on 4/16/06 she made it clear that The Humane Society of Inverness was a nonprofit organization.</p>

Yes, he got adopted. he is now in florida, with a family, who adopted tow years ago a bouvX Misha from me. they have had efore a Doberman, who was blind. so they can deal with Spot,if he looses the eye sign.

Refresh my memory, wher do you life??? I have now Pilot here, he is a beautifull two year old solid black bouvier, cropped and docked. he is looking for a home and i think, he could get used to cats. he is housebroken and crate trained.

I'm in Virginia, in the Blue Ridge Mountains.

We have about 33+ acres on the mountain, most of it fenced for the sheep and guarding llamas. We do NOT intend to train for herding, and will need to make sure the new bouv would get the message to steer clear of the livestock, as the llamas are fierce protectors of the sheep (we got them after losing sheep to coyotes). Our current bouv is very respectful and had learned to "herd at a distance" to satisfy her own needs! We also trained her to retrieve so we can give her lots more exercise up and down the mountain than we could walk ourselves.

And we have a cat as you may recall. Ironically, she went blind suddenly last month. Now under treatment she is doing better and seems to have recovered much but we learned a great amount about dealing with total blindness in animals. I'm sure it will be useful information sometime!

Feel free to check out my website - deedunn.com - for more information and photos of Gigi (our bouv). Her rescue diary is on that website if you are interested in reading it. You can also get a reference from Dale Shaffchick, I'm sure, as she and I have had several contacts over the past couple of years re: bouvs and rescues.

dee,

i have read your webpage and the story about Gigi, what a adventure..

i wil inow tell you the story of Pilot

Pilot is out of my breeding, born December 3, i sold him to a women, who have had Rottweiler in the past and showed them.

He was the pick of the litter, and Anne , the new owner of Pilot, stayed here over one week, until she could take him home.

She signed a contract, that she will show him and doe obedience training with him.

She lived at this time in Georgia, and i keep contact once a month with her. . i heard only stories, how good he is, how protecting he is, that she does obedience training with him..

Then 5 month ago, she told me, that Pilot bite her son ( 24 years old).... i tryd to get the picture, what happend, it was not clear .. possible it was my german english. i could not follow here.

She neutered the dog, and told me, that she have to walk him with a whip. at this time, i honestly did not know, what a whip is ( for horses)

Two weeks ago, we have had our Bouvierbash. there was 15 bouvierowners from all over the state, and we offered seminars about tracking, obedience, and proetction..

Here i met Pilot again, a dog, scared to hell, 3 people have seen Anne, hitting the dog with the whip on the head.

We have had a big discussion, and finally i could not see it any more, i offered her money, and i got Pilot back.

He is now in a much better shape, stil lscared, if you tell him in a loud voice No. he is not afraid of my hand any more, his tail is wiggeling the whole day, he is playing with his sister... he loves his big crate, but most of the day he is loose in the house, he needs a faliy, who is willing to work with him, give him attention and love, and get him secured again.

So, i do nto know, if you think, he would be a good match for your family and Gigi

Poor Pilot. We think this would be a good home for him. Would you want to come see our place and bring him with you - and if you don't agree that this is a good home you can take him back? That would be a best way to see how we are with our other animals and maybe help you predict how we would treat Pilot. You are welcome to stay here as long as it takes you to know for sure - we have a nice spare room and you are welcome to use it for a day or a week - whatever you need to know if this is the right home for Pilot.

I have no idea how much it costs to drive from Florida to here, but we will certainly work with you on those costs even if you don't let him stay here. The bad news is - at this time, having just taken a month off to go to NZ I cannot take more time off to drive to Florida and I think it might be upsetting for Pilot to take an extended road trip with strangers.

As you might have read on my website I work with individuals to have trauma backgrounds and I think this makes me well qualified to work with abused animals.

Do you have any indication that Pilot is afraid of men? Frankly I think most 24 year old men would behave better if they were bitten, but then I might be a little biased on that.

You are welcome to call us at home - 540-668-6904. I am home most evenings after 7 pm and most Sundays and Monday days. My husband is home most days.

Dee

Dee,

thanks for the offer. I do not think that Pilot is afraid of mens. he is afraid of every new person. so he needs time to adjust..

It is possible to bring him up after Eastern, if this would be ok with you... I am the president of the Humane Society here and have at the moment 42 dogs here at my house to take care of. .

Possible we can meet some where between.

I will try to take pictures from him next week.. he is a beauty.... and smart... only afraid...

So, prepare your girl.. her brother is coming up in the next couple of weeks.

Thank you for offering him a loving home. he will give you a lot of love back

Hi Margret,

We're trying to shuffle some things around here re: timing of Pilot's arrival. My husband has a 50 yr reunion in June (6-12) and we planned to leave Gigi at home with a sitter. I am thinking that would be hard on Pilot, especially as a new arrival, so would ask if you could hold him until June 15th or so. Any time after that as we do not have ANY travel plans for the rest of the year

Is that possible? Or another option would be you invite you to bring him up and stay for 2 weeks - the first week as a guest so Gigi would adjust to you and then the second week as a pet sitter . amid the mountains and the sheep. if you would be interested!

If you think this is being unnecessarily cautious about Pilot, let me know, but from your description it sounds like he will need a bit of time to settle in before being put in yet another stranger's care. This year is the first time since we got Gigi that we have had to use a pet sitter (obviously NZ was not a travel option for her) She has always travelled with us , but I don't think Pilot would appreciate going on vacation so soon after meeting his new family. Perhaps I am wrong - in which case let me know!

Dee

Dee,

i can not stay there, i am to busy with the humane society, i did not have vaction for 6 years.. Pilot is fine here with every one of my helpers and also volonteers, he barks and growls inside his crate, but then when you let him out, he is fine..

I really do not know, what would be the best. i could try to get him end ofApril in your directions, so that he have time to get used to your petsitter ..give me yourcorrect adress again , so that i cna get map quest, and see how many miles it will be.

Hi Margret,

I just checked on some travel ideas to see if there was a comfortable and efficient way to do this.

A one way car rental from Orlando is \$20 per day - (I figure 2 days driving) and then flying you home would be about \$100 which would sure make your trip home better! (This is all based on Orlando and I have no clue where Inverness is compared to Orlando. but it might be easier on you to have a 2 hour flight home - wherever home is - than to drive both ways )

What is the adoption fee for Pilot? - so I can take a look at our budget to see what more we can swing to help here. Would ARBL help with the transportation costs?

Tell me where you'd like to meet - we might be able to meet depending on if we can get a sitter for the farm ( if it requires an overnight) Travel is a herculean effort around here and I have already tapped out my neighbors with the recent trip I took and I am working on the "emergency list" for the reunion I mentioned!

We can do to Norfolk and back in one day - or to near Balcksburg and back in one day. Does that help you at all?

I'm sure it will work out for the best - I just have no idea what that will look like!

The \$250 is as I expected so that is fine.

Dee

Dee,

ABRL will not help, because we are one independant Rescue organisation.. the adoptionfee is 250,00 Dollar, this iincluding neuter, current on shots, heartworm prevention.

Orlando is around 2hours away from me, if i wouldfly i would fly out of Tampa. but are you willing to drive 250 miles to meet me??

I have a seminar on a weekend in Virginia Beach. this will be from Friday night to Sunday afternoon. . it should be end of April. i could bring Pilot with me, i checked, it is around 250 miles from you

I do not know, if you could make this

Dear Margret,

I have sent this application two times I have tried to copy the application to send you but cannot do so. If you want to call me I will be happy to give you my answers, but it is a total act of frustration to keep sending that which does not arrive. I know from experience that God sends me an animal when He is good and ready! Perhaps this is an indication that this is not "our" dog. I'm sure it will work out the way it is supposed to, however that goes

As to whether it is your computer or mine I cannot say When I type the application information on your website and hit the "submit" button, your program opens my email program and tries to send an email to your address I thought perhaps it was attaching the application by itself, but apparently not. So I don't have any idea how to remedy the problem

I will be home and available for a phone conversation on Sunday morning early and then after 8 pm Between times we will be working outside if the weather is good. If you call and I don't answer, leave me a message with a time to call you back and I will.

I did call and leave you a message on your machine - did you get that?

Dee

Dear Dee,

i just was on my webpage, Humane Society of Inverness, filled out the application, hit the submit button. i got a note. your application is submitted... my own application was in one second in my mail box.

So, it works.. and i understand that you are frustrated, but i am on my end as well. i want the best home for Pilot, i am willing to drive 800 miles one way to bring him. but with out any application. i will not do it..

You are right, possible this is a indication, that Pilot is not the right dog for you

Hi Margret,

I would not want to place my dog with an unknown either! I am more than willing to answer the application questions "live", if you would be willing to do that over the phone. Tell me a time to call you and I will do so (Sunday or Monday)

Do you use Internet Explorer for your internet connection? We use Mozilla Firefox - I wonder if that might be the problem. You might check with your webmaster to see if they know of any conflicts. I did not get any message about my application having been submitted - neither time.

Hi Margret,

I need to plan my schedule for the rest of April - can you pinpoint which Friday or Sunday you want me to meet you in Norfolk/Va.Beach (I work on Saturdays so it needs to be a Friday or Sunday) And we just discovered that Ken has a class to teach on April 28th - 30th so if it is that weekend I will be coming down alone. That isn't a problem, but it does mean that (if picked Pilot up on the Friday, he would have to go to work with me over that Saturday) so I'll need a crate for him in the office so he feels secure enough. You had mentioned you had a crate - is that for sale? Or should I be looking for one up here?

Dee

I just called the vet - we do not do the bordatella as she does not board or go to the groomers. And the phenobarb has not been prescribed for about 3 years - so she doesn't need levels done. She got her rabies shot from another vet this January when I took her for a second opinion on the endoscopy issue (Linden Heights Animal Hospital, Winchester, VA - 540-667-4290) So she is up to date.

Hope that eases your mind! We HAVE to have the vaccines up to date to get the licenses in VA, so I knew she was up to date - but I'd forgotten to pass the rabies certificate to the regular vet.

Hi Margret,

We can come on Sunday to Florence, NC · that seems to be 1/2 way - about 8 hours for each of us Ken is not comfortable with driving 2 days alone as he gets stiff and creaky knees and hip" if he drives too long.

Unfortunately the sitter whom Gigi knows and tolerates is not available, so we will have to bring her with us That means the dog crate needs to either fold or be able to be tied to the top of the car We have a Subaru station wagon so there is enough room for both dogs in the back. Since I have not seen the crate in the car, I can't visualize if the crate with dog in it will allow for another dog to lie beside. Perhaps if you can give me dimensions of height, width and length I can test it out, but if the crate will fit on top then it doesn't matter

If you agree to Florence we will be happy to make motel reservations together so we can eat dinner and blend the dogs for the evening. We'd like to see how you have worked with Pilot so we can use the same phrases and voice tones to make him comfortable.

If you are in a hurry and want to head back that night we will understand.

Dee

Hi Margret,

We are reserved and ready to roll - this hotel is located off exit 164 - I 95 at US 52. These are nonsmoking rooms - hope that's ok - let me know if you want a smoking room. (reservation is below this message).

Correction to the car type - we have a Subaru - not a suburban. Suburbans are bigger. I am looking into putting a metal divider in the back so Pilot can have one end and Gigi can have the other end of the back. If you send me the measurements of the crate I can see for sure.

I am still trying to get a sitter that Gigi knows. I would like to Pilot all the special attention for the trip, but we'll see how it works out. If nothing else, Gigi and Pilot will have the night together before we head back. Perhaps that will make Pilot a little more at ease. Gigi has always been good with other dogs and has never shown jealousy when I pet another dog.

A funny story about Gigi - she has a "belly rub" song that I sing her every night as I give her a rubdown and she knows it well. Usually when another person starts to sing the song Gigi will growl at them - only mom is allowed to sing it to her. The other night my husband started to sing it and she growled - we laughed and then he started to sing in again. But he screwed up the words. Gigi snorted at him - apparently she knows the correct words and thinks he's a moron. When Ken tells her to do something that she doesn't want to do she snorts at him - just like a horse.

Very funny dogs, these bouviers!

Dee

Forgot, i will go tomorrow and buy a used crate for him, and then i will send you the messarments.

you are right Bouviers are funny, but for me they are the smartest dogbreed what is around, and i rescued now over 6,000 dogs. so i know a lot of breeds.

I think, Pilot knows, what i going on he looked funny at me today, as i told me, that i found a home for him alone, where he doesn't have to share love and attention with so many bouvs. i hope, he understood. i am thinking about bringing one of my other dogs with me for the trip, so that i am not alone, when i am driving back.. lets see, who will behave. they will have a fun weekend with mom.. IOL

Ok - change to reservation has been made and the reservation is under "Kendall Randolph" in case you arrive before we do - and tell Pilot to look "small" because they allow "small dogs" I told them he is small for his size. That is double talk, in case it does not translate so well in German!

I understand there is a breakfast here that is good - lots of coffee, no doubt!

Hi Margret,

We will be leaving early on Sunday morning to try to get to SC before the afternoon returning home rush hour begins. Our cell phone number is 540-270-4516 in case you need to reach us. If you have a cell phone, let me know today as I will not check email messages after about 8 pm tonight (Saturday).

I have borrowed a gate to close off the way back from the back section of the wagon so Gigi and Pilot will have private quarters for the trip home. Although they will have had an overnight together I don't want anyone to get upset on the ride back. So if you are bringing a crate it will need to be folded and tied to the top of the car. We will bring all the tied down stuff.

I'm figuring you will send several days worth of dry food for Pilot - I thought you had said Nutro when we talked but am not sure which one, if indeed I heard you correctly. There is a PetsMart near work so it will be at least Wednesday before I can get there.

We are looking forward to meeting you and getting Pilot into a forever home. Tell him we are serious huggers and have a nightly sit-on-the-floor-and-hug-everybody-for-at-least-15-minutes (which the cat has recently joined as well).

Drive safely and don't smoke as it is not good for you! (I quit a 4 pack/day habit about 15 years ago so I can empathize)

Dee

Hi Margret -

We are now home, and things are going well. The cat was not impressed and Pilot is learning to lower his eyes in the presence of Her Eminence the Cat.

Gigi is looking very sad at how her world has changed and utterly refuses to give Ken kisses tonight. We are making sure she has the "first rights of refusal" on all treats or activities. Tomorrow she and I will go to work and she will have success in her own domain. That should help her adjust.

Pilot has been very comical - he likes to throw himself on his back and waggle all 4 feet in the air to get his belly rubbed. Here is a photo taken tonight - you can see he has no qualms about throwing himself into Ken's lap! Might have been a nervous yawn but it ended with a supreme slurp up Ken's face. I think Pilot is bonding well.

