

Sec. 14-48. Cruelty to animals.

- (a) A person who unnecessarily overloads, overdrives, torments, deprives of necessary sustenance or shelter, or unnecessarily mutilates, or kills any animal, or causes the same to be done, or carries in or upon any vehicle, or otherwise, any animal in a cruel or inhumane manner, is guilty of a misdemeanor of the first degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$5,000.00, or both.
- (b) A person who intentionally commits an act to any animal which results in the cruel death, or excessive or repeated infliction of unnecessary pain or suffering, or causes the same to be done, is guilty of a felony of the third degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$10,000 00, or both.
- (c) A veterinarian licensed to practice in the state shall be held harmless from either criminal or civil liability for any decisions made or services rendered under the provisions of this section.

Sec. 14-49. Humane treatment of animals.

(a) Failure to provide necessary sustenance.

(1) It shall be a violation of this article, for any owner, harbinger, keeper or person having custody or care of any companion animal to fail to treat said animal in a humane manner and/or fail to provide humane care for said animal. Humane care includes, but is not limited to, providing adequate food, adequate water, adequate shelter, adequate space, and veterinary care to maintain health and to prevent or cure diseases.

a. *Adequate food* means food that is of sufficient quantity and nutritive value to maintain each companion animal in good health. The owner shall ensure that adequate food is accessible to each companion animal, is prepared so as to permit ease of consumption for the age, species, condition, size and type of each companion animal, is provided in a clean and sanitary manner, is placed so as to minimize contamination by excrement and pests, and is provided at suitable intervals for the species, and condition of the companion animal, which is at least once daily except as prescribed by a veterinarian.

b. *Adequate water* means clean, fresh, potable water of a drinkable temperature. Adequate water shall be provided in a suitable manner, in sufficient volume, and at suitable intervals, at all times to maintain normal hydration for the age, species, condition, size and type of each companion animal, except as prescribed by a veterinarian, and that the water is provided in a clean, durable receptacle, which is accessible to each companion animal and is placed so as to prevent contamination of the water by excrement and pests.

c. *Adequate shelter* means a shelter that is suitable for the species, age, condition, size, and type of each companion animal, and provides adequate space for each companion animal, is safe and protects each companion animal from injury, direct sunlight, other weather elements, adverse effects of heat or cold, physical suffering, and impairment of health. The owner shall ensure that the shelter is properly lighted, is properly cleaned, enables each companion animal to be clean and dry, except when detrimental to the species, and for dogs and cats provides a solid surface and resting platform, pad, floor, mat or similar device that is large enough for the dog or cat to lie on in a normal manner and can be maintained in a sanitary manner. The area shall be free of any accumulated waste or external parasites, so that the animal shall be free to walk or lay down without coming into contact with any such waste or parasites. Livestock are exempt from shelter requirements.

d. *Adequate space* means space that allows a companion animal to easily sit, stand, lie, turnabout and make other normal body movements in a comfortable, normal position for a companion animal. Adequate space shall exist so a companion animal can interact safely with other animals in the enclosure, unless specified by veterinarian care. Nothing precludes veterinary care that temporarily restricts movement if it would endanger the companion animal.

e. *Veterinary care* may include humane euthanasia if a companion animal is beyond the abilities of veterinary medicine to treat or cure and the animal is suffering

(2) Animal services is authorized to hold impounded animals until unsatisfactory living conditions are corrected.

(3) Any member of the county sheriff's office, any municipal law enforcement officer, or animal services officer shall have the authority to enter private property (excluding residential dwellings) to impound animals that have not been provided with necessary sustenance and are determined to be in a state of distress.

Sec. 14-57. Dogs and cats transported or offered for sale; health requirements; consumer guarantee.

(a) For each dog transported into the county for sale, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state of origin and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered no more than 30 days and no less than 14 days before the dog's entry into the county. The official certificate of veterinary inspection certifying compliance with this section must accompany each dog transported into the county for sale.

(b) For each dog offered for sale within the county, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered before the dog is offered for sale in the county, unless the licensed, accredited veterinarian certifies on the official certificate of veterinary inspection that to inoculate or deworm the dog is not in the best medical interest of the dog, in which case the vaccine or anthelmintic may not be administered to that particular dog. Each dog must receive vaccines and anthelmintics against the following diseases and internal parasites:

(1) Canine distemper;

(2) Leptospirosis;

(3) Bordetella (by intranasal inoculation or by an alternative method of administration if deemed necessary by the attending veterinarian and noted on the health certificate, which must be administered in this county once before sale);

(4) Parainfluenza;

(5) Hepatitis;

(6) Canine parvo;

(7) Rabies, provided the dog is over three months of age and the inoculation is administered by a licensed veterinarian;

(8) Roundworms; and

(9) Hookworms.

If the dog is under four months of age, the test, vaccines, and anthelmintics required by this section must be administered no more than 21 days before sale within the county. If the dog is four months of age or older, the tests, vaccines, and anthelmintics required by this section must be administered at or after three months of age, but no more than one year before sale within the county.

e) Each dog and cat subject to subsections (a) through (d) above must be accompanied by a current official certificate of veterinary inspection at all times while being offered for sale within the county. The examining veterinarian must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the examination. At the time of sale of the animal, one copy of the official certificate of veterinary inspection must be given to the buyer. The seller must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the sale.

(f) The term "official certificate of veterinary inspection" means a legible certificate of veterinary inspection signed by the examining veterinarian licensed by the state of origin and accredited by the United States Department of Agriculture, that shows the age, sex, breed, color, and health record of the dog or cat, the printed or typed names and addresses of the person or business from whom the animal was obtained, the consignor or seller, the consignee or purchaser, and the examining veterinarian, and the veterinarian's license number. The official certificate of

veterinary inspection must list all vaccines and deworming medications administered to the dog or cat, including the manufacturer, vaccine, type, lot number, expiration date, and the dates of administration thereof, and must state that the examining veterinarian warrants that, to the best of his knowledge, the animal has no sign of contagious or infectious diseases and has no evidence of internal or external parasites, including coccidiosis and ear mites, but excluding fleas and ticks. The Department of Agriculture and Consumer Services shall supply the official intrastate certificate of veterinary inspection required by this section at cost.

(g) The examination of each dog and cat by a veterinarian must take place no more than 30 days before the sale within the county. The examination must include, but not be limited to, a fecal test to determine if the dog or cat is free of internal parasites, including hookworms, roundworms, tapeworms, and whipworms. If the examination warrants, the dog or cat must be treated with a specific anthelmintic. In the absence of a definitive parasitic diagnosis, each dog or cat must be given a broad spectrum anthelmintic. Each dog over six months of age must also be tested for heartworms. Each cat must also be tested for feline leukemia before being offered for sale in the county. All of these tests must be performed by or under the supervision of a licensed veterinarian, and the results of the tests must be listed on the official certificate of veterinary inspection.

(h) All dogs and cats offered for sale and copies of certificates held by the seller and veterinarian are subject to inspection by any agent of the department of agriculture and consumer services, any agent of the United States Department of Agriculture, any law enforcement officer, or any agent appointed under F.S., § 828.03.

(i) A person may not transport into the county for sale or offer for sale within the county any dog or cat that is less than eight weeks of age.

(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks; or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:

(1) The right to return the animal and receive a refund of the purchase price, including the sales tax, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering;

(2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering; or

(3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

(k) A consumer may sign a waiver relinquishing his right to return the dog or cat for congenital or hereditary disorders. In the case of such waiver, the consumer has 48 normal business hours, excluding weekends and holidays, in which to have the animal examined by a licensed veterinarian of the consumer's choosing. If the veterinarian certifies that, at the time of sale, the dog or cat was unfit for purchase due to a congenital or hereditary disorder, the pet dealer must afford the consumer the right to choose one of the following options:

- (1) The right to return the animal and receive a refund of the purchase price, including sales tax, but excluding the veterinary cost related to the certification that the dog or cat is unfit; or
- (2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, but not a refund of the veterinary costs related to the certification that the dog or cat is unfit.

(l) A pet dealer may specifically state at the time of sale, in writing to the consumer, the presence of specific congenital or hereditary disorders, in which case the consumer has no right to any refund or exchange for those disorders.

(m) The refund or exchange required by subsection (e) or subsection (f) shall be made by the pet dealer not later than ten business days following receipt of a signed veterinary certification as required in subsection (e) or subsection (f). The consumer must notify the pet dealer within two business days after the veterinarian's determination that the animal is unfit. The written certification of unfitness must be presented to the pet dealer not later than three business days following receipt thereof by the consumer.

(n) An animal may not be determined unfit for sale on account of an injury sustained or illness contracted after the consumer takes possession of the animal. A veterinary finding of intestinal or external parasites is not grounds for declaring a dog or cat unfit for sale unless the animal is clinically ill because of that condition.

(o) If a pet dealer wishes to contest a demand for veterinary expenses, refund, or exchange made by a consumer under this section, the dealer may require the consumer to produce the animal for examination by a licensed veterinarian designated by the dealer. Upon such examination, if the consumer and the dealer are unable to reach an agreement that constitutes one of the options set forth in subsection (j) or subsection (k) within ten business days following receipt of the animal for such examination, the consumer may initiate an action in court of competent jurisdiction to recover or obtain reimbursement or veterinary expenses, refund or exchange.

(p) This section does not in any way limit the rights or remedies that are otherwise available to a consumer under any other law.

(q) Every pet dealer who sells an animal to a consumer must provide the consumer at the time of sale with a written notice, printed or typed, which reads as follows:

It is the consumer's right, pursuant to section 828.29, F.S., to receive a certificate of veterinary inspection with each dog or cat purchased from a pet dealer. Such certificate shall list all vaccines and deworming medications administered to the animal and shall state that the animal has been examined by a Florida-licensed veterinarian who certifies that, to the best of the veterinarian's knowledge, the animal was found to have been healthy at the time of the veterinary examination. In the event that the consumer purchases the animal and finds it to have been unfit for purchase as provided in section 828.29, F.S., the consumer must notify the pet dealer within two business days of the veterinarian's determination that the animal was unfit. The consumer has the right to retain, return or exchange the animal and receive reimbursement for certain related veterinary services rendered to the animal, subject to the right of the dealer to have the animal examined by another veterinarian.

(r) For the purpose of subsections (j) through (p) and (t) only, the term "pet dealer" means any person, firm, partnership, corporation, or other association which, in the ordinary course of business, engages in the sale of more than two litters, or 20 dogs and cats, per year, whichever is greater, to the public. This definition includes breeders of animals who sell such animals to a consumer.

(s) The state attorney may bring an action to enjoin any violation of this section or F.S., § 828.12, or F.S., § 828.13, from being a pet dealer.

(t) County-operated or city-operated animal control agencies and registered nonprofit humane organizations operating a shelter or adoption center are exempt from this section.

(u) A pet dealer may not knowingly misrepresent the breed, sex or health of a dog or cat offered for sale within the county.

(v) Except as otherwise provided, a person who violates any provision of this section commits a misdemeanor of the first degree, punishable as provided in F.S., § 775.082 or F.S., § 775.083. (Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-60. Penalty.

(a) Unless otherwise specified, every violation of this article is declared a civil infraction punishable by a civil penalty not to exceed \$500.00. Each day or fraction thereof that the violation continues shall be considered as a separate offense.

(b) Except for a violation of sections 14-45 or 14-47, an officer may issue a written warning in lieu of a citation for any correctable violation of this chapter allowing the owner or harboring a specified time period, not to exceed 30 days, to produce proof that the violation has been corrected. Upon failure to produce the required information within the specified time period, such warning shall be deemed a citation. If a penalty is assessed, such penalty shall be paid within an additional 15 days, or, if a mandatory appearance is required, the owner or harboring shall appear in county court on the given time and date.

(c) Any person who willfully refuses to sign and accept a citation issued by a member of the county sheriff's office, any municipal law enforcement officer or animal services officer shall be guilty of a misdemeanor of the second degree, punishable as provided by F.S., §§ 775.082 and 775.083.

(d) The applicable civil penalty assessable if a person elects not to contest a citation issued for violating any aspect of this article shall be set forth by resolution of the board of county commissioners, and available for inspection at animal services.

(e) A person who fails to pay the civil penalty within the time allowed, or fails to appear in court to contest the citation, shall be deemed to have waived the right to contest the citation and, in such case, judgment may be entered against the person for an amount up to the maximum civil penalty.

(f) The county may require mandatory court appearances for certain aggravated violations of this article resulting in the unprovoked biting, attack, or wounding of a domestic animal; violations resulting in the destruction or loss of personal property; second or subsequent violations of animal cruelty laws; or violations resulting in the issuance of a third or subsequent citation to a person. Persons required to appear in court do not have the option of paying the fine instead of appearing in court.

(g) If a person fails to pay the civil penalty, fails to appear in court to contest the citation, or fails to appear in court as required by subsection (e), the court may enter judgment as specified in subsection (d), or may issue an order to show cause, which order shall require such person to appear before the court to explain why action on the citation has not been taken. If any person who is issued such order fails to appear in response to the court's directive, that person may be held in contempt of court.

(h) Animal services shall impose and collect a surcharge of \$5.00 upon each civil penalty imposed for violation of this article. The proceeds from such surcharge shall be used to pay the costs of the 40-hour minimum standards training course required by the State of Florida for animal control officers.

(Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-61. Administrative procedure regarding citations.

(a) Animal services shall have the initial responsibility for collection of all fines, fees and costs associated with the issuance of the citation. Such fines, fees and costs shall be payable to animal services within 30 days of issuance.

(b) The recipient of a citation may appeal its issuance by written notification to the county clerk, who shall notify animal services of the appeal within five calendar days.

(c) Animal services shall file the citation with the county clerk within five calendar days of receipt of the notice of appeal.

(d) When a citation remains unpaid for a period of 30 days, animal services shall file the citation within five calendar days.

(e) The county clerk shall, upon filing of a citation, provide for its proper administration as established by law.

(f) Once filed with the county clerk for nonpayment or appeal, the clerk shall assume all responsibility for the collection of fines and fees associated with the issuance of the citation and any court proceedings. There shall be imposed and collected a surcharge of \$5.00 upon each civil penalty for violation of this article. When a fine is collected, the clerk shall disperse the \$5.00 surcharge to the board of county commissioners for the purpose of training animal services officers, and shall disperse such other amounts as provided by law
(Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-62. Citations issued in addition to or in lieu of impounding.

In addition to or in lieu of impounding an animal found in violation of this article, any animal services officer, any member of the county sheriff's office, and any municipal law enforcement officer may issue to the known owner/caretaker of such animal a citation and/or notice to appear as defined in F.S., § 943 10
(Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-63. Applicability.

This article shall constitute a uniform ordinance applicable in all unincorporated areas of the county. Additionally, this article shall apply to all incorporated areas of the county where there is no existing conflict of law pursuant to the provisions of the Florida Constitution.
(Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-64. Duty to enforce.

It is hereby declared to be the duty of animal services, its officers and agents, the county sheriff's office, its deputies and agents, as well as the animal services division and police departments in municipalities having no animal control ordinances, to strictly enforce the provisions of this article.
(Ord. No. 2004-A13, § I, 7-13-04)

 Subject: [Weish-L] RE: Tiger Lily
 Date: Tuesday, March 18, 2008 12:57:22 PM [View Source]

Gail wrote:

>This baby was at a Humane Society in inverness I saw her on pet finders....I heard from the shelter managers She was a little testy <

There are several things about this "rescue organization" that send up big red flags for me

- * First is the amount of money they charged you as an "adoption fee." \$400 00 sounds more like a sale to me
- * Secondly, the woman who runs the place is also a breeder/rescuer of Bouviers <www.anders-bouviers.com>, but she is not listed on the nat'l breed club's breeder referral list <http://www.bouvier.org/breeder_referral.html>, nor is she listed as a rescue contact <<http://www.bouvier.org/ABRL/ABRLmap.html>>
- * Tiger Lily's physical condition is terrible She was in no shape to be given the number of vaccinations she had all at one time, let alone to be adopted The fact that they allowed her to get in that shape, and to be adopted while so sick is reprehensible
- * If you look closely at the photo of the "spay-mobile" <http://humanesociety-inverness.com/images/spay_mobile.gif> you will see that the shelter name and phone number are actually photo-shopped into the picture, not painted on the side of the vehicle
- * How often does a rescue group have even a few small dogs, purebred dogs, or designer breeds? Usually you will find primarily large lab and shepherd mixes. If you look at their list of available dogs <<http://tinyurl.com/2lbvqk>> they have 7 Schnauzers, 4 Shih Tzus, 7 Bichons, 3 Jack Russells, and 6 Schnnodles
- * There is no physical shelter address given where the animals are housed and can be viewed and picked up. They arranged to meet you at Petsmart. If you look at the "forever families" part of the site, you will see feedback that indicates dogs were obtained in Missouri, dropped off at a designated meeting point in Connecticut, and given to someone just met at a home show to be shipped out of the country
- * They have a permanent booth at the local flea market!

This "rescue group" seems to function more like a front for puppy mills, and I don't have much love lost for Petfinder either Many groups are using them like a giant online broker

Perhaps you could contact the Pet Law division of the Florida Department of Agriculture <http://www.doacs.state.fl.us/ai/main/pet_main.shtml> The fact that the HS of Inverness is a non-profit exempts them from having to reimburse you for Tiger Lily's vet bills, but if you provide the DOA with information about Tiger Lily's condition, and the response you have received from shelter reps, it might be enough to get the DOA to investigate this place

A number of the petfinder ads for the small dogs (Shih Tzus, etc.) are with

Bow Wow Boutique

352-795-1684

5625 W Gulf to Lake Highway

Crystal River, FL 34429

www.mybowwow.com

Boarding kennel and grooming

Angela Mc Murray

Board member of HIS and "Society for Prevention of Cruelty of Animals, Citrus County (I didn't find this listed as a nonprofit, or anything close in name)

HSI has 57 dogs listed on PetFinder today 3/20/08 – of these 22 are puppy mill rescues (39%) and the rest are local (including large litters of mixed-breed puppies). Their prices for dogs/puppies range from \$175 (including spay-neuter) for non-puppy-mill dogs to \$250 for dogs from mills. Tiger Lily's adoption fee was really high at \$400

On Dec. 5, 2006, the state Board of Veterinary Medicine granted a premise permit to Humane Society of Inverness (among others), but the minutes don't give which premises they permitted.

http://www.myflorida.com/dbpr/pro/vetm/documents/vets_12_06_minutes_5_4_07.pdf

But, they obviously have a role in allowing rescue groups to keep numbers of

animals. It doesn't say how many dogs they are allowed to have at any location, but it would be worth checking with the board. Bow Wow Boutique probably has its own permit for their kennel, along with the Bouvier kennel that Nolan operates. Phone 850-487-1820; fax 850-922-2918; 1940 North Monroe Street, Tallahassee 32399-0787

I have a note here that references document No. 4000009645 of Oct. 11, 2004 Florida Department of Agriculture and Consumer affairs, CH18409 (I think this is supposed to be some license HIS or Room for One More has). The phone number for the Division of Consumer Services is 800-435-7352. I'm not sure exactly what kind of licenses this outfit really has or under which name.