We have done the "boundary conversation" and shown him the area within the electric fence where he can potty. He liked the deck and spent a while sticking his head through every rail slot to see what the view was. The llamas were curious and each watched the other for a few minutes. Pilot has been given the first lesson on "we don't mess with the llamas". No doubt there will be more.

He growls when he is confused - if I change the plans a little too quickly for him to follow. And he likes blackberry sauce on french vanilla ice cream. Now if I can teach him to pick the blackberries and put them in the bucket we will have plenty for the years to come!

We will let you know how things proceed.

Thank you for your efforts - they are much appreciated.

Dee

Dee,

thank you o much for the picture and update ..i left you two message on yor mashine and i was startig to worry .

I know, that he ill be fine, i hope only. that you can love him over time o much as you love Gigi. no question, she is the princess and moms kid. .

Thas she is not impressed at the moment, this is normal. her world is now upside down it takes up to one month, until she figure out. tht mom still loves her and tht Pilot is only a broher, wher she can play with.

I ma stil lwondering, that Pilot makes uop to Ken so fast.. he never was around mens.. guess Ken is a special person ( you know that)

Thanks again and please keep in touch

Good morning, Margret.

Here's another photo of Pilot - relaxing on the swing with Ken last night. Pilot is adjusting much faster than we anticipated. He has become Ken's shadow with moderate anxiety when Ken is not available to him, but he can settle down (outside the bathroom door) and wait it out.

He "touches base" with his crate during the day but only for a moment and then he's back out, reassured that it is there if he needs it. He sleeps in the crate at night.

He has been respectful of the cat - Gigi showed him how to touch noses with the cat, gently, and Pilot appeared to watch and learn. He is a very fast learner on things that are partly familiar - takes a little longer on things he has no preconceived ideas about. Obviously bright!

He has shown no desire to chase the deer or the squirrels, but I am sure Gigi will instruct him on how to chase the squirrels off the bird feeder (which is her job!).

He has had a little diarrhea in the evenings - but not in the mornings, so I think the anxiety is working his system - he gets the same food each meal so I doubt it is the food. He is anxious at times, but very quick to respond to hugs and cuddles. Actually coming to get them - by climbing into Ken's lap at times!

Still working on barking to tell us he needs to go out to potty - he is squeaking louder now but still no barks

Dee

We can't figure out why she would feel the need to whip Pilot - he is SO eager to please that as soon as you tell him "good boy" he wriggles and squirms to get kisses, or flops on the ground for a belly rub. A little exuberant but no bad behaviors - and he will settle down with time. His kisses are very small and tender except for the occasional nose nibble he gives! What a cutie. No interest in toys yet although he's beginning to mimic Gigi's play with her squeaky ball. I hope he is willing to retrieve because that is a big part of our exercise program! I can throw a ball a LONG way down the mountain and the uphill run has put muscles on Gigi!

Gigi has started responding to his play bows with a few of her own, so things are going well there. My clients are pampering Gigi because they are projecting their own feelings onto her. But she seems fine - and SO ladylike compared to Pilot.

Pilot's nose is in overdrive.. all the new smells to be investigated!

Bowels are better today - still soft but more firm than before - we'll do some rice and chicken today.

Permission granted.

Pilot is flying low and fast these days! Ken started to sit in his favorite wing chair and before he could complete his intention, Pilot jumped up into the chair behind Ken. Later the same night, Ken sat in the swing (same as the one in the photo) and Pilot took a flying leap into his lap. He is one happy dog.

Tonight we all went to the grocery store and Pilot "guarded" the groceries all the way home. Keeping Pilot out of the car is a challenge. That boy loves to ride! Gigi is getting a little more assertive - that is HER window and HER place to sit in the car. I hope she continues to lay down the laws - she could stand to be a little more assertive.

Pilot made full contact with his nose on the electric fence this afternoon and I daresay that will never happen again. Hard lesson to learn but I'm glad that is behind him now. They all have to do that, it seems. Especially when there is a big smelly llama on the other side of the fence. temptation on 4 legs

Pilot is a fast learner. He is able to take ice cream off the spoon now without dropping it. Every dog who expects to make it in polite society needs table manners. Don't you agree?!

Dee

Pilot is devoted to Ken. He does listen to me but Ken is the sun, stars and moon!

Coming soon - the latest photo - Pilot invented the "bedtime hug" routine. Leaps up on the (high) bed, throws himself at Ken for a snuggle, and one presumes, a bedtime story, and then gets down and goes to his crate for bed.

The crate is becoming less and less important to Pilot - yesterday he went in twice for a few seconds and then came right out. He still sleeps overnight in the crate but daytime naps are now sprawled on the floor

He is a million laughs I have to think the previous owner did show him much love and indulgence at some point to have instilled this ability to love with such enthusiasm!

Hi Margret,

When will you be sending the paperwork on Pilot? I need to get him licensed and need the rabies certificate for that.

He's doing well - learning to retrieve balls, playing nicely with the cat and making really good progress on both.

No, I don't have a fax, but snail mail will be fine! 13245 Sagle Rd., Hillsboro, VA, 20132

the morning routine. Pilot pushes open the door of his crate when I get up, and comes out to sit by the bed (Ken's side) and stares intently at Ken's face. As soon as Ken's eyes open, Pilot POPS onto the bed for a cuddle. Usually as on top of Ken as he can get!

Hi Margret,

We have kept Pilot on his Nutro food with some of Gigi's sensitive stomach diet (a handful of kibbles) since you delivered him to us, but he continues to have chronic soft/loose stools. I gave him a dose of peptobismol and that really helped for a day, but then back to the problem. He is not drinking stale or standing water - only clean water out of a bowl cleaned daily. Was he eating the Nutro at your house? (He had loose bowels when he arrived in SC)

He is not getting any spicy food, rice helps some but not enough. I was hoping to tighten things up without a complete shift to a rice/chicken.

When was the last time he was checked for worms?

Meanwhile, he is a sweetheart and has learned "wait" - no whips needed. very smart and so responsive. The woman must have been hormonally deranged. There are no behaviors that are out of control. We took him out to the farm store the other day and he was active but well behaved. Keeping him out of the car is a challenge, but he comes out after a few commands! Obviously he loves travelling.

Dee

Dee,

he was checked for worms, one week before he left, but you never know.. i would deworm him again. you for sure have dewormer in your hoise with all your animals.

he have had tapeworms, as i got himn, so i dewromed him 5 days with panacur.. is he loosing weight???

To my eye he looked a wee bit thinner but Ken thought he was a tad bit heavier, so we will do a stool sample.

You use panacur?! Thought that was for sheep! Guess I never thought about cross use between dogs and sheep. silly me!

I just gave him a heartguard, ivermectin, the other day, so that should take care of a few kinds but I will do the sample anyway

Are his records in the mail yet?

Dee

Last night Pilot was sitting at the patio door - facing us - squeaking and grumbling. Took us a few minutes to figure out he was telling us the cat was locked out on the deck.

He takes his herding duties very seriously and won't go for a walk if we leave someone behind. Thank goodness the cat hasn't gone with us (she used to do that when it was just Gigi and us) or we'd never get in a good long walk!

I suspect he has been trained to growl on command. when I ask him if he's going to growl, he does

He has also growled at me when he wants me to continue doing something - like a belly rub. Sometimes when I quit he growls and then rolls belly up.

Stools were outright runny yesterday - after we had started the rice/chicken routine. If he hasn't shown a significant improvement by Monday we will take him to the vet.

Please email me the Florida vet's telephone number in case I need quick proof of vaccines. We hope things will arrive in the mail but mail does not arrive until afternoon.

Other than that he is happy and active. He met Gigi's friend yesterday - she came to sit with him while Ken had a class to go to. Pilot was very civil and accepted pats with tail wags, and then went back to his room. He has decided that if we aren't in it, custody of the bed defaults to him.

He has a Masters degree in cute.

Hi Margret,

We have not received the vet records for Pilot and it has been well past when you emailed that it had been sent.

Please check that it went to the correct address -

13245 Sagle Rd  
Hillsboro, VA 20132

Thank you!

Pilot is doing well - he is a maniac out in public and we are working hard to correct some very bad habits - lunging while on lead, growling and lunging out of the car at parking lots - a few surprises!

Apparently the previous owner taught him to growl on command. Can't recall if I told you that or not.

At home he is a sweetheart and mild mannered except when I tried to lift him into the tub - got snarled at for my troubles and oh my but he had a nasty snarl! We have had a few conversations about that but it is still an issue.

Soft stools continue to be an issue - we just got an answer from the vet on the worming dose - we use the Safeguard 10% fenbendazole paste for horses on the sheep and llamas, but I needed to know the correct dose for dogs. Took them 2 days to return my call, but they finally did. The stools start as soft and then end up as diarrhea - he appears to have spasms after a bowel movement but does not have diarrhea during the day.

The rice/chicken diet was great for about 3 days and then he started having the same problems again. And we suspect a problem with fats, and dairy products as cheese does not help bind him up as it does with Gigi.

Learning a lot these days and generally having a great time with him. He has a very high energy level and needs a LOT of running around. I am trying to convince Ken to do agility training with Pilot so that they can burn off some of this energy. My guess is he would have made a very good herding dog - not a high prey drive but very willing worker with lots of energy. Gigi is not impressed and makes it clear that as a Princess she should NOT be subjected to his shenanigans. But she is succumbing to his adorations - she allows him to sleep near her now, although he is still NOT allowed to touch her or to sniff her!

Please let me know about those records.

Good morning,

can you give us one update on Pilot??? we are in the process to put his former owner on a dna lists. this means. do not adopt or do not sell a dog to her.

As people have seen on another Bouvierevent, she still have one bouvier female, what she got as a birthday present,this bouvier is also very scared of her, and some people try to confince her, that she should give this dog up.

Margret,

I have not received any records to date. This should not be a surprise to you, as I have emailed you and left phone messages to that effect on several occasions. I also sent you an email with my address to make sure you were sending it to the correct address. I do not have a fax - and had told you that too. I did send you my vet's fax, and they report nothing has come through. At this time, I request you send me the complete records by priority mail to this address: 13245 Sagle Rd., Hillsboro, VA 20132.

I have requested the vet records by email, and I have tried to contact you by phone several times, including your cell phone. You have not returned my emails, nor have you returned my calls. While I appreciate you are very busy with rescue operations, I cannot understand why you would put one of your own dogs in danger by withholding vaccination information or microchip info. You surely must be aware of the hazards of overvaccinating animals, and surely you would not want Pilot to be returned to his previous owner by accident.

Specifically, I want the records that verify, to the satisfaction of ANY reasonable vet and State rabies regulations, of dates of vaccinations.  
I also want the microchip information so I can transfer the contact to me.

I will be happy to provide any information about his behaviors, initially and at this time, AFTER I have received the full records as you promised.

Thank you.

I hope you will receive the paper work today . i put also a new avid application in it, i do not have the number any more.. so you need to go to your Vet, and let him scan Pilot... then you have the number.

If there is any problem with the old owner, i have the cancell check and witnesses, that i bought the dog ack.

I already contacted AKC, to get the paper work transfered, as soon as i get them, i will mail them also to you. .

Also he is neutered, it would be good to have it...

I picked up the letter from the post office this morning. They could not explain why it took 7 days to get here. Sometimes I wonder about those folks.

I will send another photo when and if the sun comes out again. Very wet here!  
Pilot adores his "sissy" and hangs by her constantly, much to her frustration. They now have separate toys and have learned to take turns on who's ball is being tossed. Sometimes Gigi pretends to chase Pilot's just to make him move faster. He grabbed her ball three times. She ignored him the first two times, but gave him hell on the third time. He hasn't done it since.

He is a happy camper, and growling is much reduced - no more snapping at me even when I gave him a bath. He has maintained an interesting habit of "purring" when I rub his belly. Growls with each stroke. Sounds like a purr to me. If I stop, he squirms around to get my hand in the right place again so I know he likes it. He doesn't do this with Ken at all, so I am not sure what that means, if anything.

Pilot does not like it when Gigi and I go off to work, but he is learning to accept it better. He jumps on the bed (not allowed but not preventable, either) and watches out the window, wailing once or twice, and then settles down.

He is MUCH improved on the leash - rarely pulls hard, but he does not like to heel close - probably afraid of getting whacked on the head or something. The other day I walked both of them into the vet's office together and it looked like they'd been doing it that way for years. No tangles, no scrimmages. People were impressed. So was I but I tried to be cool!

Ken was gone the other evening and I was doing "critter duty" so I couldn't get a picture of the 4 of us, Gigi, Pilot, me and the cat, all having a hug-fest on the floor. The cat boxes Pilot if he dares to sniff her, so the cat was cuddled up with Gigi, who was across my legs, with Pilot wrapped around the rest of me. It was quite the photo - I'll try to get Ken to capture it the next time we do a hug-fest.

Gotta go - there's another thunderstorm coming in and I already blew up the phone on the last one. can't afford to lose the computer too.

Dee,

thank you for the update of Pilot... we have so much problem with our post office, it isn't funny any more... I have send out several letters, i am lucky if 50% of them made it..

we complained several times, but no help... it was one week again in sound off, our newspaper... so i am not the only one, who have problems.

Waiting for picture of hughparty

<b>Officer:</b> SCHRADER, SUSAN	

**Results:** Picked up 2 kittens from John Nolan, 1 black male, domestic short hair and one brown tiger female, approx 6 weeks old.

I, Officer #27 and officer #24 Went to the home of Margret Meier to examine her animals and the living conditions of these animals. We took pictures of our findings. One kennel didn't have proper shelter for the dogs. We advised Ms. Meier of the County Ordinance for shelter. The conditions were not up to the standard that we like, but she said she is trying to improve daily by installing concrete floors, housing and keeping better records on all the animals. We explained that as a representative of the Humane Society she is held to a higher standard than most. She was told that we would be back to check periodically on care and condition of the animals. She was given a Warning citation (#1219) for unlicensed animal times 4.

We went across the street to the home of John Nolan, who is the husband of Ms Meier's. As we stepped onto the property to go thru the entry gate we noticed a kennel of Irish Wolfhound pups who appeared to be approximately 6 weeks old. There was a strong offensive odor coming from the kennel. The puppies

had no water and the pen didn't have adequate shelter for all 10 animals. The dirt floor was covered with feces and urine. When we asked Mr. Nolan about this situation he became irritated with our questions, stating that he works nights and hasn't had a chance to feed the animals since 2 A.M. He was told that this is failure to provide humane treatment and that the wolves are required to be registered with the county and have to meet proper requirements for housing. Mr. Nolan was very angry with us for writing citations. He refused to sign the citations and we had no choice but to call a deputy sheriff for assistance. After the deputy explained the ramifications he did sign the citations and we left the property. Citation #5982, Failure to provide humane treatment x 6---Warning Citation #1218 Unvaccinated and unlicensed animals x10---Warning Citation #1220 Hybrid wolves x 3.

sults: p/u 2 kittens from john nolan , 1 blk male dsh and 1 brn ti fe approx 6 wks old WITH #24 AND MYSELF WE WENT TO MARGRET MYERS AND EXAMINED HER ANIMALS AND LIVING CONDITIONS. WE DID TAKE PICTURES TO VERIFY CONDITIONS. ONE KENNEL DID NOT HAVE PROPER SHELTER FOR THE DOGS WE EDUCATED MARGRET SHE IS TRYING TO IMPROVE DAILY SHELTER, WHILE THE CONDITIONS WERE NOT EXCELLENT SHE IS HELD TO A HIGHER STANDARD THEM MOST. WITH CONCRETE FLOORS,HOUSING AND KEEPING BETTER RECORDS OF THE DOGS. WE EXPLAINED THAT AS A HUMANE SOCIETY SHE IS HELD TO A HIGHER STANDARD THEM MOST. WE TOLD HER WE WOULD BE BACK FOR CHECK UPS AS NEEDED AND GAVE HER A W.C FOR 4 DOGS NOT CURRENT WITH CO LIC.ALL OTHER DOGS WERE CURRENT.

WE THEN WENT TO HER HUSBANDS HOME ACROSS THE STREET HIS CONDITIONS WERE TERRIBLE.AS WE ENTERED THE PROPERTY TO GO TO THE ENTRY GATE. APPROX 10 BEFORE A KENNEL OF IRISH WOLFHOUND PUPS APPROX 6 WKS OLD WERE STONG ODER OF SOUR FOOD COMING FROM THE PUPPIES.

---

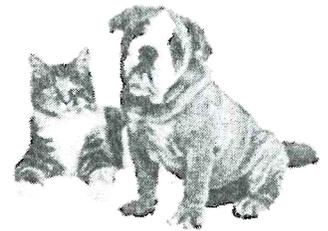

THE PEN AND THERE WAS NOT ADEQUATE SHELTER FOR ALL 10 . THERE WAS ONLY A DIRT FLOOR FOR THEM WITH FECES AND URINE SMELL. WHEN WE QUESTIONED THE OWNER JOHN NOLAN HE BECAME IRRITATED WITH OUR QUESTIONS. HE STATED THAT HE WORKS NIGHTS AND HASNT HAD A CHANCE TO FEED SINCE 2 AM. EXPLAINED THAT SOUR FOOD AND NO WATER IS A FAILURE TO PROVIDE AND THAT HIS WOLVES NEEDED TO BE REGISTERED WITH THE CO AND HAVE CERTAIN REQUIREMENTS FOR HOUSING. MR. NOLAN WAS VERY ANGRY WITH US FOR WRITING A CITATION AND WARNING CITATIONS HE REFUSED TO SIGN THE CITATIONS SO WE CALLED FOR A D/S FOR ASSISTANCE. AFTER THE D/S EXPLAINED THE RAMIFICATIONS HE DID SIGN THE CITATIONS AND WE LEFT THE PROPERTY. W.C.#1220, 1218, 1212 AND CITATION # 5982

August 3, 2005

Mary Redd  
Secretary/Treasurer  
Humane Society of Inverness

Dear Ms. Redd:

I am in receipt of your letter dated July 27, 2005 on behalf of Margaret Meier and our most recent complaint response at her personal/business address.

Your letter states I would know Ms. Meier would be gone when we responded. While I did know Ms. Meier had travel plans I did not know the dates of her travel nor would that be a factor when we would respond to a complaint.

Please note the attached complaint # 178323 dated July 21, 2005 is the most recent and was made by Suncoast Animal Clinic. Our entire file consists of 86 pages of documentation generated by our office, Palm Beach County Animal Care and Control, and several pages of internet advertisements of Bouvier des Flandres dogs for sale by Ms. Meier. Should you desire the entire file please contact our office for the fee to generate a copy. In my thirty years professional animal welfare experience, I have never known of anyone involved in humane work to advertise puppies for sale via the internet.

While this complaint was unfounded we respond to multiple complaints at the same address because conditions at that address could change. I have previously spoken to Ms. Meier suggesting improvements in her animal care.

Florida Statute allows a cruelty complaint to be accepted anonymously and some of the state's most successful cases have been received this way.

If we can be of further assistance, please call our office at 726-7660.

Sincerely,

Xan Rawls  
Director, Citrus County Animal Services

A few days ago we saw a desperate message on our list asking you to send money to help dogs from a lady called MARGRET MEIER she is located in South Florida. Many of you on the list asked to help, you are all wonderful, I telephoned Margaret and arranged to meet with her personally, as I have vaccines for kennel cough ( as all her dogs were sick with it) and other supplies, I waited an hour at Miami airport for her.....she never showed up or even called me. Our Team voted to provide \$3000.00 worth of emergency funds TO HER VET for help with the 21 Puppymill dogs she is supposed to have in desperate need, I asked what vet she was using and could I go

and take photos of the dogs....  
got no answer..... despite emails and phone  
calls messages left on her  
answering machine she has ignored us!! We  
have all been VERY  
concerned.....today we received this email  
which I am posting to the list.  
If some of you did not see the original email  
please ask and I will post it.  
We are always willing to help anyone in an  
emergency and allowed the  
original plea to out list, as of today NO  
pleading CASH to be sent to  
another rescue or individual will be allowed to  
be posted without our  
permission and if they are then we will  
immediately follow with a warning  
until we have had time to investigate  
ourselves. (Team Members PMR)

**RE: PUBLIC RECORDS REQUEST**

Dear Ms. Nolan:

I am in receipt of your letter requesting all emails sent and received by Xan Rawls, Animal Services Director, as well as all letters she has sent and received from August 1, 2004 until the present. In an effort to understand your request, I contacted you via telephone on September 5, 2006 to which you confirmed that you want all letters and emails from Ms. Rawls from August 1, 2004 to the present. As I indicated, it appears that there are over 23,000 emails sent and received from Ms. Rawls during that timeframe.

Due to certain public records that are exempt from public disclosure because of medical, rabies and other statutory requirements, not all of these communications are public record. Since some of these records cannot be disclosed, the County will be required to review each email and correspondence to ensure compliance with your request as well as compliance with disclosure laws. Estimating that it will take approximately 30 seconds per email, it is going to take about 192 continuous work hours to meet your request at an established rate of \$32.00 per hour. The cost of fulfilling your request will be about \$6,144.00 which will be payable upon completion of your request.

Due to the size of your request, we will not be able to devote all of Ms. Rawls' time to this task as she must carry out her other duties as the Director. She will need to split her time between your request and that of her other duties; therefore, it is going to take several weeks to fulfill your request. We will work diligently to accomplish this task as quickly as possible.

Before proceeding with your request, I am respectfully asking you to confirm that you still want us to proceed with the full intent of your request for all emails sent and received, as well as all letters written by Xan Rawls. Also, please confirm your intent and ability to pay for this request upon completion. If this amount seems too exorbitant, perhaps you might consider refining and narrowing your request to a more distinct timeframe and/or subject matter.

Ms. Margaret Nolan  
September 6, 2006  
Page Two

Either way, Citrus County is ready and willing to fulfill your request upon receipt of confirmation that you still wish to have all of this information. I look forward to hearing from you soon. If I can provide any further information, please feel free to contact me.

Respectfully,

A handwritten signature in black ink, appearing to read 'CP', with a stylized flourish extending to the right.

To Whom It May Concern:

It has recently come to our attention that the Director of Citrus County Animal Control, Ms. Xan Rawls, has received and sent numerous unflattering e-mails about our organization, The Humane Society of Inverness (501 (c) (3) IRS registered charity) to individuals out of state, as well as to parties in Florida who have nothing to do with our organization, (such as Ms. Donna Schmidt of the Humanitarians; another out of state individual involved with the American Bouvier Rescue League, an individual who had recently received a dog from me as a breeder and several other individuals I do not know, but who are definitely not involved with Animal our organization), the allegations made by out of state individuals or Citrus County Animal Control. Ms. Schmidt then promptly forwarded the same e-mail to another list of individuals, who have nothing to do with us. As a direct result of these e-mails and other correspondence about our organization, Ms. Rawls and her cohorts have been successful in ensuring that several of our previous, regular, large contributors have stopped making contributions. One specific individual from Oregon, a Ms. Sue Matthews, continues to make allegations, even though she has never been to our facility, has never contributed even one penny to our organization, has never adopted an animal from us, and has not been to Florida in the past 3 years. The e-mails sent by Ms. Rawls, in her official capacity as the director of Citrus County Animal Control frequently contain significant errors, all designed to make our activities appear scurrilous, unethical and shady.

As Ms. Rawls is a public servant, whose salary is paid through our property taxes, all of her e-mail correspondence which has been made from the Citrus County Animal Control facility are considered to be a matter of public record.

We are hereby formally requesting copies of all of Ms. Rawls' e-mails from August 1, 2004, until the present, received and send, also all letters. Please advise me of the costs involved in obtaining these copies and when I can come to get them.

We have received numerous visits from Animal Control officers, and Ms. Rawls herself, over the years, sometimes, 4 times in ONE week. We have made several complaints regarding these unending visits to the supervising County Commissioner, and every time, we were informed that they would stop, since no animal abuse, neglect or other such offenses have been uncovered. We have made every effort to comply with her recommendations, apparently to no avail. All Ms. Matthews or one of her contacts has to do is send another ludicrous e-mail accusation (usually/always from out of state) and Ms. Rawls springs into action, with e-mails, letters and personal visits.

The latest allegation which was made by Ms. Matthews, reported that we had served poached alligator at an event we hosted in March of this year, and that our organization

had rescued 500 cats during Hurricane Katrina which were then dumped, "behind Nolan's shack in the swamp". Ms. Matthews was not at our event, she has never been to my home, nor did she have anything to do with rescuing cats or any other animal from Hurricane Katrina. Our rescue efforts from Hurricane Katrina were coordinated through Posada Rescue from Washington State and involved less than 50 cats , which were fostered by Angela McMurray of the BowWow Boutique. Approximately 100 dogs also were rescued by our organization, which were fostered by Mrs. Nolan and numerous other families throughout Citrus County and neighboring counties. Ms. Rawls advised Ms. Matthews she would contact Fish and Game, and Mrs. Nolan had an official visit from a Fish and Game representative within the week, checking out her freezers. Ms. Matthews resides in Oregon!

Thank you for your cooperation in obtaining copies of the e-mails and other correspondence made by Ms. Rawls in her official capacity as the director of Citrus County Animal Control.

Sincerely yours,

Margret Nolan

President

Humana Society of Inverness

### MEMORANDUM

**DATE:** September 7, 2006  
**TO:** Department/Office/Division Directors  
**FROM:** Georgette Brock, Purchasing Analyst *JNB*  
**RE:** Statute 119.071, Public Records and Public Meetings - Revision

\*\*\*\*\*

Attached is a copy of the revisions to Florida Statute 119.071 regarding Public Records and Public Meetings.

In summary the revision states that:

1. If an agency rejects all bids or Requests for Proposals (RFP) and provides notice that it will reissue the bid/RFP the submittals are then exempt from the Public Records Statute 119.071 until the agency makes a decision on the reissued bid/RFP.

Note: The statute allows the agency 10 days after the opening of bids/RFP's for review prior to the submittals becoming public record. In order to avoid the submittals from coming under public review, please let Purchasing know of your intentions to reject the bids/proposals and reissue within the initial 10 day period after the opening.

2. If an agency rejects all Requests for Qualifications (RFQ)/ Invitations to Negotiate (ITN) regarding CCNA services and provides notice that it will reissue the RFQ/ITN, the submittals are then exempt from the Public Records Statute 119.071 until the agency makes a decision on the reissued RFQ/ITN.

Note: The statute allows the agency 20 days after the opening of RFQ/ITN for review prior to the submittals becoming public record. In order to avoid the submittals from coming under public review, please let Purchasing know of your intentions to reject the submittals and reissue within the initial 20 day period after the opening. The RFQ/ITN must be re-issued within 90 days after the decision to reject/reissue to allow the rejected submittals to remain exempt from the Public Records Statute.

Note: If presentation meetings are conducted within the 20 day period after the opening, the RFQ/ITN documents are exempt from the Public Records requirement during this time.

3. Negotiation meetings are exempt from Public Records Statute 119.071 up until a decision has been made or 20 days after the opening of the RFQ/ITN. However, a complete recording of the meeting shall be made. If all the submittals are rejected, the recordings remain exempt until the agency makes a decision regarding the reissued RFQ/ITN or withdraws the reissued RFQ/ITN.

All rejected Bids, RFP's, RFQ's/ITN's and the recordings regarding negotiation meetings are not exempt for longer than a 12-month period.

If you have any questions, please contact me at extension 5203.

ENROLLED

HB 1369, Engrossed 1

2006 Legislature

1 A bill to be entitled

2 An act relating to public records and public meetings;  
 3 amending s. 119 071, F.S.; creating a temporary exemption  
 4 from public records requirements for rejected bids and  
 5 proposals received by a state agency if the agency  
 6 reissues the invitation to bid or request for proposals;  
 7 providing for review and repeal; providing a statement of  
 8 public necessity; creating a temporary exemption from  
 9 public records requirements for a competitive sealed reply  
 10 in response to an invitation to negotiate; providing an  
 11 extension of the temporary exemption if the agency  
 12 reissues the invitation to negotiate; providing for review  
 13 and repeal; providing a statement of public necessity;  
 14 amending s. 286.0113, F.S.; creating an exemption from  
 15 public meetings requirements for a meeting at which  
 16 negotiation with a vendor is conducted; requiring a  
 17 recording of the meeting; temporarily exempting the  
 18 recording from disclosure; providing an extension of the  
 19 temporary exemption under specified circumstances;  
 20 providing for review and repeal; providing a statement of  
 21 public necessity; providing an effective date.