- There seem to be a bunch of "Humane Society" groups in Inverness and Citrus County: Animals Inc., James Devine, 11098 S Flutter, Inverness 34452-9216;
- Humane Society of Citrus County Florida, Inc., 751 Smith Avenue, Inverness 34453-0875
- Humanitarians of Florida, Inc, PO Box 924, Inverness 34451-0924

I've also sent an email through WT list about a miniature pinscher (with what appears to be mange) and a mix-breed shepherd with eye surgery and a filthy e-collar that are listed under HIS on PetFinder today. If you left-click on the pictures in the emails, you should be able to save them to disk. Or, if it's easier, you have my permission to forward my post, with the pictures and descriptions of the dogs, to anyone who might be helpful to you (i.e., county or city authorities)

Subject: You may forward THIS message, selectively - CONFIDENTIAL
Date: Wed, 19 Mar 2008 16:34:17 +0000

Hi, Gail,

I'm not 'afraid' to have anyone who is bonafide in rescue read the info about these people here in Florida who should be shut down, so use your judgement when forwarding THIS MESSAGE (the one below) to anyone you like - but STRESS that the info contained herein is STRICTLY CONFIDENTIAL and should not be "broadcast" widely because it might interfere with our efforts to try to get these awful people stopped and shut down. You have my permission to forward and share this message, but PLEASE BE SELECTIVE WHEN YOU FORWARD TO ANYONE.

I have altered the message here slightly, eliminating any add'l email addresses that appeared (protecting some interested parties' privacy), so please forward this message that is contained in this email in entirety, if you wish.

If anyone has any questions (or gripes) they are more than welcome to contact me.

It won't be the first time I've had my name plastered on an effort to "right a wrong"...and I'm not hesitant at all to dive in to this full force - being the "terrier" that I am!

Thanks,

Andrea Shaw

CONFIDENTIAL MESSAGE RE: PUPPY MILLS and DEPLORABLE CONDITIONS - FLORIDA LOCATIONS' INFO:

As of Jan 25, 2008: The info below lists a number of BAD "purported rescue" people. If you read the list, you will see a name of "Palena Dorsey", and Margaret Nolan is one of her partners (read further down this list to see her

info, below).

Due to an inquiry received regarding Margaret Nolan on 3/19/08, I stress herein that she is NOT legit, and is banned from most shelters. More info appears below.

I network with MANY different breed-specific rescue people in FL and Nationwide [names withheld by me, here, for their privacy] and several VERY active rescuers sent me this info below. I will share more info with those who are bonafide in rescue and actively ready to DO something to aid the cause.

We want to get these people on the list below (who literally have hundreds of dogs kept in deplorable conditions) shut down.

I received this info on Jan 25th about the DO NOT ADOPT people in FL of most horrible circumstances:

(please read under this list, too, as I have added some personal comments about just one person, after researching each name/entity on the list)

> -----Original Message-----

This message (in part) is what I wrote back to [a rescue person/advocate in FL] when I did some hunting on a few of the people on the list above:

...I looked up corporate info on Margret Meier Nolan and her org. is legally called "SPCA OF CITRUS COUNTY, INC." (with a deliberate misspelling of her name in the corp. document: "Marget" instead of MargRet", with an "R" missing) and learned it is a dissolved corporation as of Sept. 14, 2007 Her home address is listed on the docs, in Inverness, FL. She can be reported to HSUS, I imagine. I know that HSUS is full of corruption, but if Margret is using the name/words "Humane Society" (in Inverness), can't we nail her on that name use violation, alone? Just a thought...

My thoughts are to report her to ASPCA/SPCA for her "using" their "name (the acronym "SPCA" AND the words "Humane Society"). This might be a good place to start.

She could also be reported to the FDA and to the FL Dep't. of Professional Regulation. Both agencies permit you to file a complaint online.

Hope this info helps.

Keep me posted!

Andrea

 This message was forwarded with the permission granted by Andrea Shaw in Broward County. If you have info you would like to share, or gripes you feel that you need to vent, or anything else you want to say or do to join the effort, please email Andrea Shaw at andrea@resqdogs.com.

I invite any and all inquiries, and am not hesitant to call to action any and all legal authority to stand up against these abused animals' conditions and their "keepers", who are breaking both humane animal care laws and federal regulations.

Andrea Shaw (a "terrier" at heart!)

My advice is to NOT tip off Margaret Nolan on what you 'presume' she is doing with her "legal" (business/corporate) entity. She's pretty slick, but we are smarter than she is, and can nail her. Go to the FL Division of Corporations' web page at <http://www.sunbiz.org> and do a search on her business name AND her personal name. To do the fast search, you will have to type in "Nolan Marget" (NO "R" in her first name) and her org ("SPCA OF CITRUS COUNTY, INC.", a non-profit) comes up as expired on 12/16/2005!!! The direct link to that particular page is (I don't know if clicking on this link will work - you may have to do the search from scratch):

http://www.sunbiz.org/scripts/cordet.exe?action=DETFIL&inq_doc_number=N050000126

[56&inq_came_from=OFFFWD&cor_web_names_seq_number=0001&names_name_ind=P&ret_names](#)

[cor_number=&ret_cor_web_names_seq_number=&ret_names_name_ind=&ret_names_comp_na](#)

[me=&ret_names_filing_type=&ret_cor_web_princ_seq=&ret_princ_comp_name=NOLANMARGA RET&ret_princ_type=](#)

This is where you start - you report her to the FL Div of Corporations first (can be done by phone and online). Then you report her to her county for operating under the guise of an expired business entity, and find out if she has valid business licenses too. I can help with this if you don't know how to do it. Then you report her to the county Sheriff. There's more, and I can help with it if you like. I'd have to do some homework, and can work on it over the next few days. Just let me know if you want the direct help.

ARTICLES OF INCORPORATION
OF
SPCA OF CITRUS COUNTY, INC.

05 DEC 16 PM 2:13
FILED
SECRETARY OF STATE
TALLAHASSEE, FLORIDA

The undersigned subscriber to these Articles of Incorporation is a natural person competent to contract and hereby form a non profit Corporation under Chapter 617 of the Florida Statutes.

ARTICLE 1 - NAME

The name of the Corporation is **SPCA OF CITRUS COUNTY, INC.**, (hereinafter "Corporation").

ARTICLE 2 - PURPOSE OF CORPORATION

The Corporation is organized exclusively for charitable, religious, educational, and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

ARTICLE 3 - PROHIBITIONS

No part of the net earnings of the Corporation shall inure to the benefit of, or be distributable to its members, trustees, officers, or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article Second hereof. No substantial part of the activities of the Corporation shall be carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles, the Corporation shall not carry on any other activities not permitted to be carried on (a) by a Corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a Corporation, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

ARTICLE 10 - QUALIFICATIONS OF MEMBERSHIP

The categories of membership, qualifications for membership and the manner of admission shall be as set forth in and regulated by the By Laws of the Corporation.

ARTICLE 11 - VOTING RIGHTS

Members of the Corporation will have such voting rights as are provided in the By Laws of the Corporation

ARTICLE 12 - LIABILITIES FOR DEBTS

Neither the members nor the members of the Board of Directors or officers of the Corporation shall be liable for the debts of the Corporation.

ARTICLE 13 - REGISTERED OFFICE AND REGISTERED AGENT

The initial address of registered office of this Corporation is Spiegel & Utrera, P.A., located at 1840 Southwest 22 Street, 4th Floor, Miami, Florida 33145. The name and address of the registered agent of this Corporation is Spiegel & Utrera, P.A., 1840 Southwest 22 Street, 4th Floor, Miami, Florida 33145.

ARTICLE 14 - EFFECTIVE DATE

These Articles of Incorporation shall be effective on the 2nd day of January, 2006.

ARTICLE 15 - AMENDMENT

These Articles of Incorporation may be amended in the manner provided by law. Every amendment shall be approved by the Board of Directors, proposed by them to the Members, and approved at a Members meeting by a majority of the Members, unless all the Directors and all the Members sign a written statement manifesting their intention that a certain amendment of these Articles of Incorporation be made.