22  
 23 Be It Enacted by the Legislature of the State of Florida:

24  
 25 Section 1. Paragraph (b) of subsection (1) of section  
 26 119.071, Florida Statutes, is amended to read:

ENROLLED

HB 1369, Engrossed 1

2006 Legislature

27 119.071 General exemptions from inspection or copying of  
28 public records.--

29 (1) AGENCY ADMINISTRATION.--

30 (b) 1 a. Sealed bids or proposals received by an agency  
31 pursuant to invitations to bid or requests for proposals are  
32 exempt from s. 119.07(1) and s. 24(a), Art. I of the State  
33 Constitution until such time as the agency provides notice of a  
34 decision or intended decision pursuant to s. 120.57(3)(a) or  
35 within 10 days after bid or proposal opening, whichever is  
36 earlier.

37 b. If an agency rejects all bids or proposals submitted in  
38 response to an invitation to bid or request for proposals and  
39 the agency concurrently provides notice of its intent to reissue  
40 the invitation to bid or request for proposals, the rejected  
41 bids or proposals remain exempt from s. 119.07(1) and s. 24(a),  
42 Art. I of the State Constitution until such time as the agency  
43 provides notice of a decision or intended decision pursuant to  
44 s. 120.57(3)(a) concerning the reissued invitation to bid or  
45 request for proposals or until the agency withdraws the reissued  
46 invitation to bid or request for proposals. This sub-  
47 paragraph is subject to the Open Government Sunset Review Act  
48 in accordance with s. 119 15 and shall stand repealed on October  
49 2, 2011, unless reviewed and saved from repeal through  
50 reenactment by the Legislature.

51 2.a. A competitive sealed reply in response to an  
52 invitation to negotiate, as defined in s. 287.012, is exempt  
53 from s. 119.07(1) and s. 24(a), Art. I of the State Constitution

ENROLLED

HB 1369, Engrossed 1

2006 Legislature

54 until such time as the agency provides notice of a decision or  
 55 intended decision pursuant to s. 120.57(3)(a) or until 20 days  
 56 after the final competitive sealed replies are all opened,  
 57 whichever occurs earlier.

58 b. If an agency rejects all competitive sealed replies in  
 59 response to an invitation to negotiate and concurrently provides  
 60 notice of its intent to reissue the invitation to negotiate and  
 61 reissues the invitation to negotiate within 90 days after the  
 62 notice of intent to reissue the invitation to negotiate, the  
 63 rejected replies remain exempt from s. 119.07(1) and s. 24(a),  
 64 Art. I of the State Constitution until such time as the agency  
 65 provides notice of a decision or intended decision pursuant to  
 66 s. 120.57(3)(a) concerning the reissued invitation to negotiate  
 67 or until the agency withdraws the reissued invitation to  
 68 negotiate. A competitive sealed reply is not exempt for longer  
 69 than 12 months after the initial agency notice rejecting all  
 70 replies.

71 c. This subparagraph is subject to the Open Government  
 72 Sunset Review Act in accordance with s. 119.15 and shall stand  
 73 repealed on October 2, 2011, unless reviewed and saved from  
 74 repeal through reenactment by the Legislature.

75 Section 2. Section 286.0113, Florida Statutes, is amended  
 76 to read:

77 286.0113 General exemptions from public meetings.--

78 (1) Those portions of any meeting which would reveal a  
 79 security system plan or portion thereof made confidential and  
 80 exempt by s. 119.071(3)(a) are exempt from the provisions of s.

ENROLLED

HB 1369, Engrossed 1

2006 Legislature

81 286.011 and s. 24(b), Art. I of the State Constitution This  
 82 section is subject to the Open Government Sunset Review Act, in  
 83 accordance with s 119.15, and shall stand repealed on October  
 84 2, 2006, unless reviewed and saved from repeal through  
 85 reenactment by the Legislature.

86 (2) (a) A meeting at which a negotiation with a vendor is  
 87 conducted pursuant to s. 287.057(3) is exempt from s. 286.011  
 88 and s. 24(b), Art. I of the State Constitution.

89 (b)1. A complete recording shall be made of any meeting  
 90 made exempt in paragraph (a). No portion of the meeting may be  
 91 held off the record.

92 2. The recording required under subparagraph 1. is exempt  
 93 from s. 119.07(1) and s. 24(a), Art. I of the State Constitution  
 94 until such time as the agency provides notice of a decision or  
 95 intended decision pursuant to s. 120.57(3) (a) or until 20 days  
 96 after the final competitive sealed replies are all opened,  
 97 whichever occurs earlier.

98 3. If the agency rejects all sealed replies, the recording  
 99 remains exempt from s. 119.07(1) and s. 24(a), Art. I of the  
 100 State Constitution until such time as the agency provides notice  
 101 of a decision or intended decision pursuant to s. 120.57(3) (a)  
 102 concerning the reissued invitation to negotiate or until the  
 103 agency withdraws the reissued invitation to negotiate. A  
 104 recording is not exempt for longer than 12 months after the  
 105 initial agency notice rejecting all replies

106 (c) This subsection is subject to the Open Government  
 107 Sunset Review Act in accordance with s. 119.15 and shall stand

ENROLLED  
 HB 1369, Engrossed 1

2006 Legislature

108 repealed on October 2, 2011, unless reviewed and saved from  
 109 repeal through reenactment by the Legislature.

110 Section 3. (1) The Legislature finds that it is a public  
 111 necessity that sealed bids or proposals submitted in response to  
 112 an invitation to bid or request for proposals that are rejected  
 113 by an agency be made temporarily exempt from public records  
 114 requirements if the agency concurrently provides notice of its  
 115 intent to reissue the invitation to bid or request for  
 116 proposals. Such records shall be made available when the agency  
 117 provides notice of a decision or intended decision, as required  
 118 under the Administrative Procedure Act, or if the agency  
 119 withdraws the reissued invitation to bid or request for  
 120 proposals. Temporarily protecting such information ensures that  
 121 the process of invitations to bid and requests for proposals  
 122 remains economical and equitable, while still preserving  
 123 oversight after an agency decision is made.

124 (2) The Legislature further finds that it is a public  
 125 necessity that a competitive sealed reply in response to an  
 126 invitation to negotiate be made temporarily exempt from public  
 127 records requirements. In addition, a competitive sealed reply in  
 128 response to an invitation to negotiate which is rejected by an  
 129 agency should be made temporarily exempt from public records  
 130 requirements if the agency concurrently provides notice of its  
 131 intent to reissue the invitation to negotiate and reissues the  
 132 invitation to negotiate within 90 days after the notice of  
 133 intent to reissue the invitation to negotiate. Such reply will  
 134 be made available when the agency provides notice of a decision

ENROLLED

HB 1369, Engrossed 1

2006 Legislature

135 or intended decision, as required under the Administrative  
 136 Procedure Act, or if the agency withdraws the reissued  
 137 invitation to negotiate. Temporarily protecting such reply  
 138 ensures that the process of invitations to negotiate remains  
 139 economical and equitable, while still preserving oversight after  
 140 an agency decision is made.

141 (3) Additionally, the Legislature finds that it is a  
 142 public necessity that a meeting at which a negotiation with a  
 143 vendor is conducted pursuant to s. 287.057(3), Florida Statutes,  
 144 be made exempt from public meetings requirements. Protecting  
 145 such meetings ensures that the process of invitations to  
 146 negotiate remains economical and equitable, while still  
 147 preserving oversight after an agency decision is made through  
 148 the requirement that a complete recording be made of those  
 149 meetings. Furthermore, the recording of that closed portion of  
 150 the meeting must be made temporarily exempt from public records  
 151 requirements in order to preserve the purpose for the public  
 152 meetings exemption. In addition, it is unfair and inequitable to  
 153 compel vendors to disclose during the negotiation process the  
 154 nature and details of their offers to competitors and to others  
 155 beyond the agency. Further, the Legislature finds that such  
 156 disclosure impedes full and frank discussion of the strength,  
 157 weakness, and value of an offer, thereby limiting the agency's  
 158 ability to obtain the best value for the state. The Legislature  
 159 also finds that it is unfair and inequitable to publicly discuss  
 160 and otherwise disclose negotiation strategies, assessment of  
 161 vendors' offers or positions, or the nature or details of

ENROLLED  
HB 1369, Engrossed 1

2006 Legislature

162 offers. The public and private harm stemming from these  
163 practices outweighs the temporary delay in making meetings and  
164 records related to the negotiation process open to the public.

165       Section 4. This act shall take effect upon becoming a law.

Dear Ms. Fuchs,

Our number is (352) 726-7660 and I can be reached anytime. As I understand the letter sent by Dr Holt, vaccination requirements have recently been suspended for evacuated pets.

My biggest concerns were evacuated pets having a chance to be reunited with their owners.

thanks,  
(Ms.) Xan Rawls

**Subject:** Margret Meier Nolan

Dear Mike,

Attached please find photos of one of Ms. Meier's foster facilities. We were told these puppies came from Levy County

We are also attaching photos recently taken at Ms. Meier's husbands home (Mr Nolan and Ms. Meier reside across the street from each other) indicating violations. Mr Nolan and Ms. Meier were cited again last week.

We work with many legitimate agencies to advance the adoption of homeless pets. Based on Ms. Meier's prior history with Palm Beach County Animal Services as well as our own, we do not allow Ms. Meier to adopt or foster animals from our shelter

Thanks,  
Xan

BOCC

County Commissioners  
Citrus County Courthouse  
110 N. Apopka Ave.  
Inverness, Florida 34450

Dear Citrus County Commissioners:

Please forgive me for being Lazy. Enclosed are all the details. They are all stated out in my letter to Petco officials. I am cc: that letter to you. I feel something needs to be done about Margret Nolan, the Humane Society of Inverness, her other shelters and perhaps the people associated with her. We recently adopted a Welsh terrier now known as Tiger Lily. Enclosed is the information about her. Under Citrus County law I see that Animal control and 501c3 shelters are exempt from the laws about selling and adopting animals. That is how she gets away with the things she does. It may be legal, but surely not ethical. What happened to Tiger Lily in her uncaring hands is a shame let alone legal. I call it animal abuse and feel both animal control and the health department should thoroughly check her out. Tiger Lily was adopted out w/ an open infected spay wound, E-COLI, which is gotten through contaminated food and pooh, Bordetella, and K9PARAINFLUENZA VIRUS 3. She was shown at Petco exposing any animal that was brought in there. Also people were taking Tiger Lily out of her crate and handling a puppy w/ an open infected spay wound. I pointed out to Nancy both about her sever cough and open spay wound and was basically blown off.

I did finally talk to Dr. Fox. I do not know if he is part of the problem or not. I know he is a very up standing citizen and a fine Vet, I did check him out. He says that animal control and other shelters give her many dogs to adopt out as she is such a caring person and does nothing but to help all the animals no one else wants. I'll have to say I disagree with that assessment, As far as I'm concerned she needs to be shut down. There is no excuse for what happen to Tiger Lily. Neither is there any reason not to provide me or my vet the information that we requested to help us to know if she needed booster shots or what we needed to change her Rabies tag to down here. I've never adopted from any reputable place that did not provide you with all the necessary medical records, what needed to be done medically, so you would know what has to be finished.

Here it is almost the end of April and we are dealing with the issue she came with and other problems. She's home and happy. The sutures due to that open spay wound were finay taken out 26 days later. What a shame. Why didn't they take her back right off to have Dr. Fox reclose it? I call them uncaring at best—but I consider it animal abuse.

Please can you take some kind of action? I'm enclosing what I have. As Citrus County exempts 501c3 organizations it makes it legal. I think as Citrus county commissioners you need to think about up dating your animal laws on the book so this kind of thing cannot happen again.

Sincerely,

Gail Kania

NSC-Bldg2

Dear Mr. Jolley:

I'm writing to you in regards to a Welsh terrier that I adopted at the SpringHill Petco store 2768. On Sunday-March 16 I drove from Davie, FL to your store in Brookville to see a Welsh terrier up for adoption by the humane Society of Inverness. That is about a five-hour drive. When the HS had set up I saw the Welsh terrier, now named Tiger Lily, in a crate with another dog. There were other crates there with other dogs. The first thing I notice was her labored noisy breathing. I said to the girl Nancy this dog is sick with Kennel cough and is contagious. He reply was that the dog had a slight cold. They had started her on these pills that AM. In a few days she would be OK. I repeated no. You mean she has Kennel cough and she is contagious. All I kept getting she was OK. This dog had green mucous coming from her nose, and was so congested that I thought she maybe had pneumonia. Now you need to understand that due to repeat ear infections that my hearing is only 45-55 % depending on the tones. I can't imagine what it must have sounded to a normal hearing person. At best this dog had Kennel cough and at worse canine influenza. Both are highly contagious. They were exposing every animal in that shelter to infection. Then I noticed where she was spayed. This poor thing had an open and infected spay wound. I mentioned this to Nancy She would not even look at it. She said it was checked just before they left the shelter and there was nothing wrong with it. I'm saying yes there is. She would not look. I could not believe anyone would not at least look. Instead she says to me that it's obvious I do not know what a spay wound should look like. I could not believe the condition of this poor dog. Also people were opening the crate and picking Tiger Lily up with this open infected wound. As an aside I do foster and work animal rescue for Terrier clubs down in Broward County and I grew up on a farm with animals of all kind. She must think that everyone is dumb. To make a long story short I plunked down a check for \$400 and brought this very sick puppy home with me. I felt if I left her there she would have dies a slow death.

I got home pretty late that night with Tiger Lily Records, my vet letter, and the next day I took the day off from work. Knowing that she was contagious I call my vet first thing Monday morning-March 17 She had me bring her in during lunch break when no dogs were in. Unfortunately she has no isolation room, again that night and first thing the next day. She was treated for a few days with antibiotics, nebulizing her 3X each day Unfortunately it did not work and we had to take her to the emergency Veterinary Clinic. That was Friday morning March 21 She was immediately placed into an

incubator on oxygen. She was kept at the emergency Clinic for 8 days. I'm including a letter from my vet, my initial vet records, pictures, the lab reports and discharge papers from St. Francis Emergency Animal Clinic. If need be I can send you the complete record from the emergency clinic, but it's pretty large. This packet is already pretty big. The lab reports, which are included, showed she was infected with e-coli, (moderate growth) Bordetella PCR (may be due to her shots and may have added to her distress) and positive for K9 PARAINFLUENZA VIRUS 3. She was treated for these things. Enclosed with the shelter info is a copy of the medicine she was supposedly just started on for that "slight cold" Did not notice it at the time, but it was dated March 13. That was the day she was spayed and given all her shots. To me that would indicate that MAYBE she was already showing signs of coughing. Also on the prescription medicine was nothing saying what it was, or for, or type of animal to be given too. The emergency vet determined what it was doxycycline and put it on the paper and added Tiger Lily's name on it. They continued to give it to her with the other medications she had from our vet and then they added to it. It was eight days from the time we adopted her till they were able to suture her spay wound closed. She was too ill to do it. Once done her temperature dropped back to normal by the next day

Also enclosed are my e-mails w/ the shelter, the shelter forms (I did get the Petco forms, but did not enclosed them), and some things sent to me from pet finders. Shows the Welsh terrier ad and another dog that appears to have mange. I also had on sent w/ a very filthy e-collar. When I adopted Tiger Lily I asked for more complete medical records. The answer I got was what I had from them were it. My vet office since then has called the shelter which finally called back on Thursday and I finally got hold of Dr Fox Thursday AM. Another shelter called over and asked him to call me. From neither place could we find out if she needed booster shots or the rabies vaccine info with the serial number, maker, expiration date, etc. I need it here and Alabama so I can retag her. I have found out that, if I run a Titer test at the minimum cost of \$80, and it shows she is protected I will be able to tag her in Alabama. I retire the end of this month and we will be moving to our old farm in Alabama. We will be back and fourth for a couple of months. You will have to forgive me, but there is no way I would want her traced back to that place w/ their attitude and treatment of animals. Dr. Fox says he does 30-40 dogs a day for her every day -spaying/neutering/shots. He's retired and working part time???? Which at the least are 150 dogs each and every week. I'm on the phone with him and he's saying he has a dog on the table as we were talking. That blew my mind. When I checked him out he has no complains that were found valid and is a very well respected Vet and person in the community up there. I do not know what to think about him.