ARTICLE 16 - INDEMNIFICATION

The Corporation shall indemnify a director or officer of the Corporation who was wholly successful, on the merits or otherwise, in the defense of any proceeding to which the director or officer was a party because the director or officer is or was a director or officer of the Corporation against reasonable attorney fees and expenses incurred by the director or officer in connection with the proceeding. The Corporation may indemnify an individual made a party to a proceeding because the individual is or was a director, officer, employee or agent of the Corporation against liability if authorized in the specific case after determination, in the manner required by the board of directors, that indemnification of the director, officer, employee or agent, as the

case may be, is permissible in the circumstances because the director, officer, employee or agent has met the standard of conduct set forth by the board of directors. The indemnification and advancement of attorney fees and expenses for directors, officers, employees and agents of the Corporation shall apply when such persons are serving at the Corporation's request while a director, officer, employee or agent of the Corporation, as the case may be, as a director, officer, partner, trustee, employee or agent of another foreign or domestic Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, whether or not for profit, as well as in their official capacity with the Corporation. The Corporation also may pay for or reimburse the reasonable attorney fees and expenses incurred by a director, officer, employee or agent of the Corporation who is a party to a proceeding in advance of final disposition of the proceeding. The Corporation also may purchase and maintain insurance on behalf of an individual arising from the individual's status as a director, officer, employee or agent of the Corporation, whether or not the Corporation would have power to indemnify the individual against the same liability under the law. All references in these Articles of Incorporation are deemed to include any amendment or successor thereto. Nothing contained in these Articles of Incorporation shall limit or preclude the exercise of any right relating to indemnification or advance of attorney fees and expenses to any person who is or was a director, officer, employee or agent of the Corporation or the ability of the Corporation otherwise to indemnify or advance expenses to any such person by contract or in any other manner. If any word, clause or sentence of the foregoing provisions regarding indemnification or advancement of the attorney fees or expenses shall be held invalid as contrary to law or public policy, it shall be severable and the provisions remaining shall not be otherwise affected. All references in these Articles of Incorporation to "director", "officer", "employee" and "agent" shall include the heirs, estates, executors, administrators and personal representatives of such persons.

ARTICLE 17 - DISSOLUTION

Upon dissolution of the Corporation, assets shall be distributed for one or more exempt purposes within the meaning of section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government for public purpose. Any such assets not so disposed of shall be disposed of by Court of *Competent Jurisdiction of the county in which the principal office of the Corporation is then located*, exclusively for such purposes or to such organization or organizations, as said Court shall determine, which are organized and operated exclusively for such purposes.

Citrus County Animal Services Division
4030 South Airport Road
Inverness, FL 34450

Dear Ms. Sandy Watson.

Please forgive me for being lazy. Enclosed are all the details. They are all stated out in my letter to Petco officials. I am cc: that letter to you. I feel something needs to be done about Margret Nolan, the Humane Society of Inverness, her other shelters and perhaps the people associated with her. We recently adopted a Welsh terrier now known as Tiger Lily. Enclosed is the information about her. Under Citrus County law I see that Animal control and 501c3 shelters are exempt from the laws about selling and adopting animals. That is how she gets away with the things she does. It may be legal, but surely not ethical. What happened to Tiger Lily in her uncaring hands is a shame let alone legal. I call it animal abuse and feel both animal control and the health department should thoroughly check her out. Tiger Lily was adopted out w/ an open infected spay wound, E-COLI, which is gotten through contaminated food and poo, Bordetella, and K9PARAINFLUENZA VIRUS 3. She was shown at Petco exposing any animal that was brought in there. Also people were taking Tiger Lily out of her crate and handling a puppy w/ an open infected spay wound. I pointed out to Nancy both about her severe cough and open spay wound and was basically blown off.

I did finally talk to Dr. Fox. I do not know if he is part of the problem or not. I know he is a very up standing citizen and a fine Vet, I did check him out. He says that animal control and other shelters give her many dogs to adopt out as she is such a caring person and does nothing but to help all the animals no one else wants. I'll have to say I disagree with that assessment, As far as I'm concerned she needs to be shut down. There is no excuse for what happen to Tiger Lily. Neither is there any reason not to provide me or my vet the information that we requested to help us to know if she needed booster shots or what we needed to change her Rabies tag to down here. I've never adopted from any reputable place that did not provide you with all the necessary medical records, what needed to be done medically, so you would know what has to be finished.

Here it is almost a month later and we are dealing with the issue she came with and other problems. She's home and happy. The sutures due to that open spay wound will have to be in a long time. What a shame. Why didn't they take her back right off to have Dr. Fox reclus it? I call them uncaring at best—but I consider it animal abuse.

Please can you take some kind of action?

Sincerely,

Gail Kania

VP Regional Operations
C/o of Petco
9125 Recho Road
San Diego, CA 92121

Dear Mr Torina.

I'm writing to you in regards to a Welsh terrier that I adopted at the SpringHill Petco store 2768 On Sunday-March 16 I drove from Davie, FL to your store in Brookville to see a Welsh terrier up for adoption by the humane Society of Inverness. That is about a five-hour drive. When the HS had set up I saw the Welsh terrier, now named Tiger Lily, in a crate with another dog. There were other crates there with other dogs. The first thing I notice was her labored noisy breathing. I said to the girl Nancy this dog is sick with Kennel cough and is contagious. He reply was that the dog had a slight cold. They had started her on these pills that AM. In a few days she would be OK. I repeated no. You mean she has Kennel cough and she is contagious. All I kept getting she was OK. This dog had green mucous coming from her nose, and was so congested that I thought she maybe had pneumonia. Now you need to understand that due to repeat ear infections that my hearing is only 45-55 % depending on the tones. I can't imagine what it must have sounded to a normal hearing person. At best this dog had Kennel cough and at worse canine influenza. Both are highly contagious. They were exposing every animal in that shelter to infection. Then I noticed where she was spayed. This poor thing had an open and infected spay wound. I mentioned this to Nancy She would not even look at it. She said it was checked just before they left the shelter and there was nothing wrong with it. I'm saying yes there is. She would not look. I could not believe anyone would not at least look. Instead she says to me that it's obvious I do not know what a spay wound should look like. I could not believe the condition of this poor dog. Also people were opening the crate and picking Tiger Lily up with this open infected wound. As an aside I do foster and work animal rescue for Terrier clubs down in Broward County and I grew up on a farm with animals of all kind. She must think that everyone is dumb. To make a long story short I plunked down a check for \$400 and brought this very sick puppy home with me. I felt if I left her there she would have dies a slow death.

I got home pretty late that night with Tiger Lily Records, my vet letter, and the next day I took the day off from work. Knowing that she was contagious I call my vet first thing Monday morning-March 17 She had me bring her in during lunch break when no dogs were in. Unfortunately she has no isolation room, again that night and first thing the next day She was treated for a few days with antibiotics, nebulizing her 3X each day Unfortunately it did not work and we had to take her to the emergency Veterinary

Clinic. That was Friday morning March 21 She was immediately placed into an incubator on oxygen. She was kept at the emergency Clinic for 8 days. I'm including a letter from my vet, my initial vet records, pictures, the lab reports and discharge papers from St. Francis Emergency Animal Clinic. If need be I can send you the complete record from the emergency clinic, but it's pretty large. This packet is already pretty big. The lab reports, which are included, showed she was infected with e-coli, (moderate growth) Bordetella PCR (may be due to her shots and may have added to her distress) and positive for K9 PARAINFLUENZA VIRUS 3 She was treated for these things. Enclosed with the shelter info is a copy of the medicine she was supposedly just started on for that "slight cold" Did not notice it at the time, but it was dated March 13 That was the day she was spayed and given all her shots. To me that would indicate that MAYBE she was already showing signs of coughing. Also on the prescription medicine was nothing saying what it was, or for, or type of animal to be given too. The emergency vet determined what it was doxycyline and put it on the paper and added Tiger Lily's name on it. They continued to give it to her with the other medications she had from our vet and then they added to it. It was eight days from the time we adopted her till they were able to suture her spay wound closed. She was too ill to do it. Once done her temperature dropped back to normal by the next day

Also enclosed are my e-mails w/ the shelter, the shelter forms (I did get the Petco forms, but did not enclosed them), and some things sent to me from pet finders. Shows the Welsh terrier ad and another dog that appears to have mange. I also had on sent w/ a very filthy e-collar When I adopted Tiger Lily I asked for more complete medical records. The answer I got was what I had from them were it. My vet office since then has called the shelter which finally called back on Thursday and I finally got hold of Dr Fox Thursday AM. Another shelter called over and asked him to call me. From neither place could we find out if she needed booster shots or the rabies vaccine info with the serial number, maker, expiration date, etc. I need it here and Alabama so I can retag her I have found out that, if I run a Titer test at the minimum cost of \$80, and it shows she is protected I will be able to tag her in Alabama. I retire the end of this month and we will be moving to our old farm in Alabama. We will be back and fourth for a couple of months. You will have to forgive me, but there is no way I would want her traced back to that place w/ their attitude and treatment of animals. Dr Fox says he does 30-40 dogs a day for her every day -spaying/neutering/shots. He's retired and working part time???? Which at the least are 150 dogs each and every week. I'm on the phone with him and he's saying he has a dog on the table as we were talking. That blew my mind. When I checked him out he has no complains that were found valid and is a very well respected Vet and person in the community up there. I do not know what to think about him.