Also is a part enclosed of what people have sent me? You can read into it what you want. It would appear that her SPCA shelter has been working without a license since 2005. He spay mobile has not moved for years (it's parked at another HS shelter parking lot. They told me this and they were the ones that called Dr Fox for me) and also has an expired license on it, but it is shown on her web sight. She has no official standing w/ the AKC Bouvier rescue clubs. I checked it out then asked some one I knew involved with them. Some of the shelters are interconnected with the same people. What I found interesting is one of the places mentioned is the Animal Sanctuary of Clewiston.

She has been banned down here from Petco and at times is partners with Margret Nolan and has been banned in other states. To me it appears they use the shelters as a front for running the puppy mill dogs. You will have to form your own conclusion. I'm still trying to find out more info.

My aim is that Petco need to ban the Humane Society of Inverness from all the Petco Stores up there. Personally any group of hers or her associates in my opinion should be banned from showing anywhere. Citrus county animal law, which is also enclosed, exempts animal control and any 501c3 shelters from having to follow the rules that pet stores, breeders and the rest of us have to follow. That is how she and others stay in business. They skirt that fine edge of the law to their advantage. It may be legal. But not ethically right. To me she should be banned for bringing contagious animals into a store. Therefore was exposing any animal brought into that store to influenza. Tiger Lily had an open infected spay wound and they were letting people handle her. I did call the SpringHill Petco Store and talked to the Assistant Manager Tony He said to send him a packet and not notify the National office, that is when I went to my local Petco and talked to the manager there for guidance. Explain the situation and showed her the pictures and vet records. She advised me to contact three people at Petco and I am.

Please take the time to read all this stuff. I know it is a lot. My phone number is 954-584-9329. I work till the end of April from 11:30 to 8:30 PM. My e-mail is [gkania@att.net](mailto:gkania@att.net) until the middle of May Then I will close it down. I do not know what I will have in Alabama yet. May 1rst we head for about a week and a half (phone there is 251-746-2711) up to our farm in Alabama. Then we will be back in Fl. For 2 weeks.

Respectfully

Gail Kania

Hi Margret, Do you have a number for the HS manager? I know the girls called to warn me she had a slight wheeze, but I had to leave 7 in the morning as it is a 5 hour trip The treatment of this Welsh Terrier in my opinion is a form of animal abuse There was no way I would have left it there Every question I asked Nancy (right name?) was basically I don't know She said the vat told them she just had a slight cold The antibiotics would clear it right up Even I knew it was much worse It was so bad you could here it in her breezing I said you mean she has kennel cough and she is contagious Nancy says no--a slight cold and not contagious How could a long term kennel worker be that ignorant or worse if she was out right lying Then I said that spaying place was all bloody and didn't look good She say's that's how they are suppose to look I work animal rescue and and old farm girl She was full of--S-- and I have the pictures to prove it There is no way I would have left her there

I took the day off from work to get her tended to Her Spay spot was totally open, She needs to be put under to have it cleaned and re sutured BUT her health is so bad it can't be done She has pneumonia, real bad, due to Kennel cough or influenza Hope we will be able to save her We had her nebulized (sp) to day and it will have to be done 2X a day for some while I realize Kennel Cough is common, but I have 50% hearing loss and could here how bad she was You gave her all her shots, she's sick and spay her all at the same time Not good policy Yet no blood work was done or urinalysis To see if anything else was going on.

I know how short of help a shelter can be and also the money issues There is no excuse to have that many animals if you can't tend to them correctly You need to keep an eye on the others

Gail,

I am the manager and president of the Humane Society of Inverness, and I just talked to Nancy and our Dr. Fox...

She got spayed, and her shot on Thursday. and yes, we do this all the same day... on Friday she got a fecal and another check up.. there was no sign of pneumonia... and her spay incision was closed... the stitches are inside and outside we use skin glue.

She can have licked herself open, what sometimes happens with active puppies, but I have seen her before she left for Petco and she was fine.. so if she is open, she doesn't need stitches, she needs to get glued again.

Please provide me with the number of the Vetoffice where she is treated, and Dr. Fox will call them

And I am very proud to say, that we CARE about the animals in our facility

Hi Margret

My vet is Marlene Penner---954-989-8393.

Thankyou very much for responding. Please forgive my grave concern for Tiger Lily Thats her name now. We are hoping it is just kennel cough, but the severity of it we may br dealing w/ Dog influennza. You need to be aware of it so you can watch out. I know pneumonia least ways in small kids can come on quick.. Maybe so with puppies. All I can say is I questioned her about spay mark because it was open and covered w/ dry blood. The lady did not look, and responded that was how they should look. Sending the pictures I took. The second picture of her in the cage was taken out side of thePetco inside my car The first is where I cropped trying to enlarge. Sorry that blurred it. Trust me I am not telling a tall tale. I've just come in w/ what I need to nebulize (SP) her at home. Do you know Andrea Shaw? She is shows Bouviers and ADT She is active w/ the Sunshine Airedalers rescue?

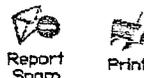

Gail K

Only time will tell how she will do. Second picture was how she was at petco and Nancy did not look at it. I took this picture in my crate out front of petco. Some one is not quite being truthful that all was well with Tiger Lily. That picture tells it all. One of you girls called Sunday AM after I had left and told my husband she had a cold, but was not contaigious. That spay wound was open at petco and her breathing was so congested at the store That even I could here it and I am hard of hearing. She had me a envelope w/ med--antibiotic with no name, scrip number, etc. Vets I deal w/ have all that info on it. Second only healthy dogs are allowed to be sold or adopted. Health records are supose to be complete. There was no record of any exam, blood work, nothing. Just a paper that was checked w/ the shots done, spay, and wormed. Paper says she is 8 months. Come on. Those that breed these terriers p ut her at around 4 months. We've had two vets look at her and they say 3-4 months. She still has all her aby teeth. Untill we can clear up the pneumonia, we can't tend to that open wound. If your girl at the store had even looked at her belly when I talked to her she would have known how bad it was. A little glue wasn't going to close that hole. I work animal rescue my self--legit- I take dogs in to be spayed and check ups all the time. You need to do much more to do it right. Gail K

ID No. \_\_\_\_\_

Humane Society of Inverness  
P.O. Box 0805  
Inverness, FL 34451  
(352) 344-5207  
bouvierrescue04@aol.com

ANIMAL ADOPTION CONTRACT

Date: 03-16-08 Adoption Fee: \$400  
Breed: Labrador Retriever Dog: X Cat: \_\_\_\_\_ Sex: F Age: 1 mos Microchip No. 013-997-574  
Description: Black + Tan

This contract and release agreement is entered for the express purpose of the adoption of the animal as described above from Humane Society of Inverness (HSI) and

Adopter: GAIL KAMIN Phone: 351-584-9329  
Address: 1000 SW 12th St Email Address: gkamini@att.net

Whereas, HSI has retrieved this animal from an unfortunate situation and said animal is presently in need of a loving forever home and  
Whereas, the parties wishing to avoid any misunderstandings concerning this adoption set forth the following:

The animal will become sole property of the adopter, after it is spayed or neutered and is subject to all the following rules, ordinances and regulations of the City, Municipality, Town, Township, County and State wherein the adopter and the animal reside and agree to comply and be bound by said rules and regulations regarding the animal's ownership. The animal shall be a house pet an "in-house" pet and reasonable exercise will be provided. The animal shall not be chained or restrained by a tether in any way unless constantly attended. The adopter agrees that the above animal will not be used for any other purpose including but not limited to attack dog, guard dog or for experimental purposes.

Adopter agrees that the animal, is not already spayed or neutered will have it done within the next 90 days. It will be done thru HSI, and cost is included in adoption fee.

The adopter agrees to provide the animal with veterinary care and treatment when necessary and agrees to continue with yearly immunizations. The adopter agrees to provide a balanced and nutritious diet to the animal described above. The adopter agrees to keep the animal in clean surroundings and maintain routine grooming and brushing.

HSI has provided the adopter with any information they have and related any problems the adopted animal may have which were either known from the former family or from the foster family.

Adopter agrees to contact HSI should he or she be unable to keep the animal for any reason. Adopter agrees to not sell or give the animal to any animal shelter or other party without approval of HSI. The adopter agrees to hold Humane Society of Inverness harmless and representatives thereof against any and all liability, claim or claims, cause or causes of action arising out of or as a result of or in connection with ownership of the adopted animal.

The HSI agrees to accept the return of the adopted animals should the adopter be unable to keep the animal. Said return may occur any time within three (3) days after the date of the adoption, and a full refund will be given the adopter.

Any use or treatment of the animal inconsistent with the good and humane care of the animal shall be deemed a breach of this contract and HSI retains full right to terminate this contact at any time when a determination has been made that any terms of this contract has been breached and possession of the animal will be given up to Humane Society of Inverness immediately upon demand.

The parties hereto being in complete accord and agreement concerning the welfare of the animal to be adopted and having set out the rights and responsibilities of each relative to this adoption have set their hand this day....

 Subject: Lily's medical costs  
 Date: Tuesday, March 18, 2008 1:30:51 AM [View Source]

Hi Gail:

I hope you know that I'm another one of those folks who will do whatever I can to help a Welshie (or any dog) in need, like Lily I really admire your compassion and drive to do good things. And Lily, she's such a sweet thing - you can see her spark and spirit in her eyes and expression, despite how bad she must have been feeling. I think there are a lot of folks on the list who would love to help you and Lily if the medical costs get to be more than you can handle. I'd be happy to help out too and I hope you won't hesitate to let me know if I can help in whatever way you need.

I'm also building up a head of steam over the abuse that Lily has suffered under the hands of this so called "rescue" I'm copying the posting on Petfinders that you saw for Lily . the link will stop working as soon as they pull her off the system, but this copy is one that you can use to show that this is the dog you saw and adopted, photographed in their crate with the open spay incision, etc. I expect you will have to get down to this with the Board of Directors, the county or the state ag department at some point.

I also looked up the Humane Society of Inverness, Florida on a database of non-profits. Here's a link to what I found:

<http://www.taxexemptworld.com/organization.asp?tn=546688>

This is the website you get from their PetFinder link:

<http://www.petfinder.com/shelters/FL548.html>

Here are the phone numbers etc. they provide:

The Humane Society of Inverness, Inc.

P.O. Box 0805

Inverness, FL 34450

352-344-5207

email: bouvierrescue04@aol.com

Website: <http://www.humanesociety-inverness.com>

I didn't realize until tonight that this was the pup you were talking about. I sent an email to Lyn Hollis this morning about her. It struck me as odd that this Humane Society was a ".dot com" and ".Inc.", instead of the usual ".dot org" for nonprofits. That's what prompted me to look up to see if they even are a nonprofit (they are). I did a little searching and found that there seem to be three organizations tied together: Humane Society of Inverness, Room for One More and Humane Society of Citrus County. The whole thing seems to have grown from Bouvier rescue (that's the email address for HS of Inverness). These groups are somehow overseen by the Florida Dept of Agriculture and Consumer Affairs (the registration number for Room for One More is CH18409 but a search on Ag's site came up with nothing by either number or names of the groups). There is a phone number though, 800-435-7352 -- call and ask for the director of the agency (you have pictures!)?

The Florida Attorney General's office might be able to give you some advice on this -- it's hard to figure which agencies (if any) have any oversight over private nonprofit animal rescue groups. Or, contact the Humane Society of the US -- the folks that recently busted the meat packin plants for processing downer cows. I know there's all that stuff about PETA and HSUS, etc. but so far these guys have at least demonstrated the smarts/cojones to go out and get actual evidence of abuse -- maybe they can help with what you have on Lily's treatment? You can call them at 202-452-1100 (ask for staff dealing with animal shelters) or write to them at Companion Animals Section, The Humane Society of the United States, 2100 L St., NW, Washington DC 20037 (this is better than email, but include prints of your pictures) They are

connected with the "HS" in Inverness, but they might be able to help intervene or give you advice about who to go to for action with HS of Inverness.

I couldn't find anything online for the Board members of HS of Inverness. You might have to contact the secretary of state's office to find out who is on their board ... If they are a half-way legitimate group, their board should be sensitive to Lily's awful treatment and what it means for the rest of the animals passing through their system.

You might also write to Lyn Hollis, even though Lily isn't a WTCAREs dog she knows a lot about the rescue scene and has 3 volunteers in Florida ([http://www.wtcares.org/WTCARES\\_contacts.htm](http://www.wtcares.org/WTCARES_contacts.htm)) and they should be able to help you figure out the "chain of command" for this stuff in Florida. She also knows that not all rescues are really rescues some of them are really just covers for puppy mills and a way to get some price for the pups they couldn't sell. I hope that's not the case here, but I bet Lyn and her volunteers will know what the real deal is and who you need to get to chance things at that one shelter

You're a great person, Gail, I'm sooo glad to have you as a friend. Please feel free to call (707-895-9121) if I can help you and Lily in any way at all

Glynnis with her spoiled rotten WTs, Acorn and Merlin (sending mega loads of healing vibes to sweet Lily!!)

### More About welsh baby

This baby was rescued from a puppy mill auction. Super friendly and calm, just wants to sit in your lap! It was very expensive to save this baby, plus transport costs, spay, microchip, shots, etc.. adoption fee will be \$400. Please call 352-344-5207 to arrange an appointment to meet this lovely baby!

This pet is up to date with routine shots.  
This pet has been altered.

April 8, 2008

To Whom It May Concern:

On March 17, 2008, I examined a 4 month old, female, Welsh terrier who belongs to Gail Kania. The dog was presented for coughing and wheezing and had obvious green nasal discharge coming from both nostrils. During the auscultation both right and left lung fields were congested. There also was an open incision from the spay that was performed a few days before and it looked infected. At the time of the exam we suspected that the dog had either a complicated form of kennel cough or canine influenza.

In my professional opinion this dog should have been kept hospitalized in an isolation facility and treated for her illness. If you have any further questions please call our office.

Sincerely,

Marlene C. Pinera, D.V.M

### Doctor's Instructions

#### **Bordetella Vacc.**

Kennel Cough Vaccine is required for all patients that board with us and recommended for any patient that is hospitalized. The pet should be vaccinated 2 weeks before entering the hospital for maximum protection.

Kennel Cough is a self-limiting, highly contagious virus that is transmitted through the air. Although the vaccine is very effective, there are some strains of the virus that it does not

 Subject: Re: [Welsh-L] RE: Tiger Lily  
 Date: Thursday, March 20, 2008 12:59:26 PM [\[View Source\]](#)

Gail I think you sent us a copy of an email that you sent to the HSI the day after you got Tiger Lily, didn't you - after your first vet visit? That might constitute notice. I did some checking online and found that the City of Inverness, where HSI is supposedly located, adopted the Citrus County codes in regards to animals. A copy of the relevant parts is attached. Sec. 14-57 deals with the health requirements for animals offered for sale. Maybe Judith or someone else familiar with rescue and abuse can advise you on the exact steps you need to take on Tiger Lily's behalf. I think others have quoted this language that is probably state law as well:

"(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks; or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:  
 (3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

I'm not a vet or tech, but there are a couple of other dogs listed on PetFinder by HSI that someone from Co. Animals Services could check out they, IMO, show that there are visible problems with the medical care and attention to these dogs:

"Little Man" - Mini Pinscher - their description of this dog's problem is sort of like a real estate ad referring to a "fixer-upper" of the mange variety -- "He has a few spots where hair needs to grow back but is treated and OK"

His "adoption" fee is \$300  
<http://www.petfinder.com/petnote/displaypet.cgi?petid=10271412>

## More About Little Man

We have a male Min Pin we rescued from a puppy mill auction, before being killed, coming in Monday. He was born 06/07 and is blk and tan. Adoption fee 300.00, which will include rescue and transport costs, neuter, microchip, shots, rabies, bordetella, and any other vet care they need when they arrive. He has a few spots where hair needs to grow back but is treated and ok. He will be a beautiful Min Pin once his coat is back to normal. Please call 352-344-5207 for more info.

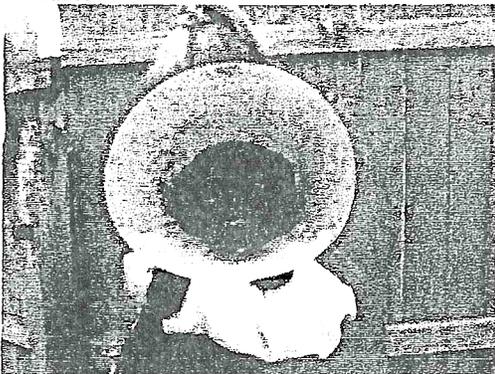

This pet is up to date with routine shots.

## My Contact Info

### The Humane Society of Inverness, Inc.

Inverness, FL  
Phone: 352-344 5207

Gomer - a chow chow/lab mix -- He's recently had surgery on his eye and look at the filthy e-collar!

## More About GOMER

Gomer is such a lovable big lump! He had a birth defect, an extra piece of skin by his eye that was giving him infections, so he had surgery and its on its way to healing! He still has a happy personality, despite having to wear the plastic collar until the skin around his eye heals. He is only 14 weeks old in this picture and growing! He is a big, huggable, lovable low energy teddy bear! If you would like to meet Gomer, please call 352-344-5207 to make an appointment. His adoption fee is 175.

This pet is up to date with routine shots.

This pet has been altered.

## My Contact Info

### The Humane Society of Inverness, Inc.

Inverness, FL  
Phone: 352-344 5207  
<http://www.petfinder.com/petnote/displaypet.cgi?petid=10477294>

I also tried to figure out if there's any connection between Citrus County Animal Services and HSI the county's shelter is "rescue friendly", but they too need to think twice about which rescues they work with and just exactly what it is they are promoting as a result.  
[http://animalcontrol.citrus.fl.us/servlets/ac\\_pkg?showPage=No%20Kill%20Shelters&dt=html](http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=No%20Kill%20Shelters&dt=html)

"Realizing that ALL animal welfare organizations provide essential services to pet-owners in any community, it seems counterproductive to take sides when for any animal welfare organization the ultimate goal is the same-- to find a good home for every adoptable animal. In our community, CCAS counts on the aid of Humanitarians of Florida, Room For One More, Citrus County Humane Society, breed-specific rescue organizations, and countless other groups and individuals that participate in this

important work. We are all part of a network that acts as a safety net for the thousands of pets and pet owners in our area."

Sandy Watson is the Director of Citrus County Animal Services Division phone 352-726-7660 (fax 726-4120) no email listed but you could ask her for it to send copies of your emails and photos. This is also the number for reporting animal cruelty and hoarding. [http://animalcontrol.citrus.fl.us/servlets/ac\\_pkg?showPage=Index.htm&dt=html](http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=Index.htm&dt=html)

The county also has an advisory page about canine influenza, so they know it's a big problem in that area. I think this is the place to start, at least to make them aware and then go up the chain (County Commissioners) if you don't get action.

I'll send you a private email with some other details I've found that might be helpful in pursuing this. If I can lend you a hand on any of this, let me know hopefully others with more direct experience can also give you some one this part.

Bless you and your family for all that you are doing for Tiger Lily what a total sweetheart she is and what a great job you are doing!! Continuing to send lots and lots of healing vibes to her and keeping all our fingers and toes crosses that you have good news at tomorrow's vet visit!

Glynnis with Acorn and Merlin

At 08:36 PM 3/19/2008, you wrote:

Didn't give the law of unhealthy dog sale any thought. I have saved e-mails to her I didn't know of the time limit, it's already to late. Gail K

**Sec. 14-48. Cruelty to animals.**

- (a) A person who unnecessarily overloads, overdrives, torments, deprives of necessary sustenance or shelter, or unnecessarily mutilates, or kills any animal, or causes the same to be done, or carries in or upon any vehicle, or otherwise, any animal in a cruel or inhumane manner, is guilty of a misdemeanor of the first degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$5,000.00, or both.
- (b) A person who intentionally commits an act to any animal which results in the cruel death, or excessive or repeated infliction of unnecessary pain or suffering, or causes the same to be done, is guilty of a felony of the third degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$10,000.00, or both.
- (c) A veterinarian licensed to practice in the state shall be held harmless from either criminal or civil liability for any decisions made or services rendered under the provisions of this section.

**Sec. 14-49. Humane treatment of animals.**

(a) *Failure to provide necessary sustenance.*

(1) It shall be a violation of this article, for any owner, harbinger, keeper or person having custody or care of any companion animal to fail to treat said animal in a humane manner and/or fail to provide humane care for said animal. Humane care includes, but is not limited to, providing adequate food, adequate water, adequate shelter, adequate space, and veterinary care to maintain health and to prevent or cure diseases.

a. *Adequate food* means food that is of sufficient quantity and nutritive value to maintain each companion animal in good health. The owner shall ensure that adequate food is accessible to each companion animal, is prepared so as to permit ease of consumption for the age, species, condition, size and type of each companion animal, is provided in a clean and sanitary manner, is placed so as to minimize contamination by excrement and pests, and is provided at suitable intervals for the species, and condition of the companion animal, which is at least once daily except as prescribed by a veterinarian

b. *Adequate water* means clean, fresh, potable water of a drinkable temperature. Adequate water shall be provided in a suitable manner, in sufficient volume, and at suitable intervals, at all times to maintain normal hydration for the age, species, condition, size and type of each companion animal, except as prescribed by a veterinarian, and that the water is provided in a clean, durable receptacle, which is accessible to each companion animal and is placed so as to prevent contamination of the water by excrement and pests.

c. *Adequate shelter* means a shelter that is suitable for the species, age, condition, size, and type of each companion animal, and provides adequate space for each companion animal, is safe and protects each companion animal from injury, direct sunlight, other weather elements, adverse effects of heat or cold, physical suffering, and impairment of health. The owner shall ensure that the shelter is properly lighted, is properly cleaned, enables each companion animal to be clean and dry, except when detrimental to the species, and for dogs and cats provides a solid surface and resting platform, pad, floor, mat or similar device that is large enough for the dog or cat to lie on in a normal manner and can be maintained in a sanitary manner. The area shall be free of any accumulated waste or external parasites, so that the animal shall be free to walk or lay down without coming into contact with any such waste or parasites. Livestock are exempt from shelter requirements.

d. *Adequate space* means space that allows a companion animal to easily sit, stand, lie, turnabout and make other normal body movements in a comfortable, normal position for a companion animal. Adequate space shall exist so a companion animal can interact safely with other animals in the enclosure, unless specified by veterinarian care. Nothing precludes veterinary care that temporarily restricts movement if it would endanger the companion animal.

e. *Veterinary care* may include humane euthanasia if a companion animal is beyond the abilities of veterinary medicine to treat or cure and the animal is suffering

(2) Animal services is authorized to hold impounded animals until unsatisfactory living conditions are corrected

(3) Any member of the county sheriff's office, any municipal law enforcement officer, or animal services officer shall have the authority to enter private property (excluding residential dwellings) to impound animals that have not been provided with necessary sustenance and are determined to be in a state of distress.

**Sec. 14-57. Dogs and cats transported or offered for sale; health requirements; consumer guarantee.**

(a) For each dog transported into the county for sale, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state of origin and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered no more than 30 days and no less than 14 days before the dog's entry into the county. The official certificate of veterinary inspection certifying compliance with this section must accompany each dog transported into the county for sale.

(b) For each dog offered for sale within the county, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered before the dog is offered for sale in the county, unless the licensed, accredited veterinarian certifies on the official certificate of veterinary inspection that to inoculate or deworm the dog is not in the best medical interest of the dog, in which case the vaccine or anthelmintic may not be administered to that particular dog. Each dog must receive vaccines and anthelmintics against the following diseases and internal parasites:

- (1) Canine distemper;
- (2) Leptospirosis;
- (3) Bordetella (by intranasal inoculation or by an alternative method of administration if deemed necessary by the attending veterinarian and noted on the health certificate, which must be administered in this county once before sale);
- (4) Parainfluenza;
- (5) Hepatitis;
- (6) Canine parvo;
- (7) Rabies, provided the dog is over three months of age and the inoculation is administered by a licensed veterinarian;
- (8) Roundworms; and
- (9) Hookworms

If the dog is under four months of age, the test, vaccines, and anthelmintics required by this section must be administered no more than 21 days before sale within the county. If the dog is four months of age or older, the tests, vaccines, and anthelmintics required by this section must be administered at or after three months of age, but no more than one year before sale within the county.

e) Each dog and cat subject to subsections (a) through (d) above must be accompanied by a current official certificate of veterinary inspection at all times while being offered for sale within the county. The examining veterinarian must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the examination. At the time of sale of the animal, one copy of the official certificate of veterinary inspection must be given to the buyer. The seller must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the sale.

(f) The term "official certificate of veterinary inspection" means a legible certificate of veterinary inspection signed by the examining veterinarian licensed by the state of origin and accredited by the United States Department of Agriculture, that shows the age, sex, breed, color, and health record of the dog or cat, the printed or typed names and addresses of the person or business from whom the animal was obtained, the consignor or seller, the consignee or purchaser, and the examining veterinarian, and the veterinarian's license number. The official certificate of

veterinary inspection must list all vaccines and deworming medications administered to the dog or cat, including the manufacturer, vaccine, type, lot number, expiration date, and the dates of administration thereof, and must state that the examining veterinarian warrants that, to the best of his knowledge, the animal has no sign of contagious or infectious diseases and has no evidence of internal or external parasites, including coccidiosis and ear mites, but excluding fleas and ticks. The Department of Agriculture and Consumer Services shall supply the official intrastate certificate of veterinary inspection required by this section at cost.

(g) The examination of each dog and cat by a veterinarian must take place no more than 30 days before the sale within the county. The examination must include, but not be limited to, a fecal test to determine if the dog or cat is free of internal parasites, including hookworms, roundworms, tapeworms, and whipworms. If the examination warrants, the dog or cat must be treated with a specific anthelmintic. In the absence of a definitive parasitic diagnosis, each dog or cat must be given a broad spectrum anthelmintic. Each dog over six months of age must also be tested for heartworms. Each cat must also be tested for feline leukemia before being offered for sale in the county. All of these tests must be performed by or under the supervision of a licensed veterinarian, and the results of the tests must be listed on the official certificate of veterinary inspection.

(h) All dogs and cats offered for sale and copies of certificates held by the seller and veterinarian are subject to inspection by any agent of the department of agriculture and consumer services, any agent of the United States Department of Agriculture, any law enforcement officer, or any agent appointed under F.S., § 828 03.

(i) A person may not transport into the county for sale or offer for sale within the county any dog or cat that is less than eight weeks of age.

(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks, or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:

(1) The right to return the animal and receive a refund of the purchase price, including the sales tax, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering;

(2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering; or

(3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

(k) A consumer may sign a waiver relinquishing his right to return the dog or cat for congenital or hereditary disorders. In the case of such waiver, the consumer has 48 normal business hours, excluding weekends and holidays, in which to have the animal examined by a licensed veterinarian of the consumer's choosing. If the veterinarian certifies that, at the time of sale, the dog or cat was unfit for purchase due to a congenital or hereditary disorder, the pet dealer must afford the consumer the right to choose one of the following options.