Also is a part enclosed of what people have sent me? You can read into it what you want. It would appear that her SPCA shelter has been working without a license since 2005 He spay mobile has not moved for years (it's parked at another HS shelter parking lot. They told me this and they were the ones that called Dr Fox for me) and also has an expired license on it, but it is shown on her web sight. She has no official standing w/ the AKC Bouvier rescue clubs. I checked it out then asked some one I knew involved with them. Some of the shelters are interconnected with the same people. What

I found interesting is one of the places mentioned is the Animal Sanctuary of Clewiston. She has been banned down here from Petco and at times is partners with Margret Nolan and has been banned in other states. To me it appears they use the shelters as a front for running the puppy mill dogs. You will have to form your own conclusion. I'm still trying to find out more info.

My aim is that Petco need to ban the Humane Society of Inverness from all the Petco Stores up there. Personally any group of hers or her associates in my opinion should be banned from showing anywhere. Citrus county animal law, which is also enclosed, exempts animal control and any 501c3 shelters from having to follow the rules that pet stores, breeders and the rest of us have to follow That is how she and others stay in business. They skirt that fine edge of the law to their advantage. It may be legal. But not ethically right. To me she should be banned for bringing contagious animals into a store. Therefore was exposing any animal brought into that store to influenza. Tiger Lily had an open infected spay wound and they were letting people handle her I did call the SpringHill Petco Store and talked to the Assistant Manager Tony He said to send him a packet and not notify the National office, that is when I went to my local Petco and talked to the manager there for guidance. Explain the situation and showed her the pictures and vet records. She advised me to contact three people at Petco and I am.

Please take the time to read all this stuff. I know it is a lot. My phone number is 954-584-9329 I work till the end of April from 11.30 to 8.30 PM. My e-mail is gkania@att.net until the middle of May Then I will close it down. I do not know what I will have in Alabama yet. May 1rst we head for about a week and a half (phone there is 251-746-2711) up to our farm in Alabama. Then we will be back in Fl. For 2 weeks.

Respectfully

Gail Kania

My advice is to NOT tip off Margaret Nolan on what you 'presume' she is doing with her "legal" (business/corporate) entity. She's pretty slick, but we are smarter than she is, and can nail her. Go to the FL Division of Corporations' web page at <http://www.sunbiz.org> and do a search on her business name AND her personal name. To do the fast search, you will have to type in "Nolan Marget" (NO "R" in her first name) and her org ("SPCA OF CITRUS COUNTY, INC.", a non-profit) comes up as expired on 12/16/2005!!! The direct link to that particular page is (I don't know if clicking on this link will work - you may have to do the search from scratch):

http://www.sunbiz.org/scripts/cordet.exe?action=DETFIL&inq_doc_number=N050000126

[56&inq_came_from=OFFFWD&cor_web_names_seq_number=0001&names_name_ind=P&ret_names](#)

[_cor_number=&ret_cor_web_names_seq_number=&ret_names_name_ind=&ret_names_comp_na](#)

[me=&ret_names_filing_type=&ret_cor_web_princ_seq=&ret_princ_comp_name=NOLANMARGA_RET&ret_princ_type=](#)

This is where you start - you report her to the FL Div of Corporations first (can be done by phone and online). Then you report her to her county for operating under the guise of an expired business entity, and find out if she has valid business licenses too. I can help with this if you don't know how to do it. Then you report her to the county Sheriff. There's more, and I can help with it if you like. I'd have to do some homework, and can work on it over the next few days. Just let me know if you want the direct help.

Hi, Gail,

I'm not 'afraid' to have anyone who is bonafide in rescue read the info about these people here in Florida who should be shut down, so use your judgement when forwarding THIS MESSAGE (the one below) to anyone you like but STRESS that the info contained herein is STRICTLY CONFIDENTIAL and should not be "broadcast" widely because it might interfere with our efforts to try to get these awful people stopped and shut down. You have my permission to forward and share this message, but PLEASE BE SELECTIVE WHEN YOU FORWARD TO ANYONE.

I have altered the message here slightly, eliminating any add'l email addresses that appeared (protecting some interested parties' privacy), so please forward this message that is contained in this email in entirety, if you wish.

If anyone has any questions (or gripes) they are more than welcome to contact me.

It won't be the first time I've had my name plastered on an effort to "right a wrong"...and I'm not hesitant at all to dive in to this full force being the "terrier" that I am!

Thanks,

Andrea Shaw

CONFIDENTIAL MESSAGE RE: PUPPY MILLS and DEPLORABLE CONDITIONS - FLORIDA LOCATIONS' INFO:

As of Jan 25, 2008: The info below lists a number of BAD "purported rescue" people. If you read the list, you will see a name of "Palena Dorsey", and Margaret Nolan is one of her partners (read further down this list to see her

info, below).

Due to an inquiry received regarding Margaret Nolan on 3/19/08, I stress herein that she is NOT legit, and is banned from most shelters. More info appears below

I network with MANY different breed-specific rescue people in FL and Nationwide [names withheld by me, here, for their privacy] and several VERY active rescuers sent me this info below. I will share more info with those who are bonafide in rescue and actively ready to DO something to aid the cause.

We want to get these people on the list below (who literally have hundreds of dogs kept in deplorable conditions) shut down.

I received this info on Jan 25th about the DO NOT ADOPT people in FL of most horrible circumstances:
(please read under this list, too, as I have added some personal comments about just one person, after researching each name/entity on the list)

> -----Original Message-----

This message (in part) is what I wrote back to [a rescue person/advocate in FL] when I did some hunting on a few of the people on the list above:

...I looked up corporate info on Margret Meier Nolan and her org. is legally called "SPCA OF CITRUS COUNTY, INC." (with a deliberate misspelling of her name in the corp. document: "Marget" instead of MargRet", with an "R" missing) and learned it is a dissolved corporation as of Sept. 14, 2007 Her home address is listed on the docs, in Inverness, FL. She can be reported to HSUS, I imagine. I know that HSUS is full of corruption, but if Margret is using the name/words "Humane Society" (in Inverness), can't we nail her on that name use violation, alone? Just a thought...

My thoughts are to report her to ASPCA/SPCA for her "using" their "name (the acronym "SPCA" AND the words "Humane Society"). This might be a good place to start.

She could also be reported to the FDA and to the FL Dep't. of Professional Regulation. Both agencies permit you to file a complaint online.

Hope this info helps.

Keep me posted!

Andrea

--- -----

This message was forwarded with the permission granted by Andrea Shaw in Broward County. If you have info you would like to share, or gripes you feel that you need to vent, or anything else you want to say or do to join the effort, please email Andrea Shaw at andrea@resqdogs.com.

I invite any and all inquiries, and am not hesitant to call to action any and all legal authority to stand up against these abused animals' conditions and their "keepers", who are breaking both humane animal care laws and federal regulations.

Andrea Shaw (a "terrier" at heart!)

 Subject: [Welsh-L] RE: Tiger Lily
 Date: Tuesday, March 18, 2008 12:57:22 PM [View Source]

Gail wrote:

>This baby was at a Humane Society in inverness I saw her on pet finders....I heard from the shelter managers She was a little testy <

There are several things about this "rescue organization" that send up big red flags for me

- * First is the amount of money they charged you as an "adoption fee " \$400 00 sounds more like a sale to me.
- * Secondly, the woman who runs the place is also a breeder/rescuer of Bouviers <www.anders-bouviers.com>, but she is not listed on the nat'l breed club's breeder referral list <http://www.bouvier.org/breeder_referral.html>, nor is she listed as a rescue contact <<http://www.bouvier.org/ABRL/ABRLmap.html>>
- * Tiger Lily's physical condition is terrible She was in no shape to be given the number of vaccinations she had all at one time, let alone to be adopted The fact that they allowed her to get in that shape, and to be adopted while so sick is reprehensible
- * If you look closely at the photo of the "spay-mobile" <http://humanesociety-inverness.com/images/spay_mobile.gif> you will see that the shelter name and phone number are actually photo-shopped into the picture, not painted on the side of the vehicle
- * How often does a rescue group have even a few small dogs, purebred dogs, or designer breeds? Usually you will find primarily large lab and shepherd mixes If you look at their list of available dogs <<http://tinyurl.com/2lbvqk>> they have 7 Schnauzers, 4 Shih Tzus, 7 Bichons, 3 Jack Russells, and 6 Schnoodles
- * There is no physical shelter address given where the animals are housed and can be viewed and picked up They arranged to meet you at Petsmart If you look at the "forever families" part of the site, you will see feedback that indicates dogs were obtained in Missouri, dropped off at a designated meeting point in Connecticut, and given to someone just met at a home show to be shipped out of the country
- * They have a permanent booth at the local flea market!