- (1) The right to return the animal and receive a refund of the purchase price, including sales tax, but excluding the veterinary cost related to the certification that the dog or cat is unfit; or
- (2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, but not a refund of the veterinary costs related to the certification that the dog or cat is unfit.
- (l) A pet dealer may specifically state at the time of sale, in writing to the consumer, the presence of specific congenital or hereditary disorders, in which case the consumer has no right to any refund or exchange for those disorders.
- (m) The refund or exchange required by subsection (e) or subsection (f) shall be made by the pet dealer not later than ten business days following receipt of a signed veterinary certification as required in subsection (e) or subsection (f). The consumer must notify the pet dealer within two business days after the veterinarian's determination that the animal is unfit. The written certification of unfitness must be presented to the pet dealer not later than three business days following receipt thereof by the consumer
- (n) An animal may not be determined unfit for sale on account of an injury sustained or illness contracted after the consumer takes possession of the animal. A veterinary finding of intestinal or external parasites is not grounds for declaring a dog or cat unfit for sale unless the animal is clinically ill because of that condition.
- (o) If a pet dealer wishes to contest a demand for veterinary expenses, refund, or exchange made by a consumer under this section, the dealer may require the consumer to produce the animal for examination by a licensed veterinarian designated by the dealer. Upon such examination, if the consumer and the dealer are unable to reach an agreement that constitutes one of the options set forth in subsection (j) or subsection (k) within ten business days following receipt of the animal for such examination, the consumer may initiate an action in court of competent jurisdiction to recover or obtain reimbursement or veterinary expenses, refund or exchange
- (p) This section does not in any way limit the rights or remedies that are otherwise available to a consumer under any other law
- (q) Every pet dealer who sells an animal to a consumer must provide the consumer at the time of sale with a written notice, printed or typed, which reads as follows:
- It is the consumer's right, pursuant to section 828.29, F.S., to receive a certificate of veterinary inspection with each dog or cat purchased from a pet dealer. Such certificate shall list all vaccines and deworming medications administered to the animal and shall state that the animal has been examined by a Florida-licensed veterinarian who certifies that, to the best of the veterinarian's knowledge, the animal was found to have been healthy at the time of the veterinary examination. In the event that the consumer purchases the animal and finds it to have been unfit for purchase as provided in section 828.29, F.S., the consumer must notify the pet dealer within two business days of the veterinarian's determination that the animal was unfit. The consumer has the right to retain, return or exchange the animal and receive reimbursement for certain related veterinary services rendered to the animal, subject to the right of the dealer to have the animal examined by another veterinarian.
- (r) For the purpose of subsections (j) through (p) and (t) only, the term "pet dealer" means any person, firm, partnership, corporation, or other association which, in the ordinary course of business, engages in the sale of more than two litters, or 20 dogs and cats, per year, whichever is greater, to the public. This definition includes breeders of animals who sell such animals to a consumer
- (s) The state attorney may bring an action to enjoin any violation of this section or F.S., § 828.12, or F.S., § 828.13, from being a pet dealer

**(t) County-operated or city-operated animal control agencies and registered nonprofit humane organizations operating a shelter or adoption center are exempt from this section.**

- (u) A pet dealer may not knowingly misrepresent the breed, sex or health of a dog or cat offered for sale within the county

(v) Except as otherwise provided, a person who violates any provision of this section commits a misdemeanor of the first degree, punishable as provided in F.S., § 775.082 or F.S., § 775.083. (Ord. No. 2004-A13, § I, 7-13-04)

#### **Sec. 14-60. Penalty.**

(a) Unless otherwise specified, every violation of this article is declared a civil infraction punishable by a civil penalty not to exceed \$500.00. Each day or fraction thereof that the violation continues shall be considered as a separate offense.

(b) Except for a violation of sections 14-45 or 14-47, an officer may issue a written warning in lieu of a citation for any correctable violation of this chapter allowing the owner or harbinger a specified time period, not to exceed 30 days, to produce proof that the violation has been corrected. Upon failure to produce the required information within the specified time period, such warning shall be deemed a citation. If a penalty is assessed, such penalty shall be paid within an additional 15 days, or, if a mandatory appearance is required, the owner or harbinger shall appear in county court on the given time and date.

(c) Any person who willfully refuses to sign and accept a citation issued by a member of the county sheriff's office, any municipal law enforcement officer or animal services officer shall be guilty of a misdemeanor of the second degree, punishable as provided by F.S., §§ 775.082 and 775.083.

(d) The applicable civil penalty assessable if a person elects not to contest a citation issued for violating any aspect of this article shall be set forth by resolution of the board of county commissioners, and available for inspection at animal services.

(e) A person who fails to pay the civil penalty within the time allowed, or fails to appear in court to contest the citation, shall be deemed to have waived the right to contest the citation and, in such case, judgment may be entered against the person for an amount up to the maximum civil penalty

(f) The county may require mandatory court appearances for certain aggravated violations of this article resulting in the unprovoked biting, attack, or wounding of a domestic animal; violations resulting in the destruction or loss of personal property; second or subsequent violations of animal cruelty laws; or violations resulting in the issuance of a third or subsequent citation to a person. Persons required to appear in court do not have the option of paying the fine instead of appearing in court.

(g) If a person fails to pay the civil penalty, fails to appear in court to contest the citation, or fails to appear in court as required by subsection (e), the court may enter judgment as specified in subsection (d), or may issue an order to show cause, which order shall require such person to appear before the court to explain why action on the citation has not been taken. If any person who is issued such order fails to appear in response to the court's directive, that person may be held in contempt of court.

(h) Animal services shall impose and collect a surcharge of \$5.00 upon each civil penalty imposed for violation of this article. The proceeds from such surcharge shall be used to pay the costs of the 40-hour minimum standards training course required by the State of Florida for animal control officers.

(Ord. No. 2004-A13, § I, 7-13-04)

#### **Sec. 14-61. Administrative procedure regarding citations.**

(a) Animal services shall have the initial responsibility for collection of all fines, fees and costs associated with the issuance of the citation. Such fines, fees and costs shall be payable to animal services within 30 days of issuance.

(b) The recipient of a citation may appeal its issuance by written notification to the county clerk, who shall notify animal services of the appeal within five calendar days.

(c) Animal services shall file the citation with the county clerk within five calendar days of receipt of the notice of appeal.

(d) When a citation remains unpaid for a period of 30 days, animal services shall file the citation within five calendar days.

(e) The county clerk shall, upon filing of a citation, provide for its proper administration as established by law

(f) Once filed with the county clerk for nonpayment or appeal, the clerk shall assume all responsibility for the collection of fines and fees associated with the issuance of the citation and any court proceedings. There shall be imposed and collected a surcharge of \$5 00 upon each civil penalty for violation of this article. When a fine is collected, the clerk shall disperse the \$5 00 surcharge to the board of county commissioners for the purpose of training animal services officers, and shall disperse such other amounts as provided by law  
(Ord. No. 2004-A13, § I, 7-13-04)

**Sec. 14-62. Citations issued in addition to or in lieu of impounding.**

In addition to or in lieu of impounding an animal found in violation of this article, any animal services officer, any member of the county sheriff's office, and any municipal law enforcement officer may issue to the known owner/caretaker of such animal a citation and/or notice to appear as defined in F.S , § 943 10  
(Ord No 2004-A13, § I, 7-13-04)

**Sec. 14-63. Applicability.**

This article shall constitute a uniform ordinance applicable in all unincorporated areas of the county. Additionally, this article shall apply to all incorporated areas of the county where there is no existing conflict of law pursuant to the provisions of the Florida Constitution.  
(Ord. No. 2004-A13, § I, 7-13-04)

**Sec. 14-64. Duty to enforce.**

It is hereby declared to be the duty of animal services, its officers and agents, the county sheriff's office, its deputies and agents, as well as the animal services division and police departments in municipalities having no animal control ordinances, to strictly enforce the provisions of this article  
(Ord No. 2004-A13, § I, 7-13-04)

Gail wrote:

>This baby was at a Humane Society in inverness. I saw her on pet finders....I heard from the shelter managers. She was a little testy <

There are several things about this "rescue organization" that send up big red flags for me

- \* First is the amount of money they charged you as an "adoption fee" \$400 00 sounds more like a sale to me
- \* Secondly, the woman who runs the place is also a breeder/rescuer of Bouviers <[www.anders-bouviers.com](http://www.anders-bouviers.com)>, but she is not listed on the nat'l breed club's breeder referral list <[http://www.bouvier.org/breeder\\_referral.html](http://www.bouvier.org/breeder_referral.html)>, nor is she listed as a rescue contact <<http://www.bouvier.org/ABRL/ABRLmap.html>>
- \* Tiger Lily's physical condition is terrible. She was in no shape to be given the number of vaccinations she had all at one time, let alone to be adopted. The fact that they allowed her to get in that shape, and to be adopted while so sick is reprehensible
- \* If you look closely at the photo of the "spay-mobile" <[http://humanesociety-inverness.com/images/spay\\_mobile.gif](http://humanesociety-inverness.com/images/spay_mobile.gif)> you will see that the shelter name and phone number are actually photo-shopped into the picture, not painted on the side of the vehicle
- \* How often does a rescue group have even a few small dogs, purebred dogs, or designer breeds? Usually you will find primarily large lab and shepherd mixes. If you look at their list of available dogs <<http://tinyurl.com/2lbvqk>> they have 7 Schnauzers, 4 Shih Tzus, 7 Bichons, 3 Jack Russells, and 6 Schnodles
- \* There is no physical shelter address given where the animals are housed and can be viewed and picked up. They arranged to meet you at Petsmart. If you look at the "forever families" part of the site, you will see feedback that indicates dogs were obtained in Missouri, dropped off at a designated meeting point in Connecticut, and given to someone just met at a home show to be shipped out of the country
- \* They have a permanent booth at the local flea market!

This "rescue group" seems to function more like a front for puppy mills, and I don't have much love lost for Petfinder either. Many groups are using them like a giant online broker

Perhaps you could contact the Pet Law division of the Florida Department of Agriculture <[http://www.doacs.state.fl.us/ai/main/pet\\_main.shtml](http://www.doacs.state.fl.us/ai/main/pet_main.shtml)>. The fact that the HS of Inverness is a non-profit exempts them from having to reimburse you for Tiger Lily's vet bills, but if you provide the DOA with information about Tiger Lily's condition, and the response you have received from shelter reps, it might be enough to get the DOA to investigate this place.

**Humane Society of Inverness, Inc.**

Margret Meier Nolan

2109 South Mohican Trail, Inverness, FL 34450-5649 (this is the address used for the 501(c)(3) non-profit (<http://www.taxexemptworld.com/search.asp?type=on&criteria=Humane+Society+of+Inverness>

<http://www.taxexemptworld.com/search.asp?type=on&criteria=Humane+Society+of+Inverness>

Another address used is in care of Bouvier Rescue, PO Box 0805 Inverness

Phone numbers

HIS website and PetFinder list 352-344-5207 as the phone number to call about adoptions. Their address is the PO Box above White pages reverse directory gives

10517 Faith Court, Inverness 34450-2946 as the address for this phone number [http://www.whitepages.com/search/ReversePhone?full\\_phone=352-344-5207&localtime=survey](http://www.whitepages.com/search/ReversePhone?full_phone=352-344-5207&localtime=survey)

352-726-8801 (at the Mochican Trail address) is also listed as HSI

[http://www.whitepages.com/search/ReversePhone?full\\_phone=352-726-8801&localtime=survey](http://www.whitepages.com/search/ReversePhone?full_phone=352-726-8801&localtime=survey)

This is the same phone number as Nolan's kennel – Anders Bouviers.

<http://www.anders-bouviers.com/contactus.htm>

It also comes up as the home phone number for Margret Meier

[http://www.whitepages.com/search/ReverseAddress?street=2109+S+Mohican+Trail&city\\_zip=Inverness&state\\_id=FL&localtime=survey](http://www.whitepages.com/search/ReverseAddress?street=2109+S+Mohican+Trail&city_zip=Inverness&state_id=FL&localtime=survey)

**Margret Meier Nolan**

**Anders Bouviers**

**352-726-8801**

**[andersbouviers@yahoo.com](mailto:andersbouviers@yahoo.com)**

from her kennel website

A number of the petfinder ads for the small dogs (Shih Tzus, etc.) are with

Bow Wow Boutique

352-795-1684

5625 W Gulf to Lake Highway

Crystal River, FL 34429

[www.mybowwow.com](http://www.mybowwow.com)

Boarding kennel and grooming

Angela Mc Murray

Board member of HIS and "Society for Prevention of Cruelty of Animals, Citrus County (I didn't find this listed as a nonprofit, or anything close in name)

HSI has 57 dogs listed on PetFinder today 3/20/08 – of these 22 are puppy mill rescues (39%) and the rest are local (including large litters of mixed-breed puppies). Their prices for dogs/puppies range from \$175 (including spay-neuter) for non-puppy-mill dogs to \$250 for dogs from mills. Tiger Lily's adoption fee was really high at \$400

On Dec. 5, 2006, the state Board of Veterinary Medicine granted a premise permit to Humane Society of Inverness (among others), but the minutes don't give which premises they permitted.

[http://www.myflorida.com/dbpr/pro/vetm/documents/vets\\_12\\_06\\_minutes\\_5\\_4\\_07.pdf](http://www.myflorida.com/dbpr/pro/vetm/documents/vets_12_06_minutes_5_4_07.pdf)

But, they obviously have a role in allowing rescue groups to keep numbers of

animals. It doesn't say how many dogs they are allowed to have at any location, but it would be worth checking with the board. Bow Wow Boutique probably has its own permit for their kennel, along with the Bouvier kennel that Nolan operates. Phone 850-487-1820; fax 850-922-2918, 1940 North Monroe Street, Tallahassee 32399-0787

I have a note here that references document No. 4000009645 of Oct. 11, 2004 Florida Department of Agriculture and Consumer affairs; CH18409 (I think this is supposed to be some license HIS or Room for One More has). The phone number for the Division of Consumer Services is 800-435-7352. I'm not sure exactly what kind of licenses this outfit really has or under which name.

- There seem to be a bunch of "Humane Society" groups in Inverness and Citrus County: Animals Inc., James Devine, 11098 S Flutter, Inverness 34452-9216,
- Humane Society of Citrus County Florida, Inc., 751 Smith Avenue, Inverness 34453-0875
- Humanitarians of Florida, Inc, PO Box 924, Inverness 34451-0924

I've also sent an email through WT list about a miniature pinscher (with what appears to be mange) and a mix-breed shepherd with eye surgery and a filthy e-collar that are listed under HIS on PetFinder today. If you left-click on the pictures in the emails, you should be able to save them to disk. Or, if it's easier, you have my permission to forward my post, with the pictures and descriptions of the dogs, to anyone who might be helpful to you (i.e., county or city authorities)

Hi, Gail,

I'm not 'afraid' to have anyone who is bonafide in rescue read the info about these people here in Florida who should be shut down, so use your judgement when forwarding THIS MESSAGE (the one below) to anyone you like - but STRESS that the info contained herein is STRICTLY CONFIDENTIAL and should not be "broadcast" widely because it might interfere with our efforts to try to get these awful people stopped and shut down. You have my permission to forward and share this message, but PLEASE BE SELECTIVE WHEN YOU FORWARD TO ANYONE.