This "rescue group" seems to function more like a front for puppy mills, and I don't have much love lost for Petfinder either Many groups are using them like a giant online broker

Perhaps you could contact the Pet Law division of the Florida Department of Agriculture <http://www.doacs.state.fl.us/ai/main/pet_main.shtml> The fact that the HS of Inverness is a non-profit exempts them from having to reimburse you for Tiger Lily's vet bills, but if you provide the DOA with information about Tiger Lily's condition, and the response you have received from shelter reps, it might be enough to get the DOA to investigate this place

Crystal River, FL 34429

www.mybowwow.com

Boarding kennel and grooming

Angela Mc Murray

Board member of HIS and "Society for Prevention of Cruelty of Animals, Citrus County (I didn't find this listed as a nonprofit, or anything close in name)

HSI has 57 dogs listed on PetFinder today 3/20/08 – of these 22 are puppy mill rescues (39%) and the rest are local (including large litters of mixed-breed puppies) Their prices for dogs/puppies range from \$175 (including spay-neuter) for non-puppy-mill dogs to \$250 for dogs from mills. Tiger Lily's adoption fee was really high at \$400

On Dec. 5, 2006, the state Board of Veterinary Medicine granted a premise permit to Humane Society of Inverness (among others), but the minutes don't give which premises they permitted.

http://www.myflorida.com/dbpr/pro/vetm/documents/vets_12_06_minutes_5_4_07.pdf

But, they obviously have a role in allowing rescue groups to keep numbers of

animals. It doesn't say how many dogs they are allowed to have at any location, but it would be worth checking with the board. Bow Wow Boutique probably has its own permit for their kennel, along with the Bouvier kennel that Nolan operates. Phone 850-487-1820; fax 850-922-2918, 1940 North Monroe Street, Tallahassee 32399-0787

I have a note here that references document No. 4000009645 of Oct. 11, 2004 Florida Department of Agriculture and Consumer Affairs, CH18409 (I think this is supposed to be some license HIS or Room for One More has). The phone number for the Division of Consumer Services is 800-435-7352. I'm not sure exactly what kind of licenses this outfit really has or under which name.

- There seem to be a bunch of "Humane Society" groups in Inverness and Citrus County: Animals Inc., James Devine, 11098 S Flutter, Inverness 34452-9216;
- Humane Society of Citrus County Florida, Inc., 751 Smith Avenue, Inverness 34453-0875
- Humanitarians of Florida, Inc, PO Box 924, Inverness 34451-0924

I've also sent an email through WT list about a miniature pinscher (with what appears to be mange) and a mix-breed shepherd with eye surgery and a filthy e-collar that are listed under HIS on PetFinder today. If you left-click on the pictures in the emails, you should be able to save them to disk. Or, if it's easier, you have my permission to forward my post, with the pictures and descriptions of the dogs, to anyone who might be helpful to you (i.e., county or city authorities)

My advice is to NOT tip off Margaret Nolan on what you 'presume' she is doing with her "legal" (business/corporate) entity She's pretty slick, but we are smarter than she is, and can nail her Go to the FL Division of Corporations' web page at <http://www.sunbiz.org> and do a search on her business name AND her personal name. To do the fast search, you will have to type in "Nolan Marget" (NO "R" in her first name) and her org ("SPCA OF CITRUS COUNTY, INC.", a non-profit) comes up as expired on 12/16/2005!!! The direct link to that particular page is (I don't know if clicking on this link will work - you may have to do the search from scratch):

http://www.sunbiz.org/scripts/cordet.exe?action=DETFIL&inq_doc_number=N050000126

[56&inq_came_from=OFFFWD&cor_web_names_seq_number=0001&names_name_ind=P&ret_names](#)

[_cor_number=&ret_cor_web_names_seq_number=&ret_names_name_ind=&ret_names_comp_na](#)

[me=&ret_names_filing_type=&ret_cor_web_princ_seq=&ret_princ_comp_name=NOLANMARGA RET&ret_princ_type=](#) This is where you start - you report her to the FL Div of Corporations first (can be done by phone and pinline). Then you report her to her county for operating under the guise of an expired business entity, and find out if she has valid business licenses too. I can help with this if you don't know how to do it. Then you report her to the county Sheriff There's more, and I can help with it if you like. I'd have to do some homework, and can work on it over the next few days. Just let me know if you want the direct help.

ARTICLES OF INCORPORATION

OF

SPCA OF CITRUS COUNTY, INC.

05 DEC 16 PM 2:19
FILED
SECRETARY OF STATE
TALLAHASSEE, FLORIDA

The undersigned subscriber to these Articles of Incorporation is a natural person competent to contract and hereby form a non profit Corporation under Chapter 617 of the Florida Statutes.

ARTICLE 1 - NAME

The name of the Corporation is **SPCA OF CITRUS COUNTY, INC.**, (hereinafter "Corporation).

ARTICLE 2 - PURPOSE OF CORPORATION

The Corporation is organized exclusively for charitable, religious, educational, and scientific purposes, including, for such purposes, the making of distributions to organizations that qualify as exempt organizations under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

ARTICLE 3 - PROHIBITIONS

No part of the net earnings of the Corporation shall inure to the benefit of, or be distributable to its members, trustees, officers, or other private persons, except that the Corporation shall be authorized and empowered to pay reasonable compensation for services rendered and to make payments and distributions in furtherance of the purposes set forth in Article Second hereof. No substantial part of the activities of the Corporation shall be carrying on of propaganda, or otherwise attempting to influence legislation, and the Corporation shall not participate in, or intervene in (including the publishing or distribution of statements) any political campaign on behalf of or in opposition to any candidate for public office. Notwithstanding any other provision of these articles, the Corporation shall not carry on any other activities not permitted to be carried on (a) by a Corporation exempt from federal income tax under section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or (b) by a Corporation, contributions to which are deductible under section 170(c)(2) of the Internal Revenue Code, or the corresponding section of any future federal tax code.

case may be, is permissible in the circumstances because the director, officer, employee or agent has met the standard of conduct set forth by the board of directors. The indemnification and advancement of attorney fees and expenses for directors, officers, employees and agents of the Corporation shall apply when such persons are serving at the Corporation's request while a director, officer, employee or agent of the Corporation, as the case may be, as a director, officer, partner, trustee, employee or agent of another foreign or domestic Corporation, partnership, joint venture, trust, employee benefit plan or other enterprise, whether or not for profit, as well as in their official capacity with the Corporation. The Corporation also may pay for or reimburse the reasonable attorney fees and expenses incurred by a director, officer, employee or agent of the Corporation who is a party to a proceeding in advance of final disposition of the proceeding. The Corporation also may purchase and maintain insurance on behalf of an individual arising from the individual's status as a director, officer, employee or agent of the Corporation, whether or not the Corporation would have power to indemnify the individual against the same liability under the law. All references in these Articles of Incorporation are deemed to include any amendment or successor thereto. Nothing contained in these Articles of Incorporation shall limit or preclude the exercise of any right relating to indemnification or advance of attorney fees and expenses to any person who is or was a director, officer, employee or agent of the Corporation or the ability of the Corporation otherwise to indemnify or advance expenses to any such person by contract or in any other manner. If any word, clause or sentence of the foregoing provisions regarding indemnification or advancement of the attorney fees or expenses shall be held invalid as contrary to law or public policy, it shall be severable and the provisions remaining shall not be otherwise affected. All references in these Articles of Incorporation to "director", "officer", "employee" and "agent" shall include the heirs, estates, executors, administrators and personal representatives of such persons.

ARTICLE 17 - DISSOLUTION

Upon dissolution of the Corporation, assets shall be distributed for one or more exempt purposes within the meaning of section 501(c)(3) of the Internal Revenue Code, or the corresponding section of any future federal tax code, or shall be distributed to the federal government, or to a state or local government for public purpose. Any such assets not so disposed of shall be disposed of by Court of Competent Jurisdiction of the county in which the principal office of the Corporation is then located, exclusively for such purposes or to such organization or organizations, as said Court shall determine, which are organized and operated exclusively for such purposes.

ANIMAL ADOPTION CONTRACT

Date: 03/16/08 Adoption Fee: 40.00
Breed: Sheltie Dog: Cat: _____ Sex: F Age: 1 year Microchip No. 013-997-574
Description: _____

This contract and release agreement is entered for the express purpose of the adoption of the animal as described above from Humane Society of Inverness (HSI) and

Adopter: _____ Phone: _____
Address: _____ Email Address: _____

Whereas, HSI has retrieved this animal from an unfortunate situation and said animal is presently in need of a loving forever home and
Whereas, the parties wishing to avoid any misunderstandings concerning this adoption set forth the following:

The animal will become sole property of the adopter, after it is spayed or neutered and is subject to all the following rules, ordinances and regulations of the City, Municipality, Town, Township, County and State wherein the adopter and the animal reside and agree to comply and be bound by said rules and regulations regarding the animal's ownership. The animal shall be a house pet an "in-house" pet and reasonable exercise will be provided. The animal shall not be chained or restrained by a tether in any way unless constantly attended. The adopter agrees that the above animal will not be used for any other purpose including but not limited to attack dog, guard dog or for experimental purposes.

Adopter agrees that the animal, is not already spayed or neutered will have it done within the next 90 days. It will be done thru HSI, and cost is included in adoption fee.

The adopter agrees to provide the animal with veterinary care and treatment when necessary and agrees to continue with yearly immunizations. The adopter agrees to provide a balanced and nutritious diet to the animal described above. The adopter agrees to keep the animal in clean surroundings and maintain routine grooming and brushing.

HSI has provided the adopter with any information they have and related any problems the adopted animal may have which were either known from the former family or from the foster family.

Adopter agrees to contact HSI should he or she be unable to keep the animal for any reason. Adopter agrees to not sell or give the animal to any animal shelter or other party without approval of HSI. The adopter agrees to hold Humane Society of Inverness harmless and representatives thereof against any and all liability, claim or claims, cause or causes of action arising out of or as a result of or in connection with ownership of the adopted animal.

The HSI agrees to accept the return of the adopted animals should the adopter be unable to keep the animal. Said return may occur any time within three (3) days after the date of the adoption, and a full refund will be given the adopter.

Any use or treatment of the animal inconsistent with the good and humane care of the animal shall be deemed a breach of this contract and HSI retains full right to terminate this contact at any time when a determination has been made that any terms of this contract has been breached and possession of the animal will be given up to Humane Society of Inverness immediately upon demand.

The parties hereto being in complete accord and agreement concerning the welfare of the animal to be adopted and having set out the rights and responsibilities of each relative to this adoption have set their hand this day. . .

 Subject: Lily's medical costs
 Date: Tuesday, March 18, 2008 1:30:51 AM [View Source]

Hi Gail:

I hope you know that I'm another one of those folks who will do whatever I can to help a Welshie (or any dog) in need, like Lily. I really admire your compassion and drive to do good things. And Lily, she's such a sweet thing you can see her spark and spirit in her eyes and expression, despite how bad she must have been feeling. I think there are a lot of folks on the list who would love to help you and Lily if the medical costs get to be more than you can handle. I'd be happy to help out too and I hope you won't hesitate to let me know if I can help in whatever way you need.

I'm also building up a head of steam over the abuse that Lily has suffered under the hands of this so called "rescue". I'm copying the posting on Petfinders that you saw for Lily. The link will stop working as soon as they pull her off the system, but this copy is one that you can use to show that this is the dog you saw and adopted, photographed in their crate with the open spay incision, etc. I expect you will have to get down to this with the Board of Directors, the county or the state ag department at some point.

I also looked up the Humane Society of Inverness, Florida on a database of non-profits. Here's a link to what I found:

<http://www.taxexemptworld.com/organization.asp?tn=546688>

This is the website you get from their PetFinder link:

<http://www.petfinder.com/shelters/FL548.html>

Here are the phone numbers etc. they provide:

The Humane Society of Inverness, Inc.
 P.O. Box 0805
 Inverness, FL 34450
 352-344-5207
 email: bouvierrescue04@aol.com
 Website: <http://www.humanesociety-inverness.com>

I didn't realize until tonight that this was the pup you were talking about. I sent an email to Lyn Hollis this morning about her. It struck me as odd that this Humane Society was a "dot com" and "Inc.", instead of the usual "dot org" for nonprofits. That's what prompted me to look up to see if they even are a nonprofit (they are). I did a little searching and found that there seem to be three organizations tied together: Humane Society of Inverness, Room for One More and Humane Society of Citrus County. The whole thing seems to have grown from Bouvier rescue (that's the email address for HS of Inverness). These groups are somehow overseen by the Florida Dept of Agriculture and Consumer Affairs (the registration number for Room for one More is CH18409 but a search on Ag's site came up with nothing by either number or names of the groups). There is a phone number though, 800-435-7352 -- call and ask for the director of the agency (you have pictures!)?

The Florida Attorney General's office might be able to give you some advice on this. It's hard to figure which agencies (if any) have any oversight over private nonprofit animal rescue groups. Or, contact the Humane Society of the US -- the folks that recently busted the meat packin plants for processing downer cows. I know there's all that stuff about PETA and HSUS, etc. but so far these guys have at least demonstrated the smarts/cojones to go out and get actual evidence of abuse maybe they can help with what you have on Lily's treatment? You can call them at 202-452-1100 (ask for staff dealing with animal shelters) or write to them at Companion Animals Section, The Humane Society of the United States, 2100 L St., NW, Washington, DC 20037 (this is better than email, but include prints of your pictures). They are

Subject: Re: [Welsh-L] RE: Tiger Lily
Date: Thursday, March 20, 2008 12:59:26 PM [View Source](#)

Gail I think you sent us a copy of an email that you sent to the HSI the day after you got Tiger Lily, didn't you - after your first vet visit? That might constitute notice. I did some checking online and found that the City of Inverness, where HSI is supposedly located, adopted the Citrus County codes in regards to animals. A copy of the relevant parts is attached. Sec. 14-57 deals with the health requirements for animals offered for sale. Maybe Judith or someone else familiar with rescue and abuse can advise you on the exact steps you need to take on Tiger Lily's behalf. I think others have quoted this language that is probably state law as well:

"(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks; or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:
 (3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

I'm not a vet or tech, but there are a couple of other dogs listed on PetFinder by HSI that someone from Co. Animals Services could check out - they, IMO, show that there are visible problems with the medical care and attention to these dogs:

"Little Man" - Mini Pinscher - their description of this dog's problem is sort of like a real estate ad referring to a "fixer-upper" of the mange variety -- "He has a few spots where hair needs to grow back but is treated and OK"

His "adoption" fee is \$300
<http://www.petfinder.com/petnote/displaypet.cgi?petid=10271412>

More About Little Man

We have a male Min Pin we rescued from a puppy mill auction, before being killed, coming in Monday. He was born 06/07 and is blk and tan. Adoption fee 300.00, which will include rescue and transport costs, neuter, microchip, shots, rabies, bordetella, and any other vet care they need when they arrive. He has a few spots where hair needs to grow back but is treated and ok. He will be a beautiful Min Pin once his coat is back to normal. Please call 352-344-5207 for more info.

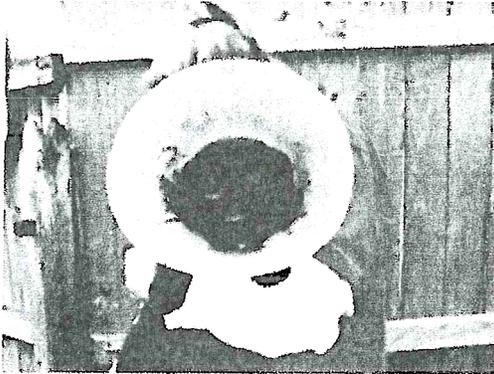

This pet is up to date with routine shots.

Gomer - a chow chow/lab mix -- He's recently had surgery on his eye and look at the filthy e-collar!

More About GOMER

Gomer is such a lovable big lump! He had a birth defect, an extra piece of skin by his eye that was giving him infections, so he had surgery and its on its way to healing! He still has a happy personality, despite having to wear the plastic collar until the skin around his eye heals. He is only 14 weeks old in this picture and growing! He is a big, huggable, lovable low energy teddy bear! If you would like to meet Gomer, please call 352-344-5207 to make an appointment. His adoption fee is 175.

This pet is up to date with routine shots.

This pet has been altered.

I also tried to figure out if there's any connection between Citrus County Animal Services and HSI the county's shelter is "rescue friendly", but they too need to think twice about which rescues they work with and just exactly what it is they are promoting as a result.

http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=No%20Kill%20Shelters&dt=html

"Realizing that ALL animal welfare organizations provide essential services to pet-owners in any community, it seems counterproductive to take sides when for any animal welfare organization the ultimate goal is the same-- to find a good home for every adoptable animal. In our community, CCAS counts on the aid of Humanitarians of Florida, Room For One More, Citrus County Humane Society, breed-specific rescue organizations, and countless other groups and individuals that participate in this

important work. We are all part of a network that acts as a safety net for the thousands of pets and pet owners in our area."

Sandy Watson is the Director of Citrus County Animal Services Division phone 352 726-7660 (fax 726-4120) no email listed but you could ask her for it to send copies of your emails and photos. This is also the number for reporting animal cruelty and hoarding. http://animalcontrol.citrus.fl.us/servlets/ac_pkg?showPage=index.htm&dt=html

The county also has an advisory page about canine influenza, so they know it's a big problem in that area. I think this is the place to start, at least to make them aware and then go up the chain (County Commissioners) if you don't get action.

I'll send you a private email with some other details I've found that might be helpful in pursuing this. If I can lend you a hand on any of this, let me know - hopefully others with more direct experience can also give you some one this part.

Bless you and your family for all that you are doing for Tiger Lily - what a total sweetheart she is and what a great job you are doing!! Continuing to send lots and lots of healing vibes to her and keeping all our fingers and toes crosses that you have good news at tomorrow's vet visit!

Subject: the welsh baby PFID we adopted
Date: Monday, March 17, 2008 4:02:36 PM [\[View Source\]](#)

Hi Margret, Do you have a number for the HS manager? I know the girls called to warn me she had a slight wheeze, but I had to leave 7 in the morning as it is a 5 hour trip. The treatment of this Welsh Terrier in my opinion is a form of animal abuse. There was no way I would have left it there. Every question I asked Nancy (right name?) was basically I don't know. She said the vat told them she just had a slight cold. The antibiotics would clear it right up. Even I knew it was much worse. It was so bad you could here it in her breezing. I said you mean she has kennel cough and she is contagious. Nancy says no--a slight cold and not contagious. How could a long term kennel worker be that ignorant or worse if she was out right lying. Then I said that spaying place was all bloody and didn't look good. She say's that's how they are suppose to look. I work animal rescue and and old farm girl. She was full of--S-- and I have the pictures to prove it. There is no way I would have left her there. I took the day off from work to get her tended to. Her Spay spot was totally open, She needs to be put under to have it cleaned and re sutured. BUT her health is so bad it can't be done. She has pneumonia, real bad, due to Kennel cough or influenza. Hope we will be able to save her. We had her nebulized (sp) to day and it will have to be done 2X a day for some while. I realize Kennel Cough is common, but I have 50% hearing loss and could here how bad she was. You gave her all her shots, she's sick and spay her all at the same time. Not good policy. Yet no blood work was done or urinalysis. To see if anything else was going on. I know how short of help a shelter can be and also the money issues. There is no excuse to have that many animals if you can't tend to them correctly. You need to keep an eye on the others.
Gail Kania

Gail,

i am the manager and president of the Humane Society of Inverness, and i just talked to nancy and our Dr Fox...