I have altered the message here slightly, eliminating any add'l email addresses that appeared (protecting some interested parties' privacy), so please forward this message that is contained in this email in entirety, if you wish.

If anyone has any questions (or gripes) they are more than welcome to contact me.

It won't be the first time I've had my name plastered on an effort to "right a wrong" ...and I'm not hesitant at all to dive in to this full force being the "terrier" that I am!

Thanks,  
Andrea Shaw

-----  
CONFIDENTIAL MESSAGE RE: PUPPY MILLS and DEPLORABLE CONDITIONS - FLORIDA LOCATIONS' INFO:

As of Jan 25, 2008: The info below lists a number of BAD "purported rescue" people. If you read the list, you will see a name of "Palena Dorsey", and Margaret Nolan is one of her partners (read further down this list to see her

info, below).

Due to an inquiry received regarding Margaret Nolan on 3/19/08, I stress herein that she is NOT legit, and is banned from most shelters. More info appears below.

I network with MANY different breed-specific rescue people in FL and Nationwide [names withheld by me, here, for their privacy] and several VERY active rescuers sent me this info below. I will share more info with those who are bonafide in rescue and actively ready to DO something to aid the cause.

We want to get these people on the list below (who literally have hundreds of dogs kept in deplorable conditions) shut down.

I received this info on Jan 25th about the DO NOT ADOPT people in FL of most horrible circumstances:  
(please read under this list, too, as I have added some personal comments about just one person, after researching each name/entity on the list)

This message (in part) is what I wrote back to [a rescue person/advocate in FL] when I did some hunting on a few of the people on the list above:

...I looked up corporate info on Margret Meier Nolan and her org. is legally called "SPCA OF CITRUS COUNTY, INC." (with a deliberate misspelling of her name in the corp. document: "Marget" instead of MargRet", with an "R" missing) and learned  
It is a dissolved corporation as of Sept. 14, 2007 Her home address is listed on the docs, in Inverness, FL. She can be reported to HSUS, I imagine. I know  
that HSUS is full of corruption, but  
if Margret is using the name/words "Humane Society" (in Inverness), can't we nail her on that name use violation, alone? Just a thought...

My thoughts are to report her to ASPCA/SPCA for her "using" their "name (the acronym "SPCA" AND the words "Humane Society"). This might be a good place to start.

She could also be reported to the FDA and to the FL Dep't. of Professional Regulation. Both agencies permit you to file a complaint online.

Hope this info helps.

Keep me posted!

Andrea

-----  
This message was forwarded with the permission granted by Andrea Shaw in Broward County If you have info you would like to share, or gripes you feel that you need to vent, or anything else you want to say or do to join the effort, please email Andrea Shaw at [andrea@resqdogs.com](mailto:andrea@resqdogs.com).

I invite any and all inquiries, and am not hesitant to call to action any and all legal authority to stand up against these abused animals' conditions and their "keepers", who are breaking both humane animal care laws and federal regulations.

Andrea Shaw (a "terrier" at heart!)

My advice is to NOT tip off Margaret Nolan on what you 'presume' she is doing with her "legal" (business/corporate) entity. She's pretty slick, but we are smarter than she is, and can nail her. Go to the FL Division of Corporations' web page at <http://www.sunbiz.org> and do a search on her business name AND her personal name. To do the fast search, you will have to type in "Nolan Marget" (NO "R" in her first name) and her org ("SPCA OF CITRUS COUNTY, INC.", a non-profit) comes up as expired on 12/16/2005!!! The direct link to that particular page is (I don't know if clicking on this link will work - you may have to do the search from scratch):

[http://www.sunbiz.org/scripts/cordef.exe?action=DETFIL&inq\\_doc\\_number=N050000126](http://www.sunbiz.org/scripts/cordef.exe?action=DETFIL&inq_doc_number=N050000126)

[56&inq\\_came\\_from=OFFFWD&cor\\_web\\_names\\_seq\\_number=0001&names\\_name\\_ind=P&ret\\_names](#)

[cor\\_number=&ret\\_cor\\_web\\_names\\_seq\\_number=&ret\\_names\\_name\\_ind=&ret\\_names\\_comp\\_na](#)

[me=&ret\\_names\\_filing\\_type=&ret\\_cor\\_web\\_princ\\_seq=&ret\\_princ\\_comp\\_name=NOLANMARGA RET&ret\\_princ\\_type=](#)

This is where you start - you report her to the FL Div of Corporations first (can be done by phone and online). Then you report her to her county for operating under the guise of an expired business entity, and find out if she has valid business licenses too. I can help with this if you don't know how to do it. Then you report her to the county Sheriff. There's more, and I can help with it if you like. I'd have to do some homework, and can work on it over the next few days. Just let me know if you want the direct help.

# ARTICLES OF INCORPORATION

OF

## SPCA OF CITRUS COUNTY, INC.

FILED  
05 DEC 16 PM 2:13  
SECRETARY OF STATE  
TALLAHASSEE, FLORIDA

The undersigned subscriber to these Articles of Incorporation is a natural person competent to contract and hereby form a non profit Corporation under Chapter 617 of the Florida Statutes.

### ARTICLE 1 - NAME

The name of the Corporation is **SPCA OF CITRUS COUNTY, INC.**, (hereinafter "Corporation).

### ARTICLE 2 - PURPOSE OF CORPORATION

The Corporation is organized exclusively for charitable, religious, educational, and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

### ARTICLE 3 - PROHIBITIONS

No part of the net earnings of the Corporation shall inure to the benefit of, or be distributable to its members, trustees, officers, or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article Second hereof. No substantial part of the activities of the Corporation shall be carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles, the Corporation shall not carry on any other activities not permitted to be carried on (a) by a Corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a Corporation, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

## **ARTICLE 10 - QUALIFICATIONS OF MEMBERSHIP**

The categories of membership, qualifications for membership and the manner of admission shall be as set forth in and regulated by the By Laws of the Corporation.

## **ARTICLE 11 - VOTING RIGHTS**

Members of the Corporation will have such voting rights as are provided in the By Laws of the Corporation.

## **ARTICLE 12 - LIABILITIES FOR DEBTS**

Neither the members nor the members of the Board of Directors or officers of the Corporation shall be liable for the debts of the Corporation.

## **ARTICLE 13 - REGISTERED OFFICE AND REGISTERED AGENT**

The initial address of registered office of this Corporation is Spiegel & Utrera, P.A., located at 1840 Southwest 22 Street, 4th Floor, Miami, Florida 33145. The name and address of the registered agent of this Corporation is Spiegel & Utrera, P.A., 1840 Southwest 22 Street, 4th Floor, Miami, Florida 33145.

## **ARTICLE 14 - EFFECTIVE DATE**

These Articles of Incorporation shall be effective on the 2nd day of January, 2006.

## **ARTICLE 15 - AMENDMENT**

These Articles of Incorporation may be amended in the manner provided by law. Every amendment shall be approved by the Board of Directors, proposed by them to the Members, and approved at a Members meeting by a majority of the Members, unless all the Directors and all the Members sign a written statement manifesting their intention that a certain amendment of these Articles of Incorporation be made.

## **ARTICLE 16 - INDEMNIFICATION**

The Corporation shall indemnify a director or officer of the Corporation who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which the director or officer was a party because the director or officer is or was a director or officer of the Corporation against reasonable attorney fees and expenses incurred by the director or officer in connection with the proceeding. The Corporation may indemnify an individual made a party to a proceeding because the individual is or was a director, officer, employee or agent of the Corporation against liability if authorized in the specific case after determination, in the manner required by the board of directors, that indemnification of the director, officer, employee or agent, as the

case may be, is permissible in the circumstances because the director, officer, employee or agent has met the standard of conduct set forth by the board of directors. The indemnification and advancement of attorney fees and expenses for directors, officers, employees and agents of the Corporation shall apply when such persons are serving at the Corporation's request while a director, officer, employee or agent of the Corporation, as the case may be, as a director, officer, partner, trustee, employee or agent of another foreign or domestic Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, whether or not for profit, as well as in their official capacity with the Corporation. The Corporation also may pay for or reimburse the reasonable attorney fees and expenses incurred by a director, officer, employee or agent of the Corporation who is a party to a proceeding in advance of final disposition of the proceeding. The Corporation also may purchase and maintain insurance on behalf of an individual arising from the individual's status as a director, officer, employee or agent of the Corporation, whether or not the Corporation would have power to indemnify the individual against the same liability under the law. All references in these Articles of Incorporation are deemed to include any amendment or successor thereto. Nothing contained in these Articles of Incorporation shall limit or preclude the exercise of any right relating to indemnification or advance of attorney fees and expenses to any person who is or was a director, officer, employee or agent of the Corporation or the ability of the Corporation otherwise to indemnify or advance expenses to any such person by contract or in any other manner. If any word, clause or sentence of the foregoing provisions regarding indemnification or advancement of the attorney fees or expenses shall be held invalid as contrary to law or public policy, it shall be severable and the provisions remaining shall not be otherwise affected. All references in these Articles of Incorporation to "director", "officer", "employee" and "agent" shall include the heirs, estates, executors, administrators and personal representatives of such persons.

#### **ARTICLE 17 - DISSOLUTION**

Upon dissolution of the Corporation, assets shall be distributed for one or more exempt purposes within the meaning of section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government for public purpose. Any such assets not so disposed of shall be disposed of by Court of *Competent Jurisdiction of the county in which the principal office of the Corporation is then located*, exclusively for such purposes or to such organization or organizations, as said Court shall determine, which are organized and operated exclusively for such purposes.

 Subject: Re: [Welsh-L] RE: Tiger Lily  
 Date: Thursday, March 20, 2008 12:59:26 PM [View Source]

Gail I think you sent us a copy of an email that you sent to the HSI the day after you got Tiger Lily, didn't you - after your first vet visit? That might constitute notice. I did some checking online and found that the City of Inverness, where HSI is supposedly located, adopted the Citrus County codes in regards to animals. A copy of the relevant parts is attached. Sec. 14-57 deals with the health requirements for animals offered for sale. Maybe Judith or someone else familiar with rescue and abuse can advise you on the exact steps you need to take on Tiger Lily's behalf. I think others have quoted this language that is probably state law as well:

"(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks; or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:  
 (3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

I'm not a vet or tech, but there are a couple of other dogs listed on PetFinder by HSI that someone from Co. Animals Services could check out - they, IMO, show that there are visible problems with the medical care and attention to these dogs:

"Little Man" - Mini Pinscher - their description of this dog's problem is sort of like a real estate ad referring to a "fixer-upper" of the mange variety -- "He has a few spots where hair needs to grow back but is treated and OK"

His "adoption" fee is \$300  
<http://www.petfinder.com/petnote/displaypet.cgi?petid=10271412>

## More About Little Man

We have a male Min Pin we rescued from a puppy mill auction, before being killed, coming in Monday. He was born 06/07 and is blk and tan. Adoption fee 300.00, which will include rescue and transport costs, neuter, microchip, shots, rabies, bordetella, and any other vet care they need when they arrive. He has a few spots where hair needs to grow back but is treated and ok. He will be a beautiful Min Pin once his coat is back to normal. Please call 352-344-5207 for more info.

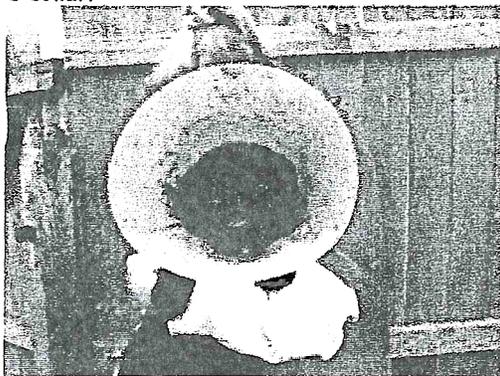

This pet is up to date with routine shots.

Gomer - a chow chow/lab mix -- He's recently had surgery on his eye and look at the filthy e-collar!

## More About GOMER

Gomer is such a lovable big lump! He had a birth defect, an extra piece of skin by his eye that was giving him infections, so he had surgery and its on its way to healing! He still has a happy personality, despite having to wear the plastic collar until the skin around his eye heals. He is only 14 weeks old in this picture and growing! He is a big, huggable, lovable low energy teddy bear! If you would like to meet Gomer, please call 352-344-5207 to make an appointment. His adoption fee is 175.

This pet is up to date with routine shots.

I also tried to figure out if there's any connection between Citrus County Animal Services and HSI - the county's shelter is "rescue friendly", but they too need to think twice about which rescues they work with and just exactly what it is they are promoting as a result.

[http://animalcontrol.citrus.fl.us/servlets/ac\\_pkg?showPage=No%20Kil%20Shelters&dt=html](http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=No%20Kil%20Shelters&dt=html)

"Realizing that ALL animal welfare organizations provide essential services to pet-owners in any community, it seems counterproductive to take sides when for any animal welfare organization the ultimate goal is the same-- to find a good home for every adoptable animal. In our community, CCAS counts on the aid of Humanitarians of Florida, Room For One More, Citrus County Humane Society, breed-specific rescue organizations, and countless other groups and individuals that participate in this

important work. We are all part of a network that acts as a safety net for the thousands of pets and pet owners in our area."

Sandy Watson is the Director of Citrus County Animal Services Division phone 352-726-7660 (fax 726-4120) no email listed but you could ask her for it to send copies of your emails and photos. This is also the number for reporting animal cruelty and hoarding. [http://animalcontrol.citrus.fl.us/servlets/ac\\_pkg?showPage=index.htm&dt=html](http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=index.htm&dt=html)

The county also has an advisory page about canine influenza, so they know it's a big problem in that area. I think this is the place to start, at least to make them aware and then go up the chain (County Commissioners) if you don't get action.

I'll send you a private email with some other details I've found that might be helpful in pursuing this. If I can lend you a hand on any of this, let me know - hopefully others with more direct experience can also give you some one this part.

Bless you and your family for all that you are doing for Tiger Lily - what a total sweetheart she is and what a great job you are doing!! Continuing to send lots and lots of healing vibes to her and keeping all our fingers and toes crosses that you have good news at tomorrow's vet visit!

Glynnis with Acorn and Merlin

Didn't give the law of unhealthy dog sale any thought. I have saved e-mails to her I didn't know of the time limit, it's already to late. Gail K