She got spayed, and her shot on Thursday and yes, we do this all the same day on Friday she got a fecal and another check up.. there was no sign of pneumonia and her spay incision was closed . the stiches are inside and outside we use skin glue.

She can have licked herself open, what sometimes happend with active puppies, but i have seen her before she left for Petco and she was fine. . so if she is open, she doesnt need stiches, she needs to get glued again.

Please provide me with the number of the Vetoffice where she is treated, and Dr Fox will call them

And i am very proud to say, that we CARE about the animals in our facility

Hi Margret
 My vet is Marlene Penea---954-989-8393.
 Thankyou very much for responding. Please forgive my grave concern for Tiger Lily. Thats her name now. We are hoping it is just kennel cough, but the severity of it we may br dealing w/ Dog influenzzna. You need to be aware of it so you can watch out. I know pneumonia least ways in small kids can come on quick. Maybe so with puppies. All I can say is I questioned her about spay mark because it was open and covered w/ dry blood. The lady did not look, and responded that was how they should look. Sending the pictures I took. The second picture of her in the cage was taken out side of thePetco inside my car The first is where I cropped trying to enlarge. Sorry that blurred it. Trust me I am not telling a tall tale. I've just come in w/ what I need to nebulize (SP) her at home. Do you know Andrea Shaw? She is shows Bouviers and ADT She is active w/ the Sunshine Airedalers rescue?
 Gail K

Sec. 14-48. Cruelty to animals.

- (a) A person who unnecessarily overloads, overdrives, torments, deprives of necessary sustenance or shelter, or unnecessarily mutilates, or kills any animal, or causes the same to be done, or carries in or upon any vehicle, or otherwise, any animal in a cruel or inhumane manner, is guilty of a misdemeanor of the first degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$5,000 00, or both.
- (b) A person who intentionally commits an act to any animal which results in the cruel death, or excessive or repeated infliction of unnecessary pain or suffering, or causes the same to be done, is guilty of a felony of the third degree, punishable as provided in F.S., § 775 082, or by a fine of not more than \$10,000 00, or both.
- (c) A veterinarian licensed to practice in the state shall be held harmless from either criminal or civil liability for any decisions made or services rendered under the provisions of this section.

Sec. 14-49. Humane treatment of animals.

(a) *Failure to provide necessary sustenance.*

(1) It shall be a violation of this article, for any owner, harbinger, keeper or person having custody or care of any companion animal to fail to treat said animal in a humane manner and/or fail to provide humane care for said animal. Humane care includes, but is not limited to, providing adequate food, adequate water, adequate shelter, adequate space, and veterinary care to maintain health and to prevent or cure diseases.

a. *Adequate food* means food that is of sufficient quantity and nutritive value to maintain each companion animal in good health. The owner shall ensure that adequate food is accessible to each companion animal, is prepared so as to permit ease of consumption for the age, species, condition, size and type of each companion animal, is provided in a clean and sanitary manner, is placed so as to minimize contamination by excrement and pests, and is provided at suitable intervals for the species, and condition of the companion animal, which is at least once daily except as prescribed by a veterinarian.

b. *Adequate water* means clean, fresh, potable water of a drinkable temperature. Adequate water shall be provided in a suitable manner, in sufficient volume, and at suitable intervals, at all times to maintain normal hydration for the age, species, condition, size and type of each companion animal, except as prescribed by a veterinarian, and that the water is provided in a clean, durable receptacle, which is accessible to each companion animal and is placed so as to prevent contamination of the water by excrement and pests.

c. *Adequate shelter* means a shelter that is suitable for the species, age, condition, size, and type of each companion animal, and provides adequate space for each companion animal, is safe and protects each companion animal from injury, direct sunlight, other weather elements, adverse effects of heat or cold, physical suffering, and impairment of health. The owner shall ensure that the shelter is properly lighted, is properly cleaned, enables each companion animal to be clean and dry, except when detrimental to the species, and for dogs and cats provides a solid surface and resting platform, pad, floor, mat or similar device that is large enough for the dog or cat to lie on in a normal manner and can be maintained in a sanitary manner. The area shall be free of any accumulated waste or external parasites, so that the animal shall be free to walk or lay down without coming into contact with any such waste or parasites. Livestock are exempt from shelter requirements.

d. *Adequate space* means space that allows a companion animal to easily sit, stand, lie, turnabout and make other normal body movements in a comfortable, normal position for a companion animal. Adequate space shall exist so a companion animal can interact safely with other animals in the enclosure, unless specified by veterinarian care. Nothing precludes veterinary care that temporarily restricts movement if it would endanger the companion animal.

e. *Veterinary care* may include humane euthanasia if a companion animal is beyond the abilities of veterinary medicine to treat or cure and the animal is suffering.

(2) Animal services is authorized to hold impounded animals until unsatisfactory living conditions are corrected.

(3) Any member of the county sheriff's office, any municipal law enforcement officer, or animal services officer shall have the authority to enter private property (excluding residential dwellings) to impound animals that have not been provided with necessary sustenance and are determined to be in a state of distress.

Sec. 14-57. Dogs and cats transported or offered for sale; health requirements; consumer guarantee.

(a) For each dog transported into the county for sale, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state of origin and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered no more than 30 days and no less than 14 days before the dog's entry into the county. The official certificate of veterinary inspection certifying compliance with this section must accompany each dog transported into the county for sale.

(b) For each dog offered for sale within the county, the tests, vaccines, and anthelmintics required by this section must be administered by or under the direction of a veterinarian, licensed by the state and accredited by the United States Department of Agriculture, who issues the official certificate of veterinary inspection. The tests, vaccines, and anthelmintics must be administered before the dog is offered for sale in the county, unless the licensed, accredited veterinarian certifies on the official certificate of veterinary inspection that to inoculate or deworm the dog is not in the best medical interest of the dog, in which case the vaccine or anthelmintic may not be administered to that particular dog. Each dog must receive vaccines and anthelmintics against the following diseases and internal parasites:

- (1) Canine distemper;
- (2) Leptospirosis;
- (3) Bordetella (by intranasal inoculation or by an alternative method of administration if deemed necessary by the attending veterinarian and noted on the health certificate, which must be administered in this county once before sale);
- (4) Parainfluenza;
- (5) Hepatitis;
- (6) Canine parvo;
- (7) Rabies, provided the dog is over three months of age and the inoculation is administered by a licensed veterinarian;
- (8) Roundworms; and
- (9) Hookworms.

If the dog is under four months of age, the test, vaccines, and anthelmintics required by this section must be administered no more than 21 days before sale within the county. If the dog is four months of age or older, the tests, vaccines, and anthelmintics required by this section must be administered at or after three months of age, but no more than one year before sale within the county.

e) Each dog and cat subject to subsections (a) through (d) above must be accompanied by a current official certificate of veterinary inspection at all times while being offered for sale within the county. The examining veterinarian must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the examination. At the time of sale of the animal, one copy of the official certificate of veterinary inspection must be given to the buyer. The seller must retain one copy of the official certificate of veterinary inspection on record for at least one year after the date of the sale.

(f) The term "official certificate of veterinary inspection" means a legible certificate of veterinary inspection signed by the examining veterinarian licensed by the state of origin and accredited by the United States Department of Agriculture, that shows the age, sex, breed, color, and health record of the dog or cat, the printed or typed names and addresses of the person or business from whom the animal was obtained, the consignor or seller, the consignee or purchaser, and the examining veterinarian, and the veterinarian's license number. The official certificate of

veterinary inspection must list all vaccines and deworming medications administered to the dog or cat, including the manufacturer, vaccine, type, lot number, expiration date, and the dates of administration thereof, and must state that the examining veterinarian warrants that, to the best of his knowledge, the animal has no sign of contagious or infectious diseases and has no evidence of internal or external parasites, including coccidiosis and ear mites, but excluding fleas and ticks. The Department of Agriculture and Consumer Services shall supply the official intrastate certificate of veterinary inspection required by this section at cost.

(g) The examination of each dog and cat by a veterinarian must take place no more than 30 days before the sale within the county. The examination must include, but not be limited to, a fecal test to determine if the dog or cat is free of internal parasites, including hookworms, roundworms, tapeworms, and whipworms. If the examination warrants, the dog or cat must be treated with a specific anthelmintic. In the absence of a definitive parasitic diagnosis, each dog or cat must be given a broad spectrum anthelmintic. Each dog over six months of age must also be tested for heartworms. Each cat must also be tested for feline leukemia before being offered for sale in the county. All of these tests must be performed by or under the supervision of a licensed veterinarian, and the results of the tests must be listed on the official certificate of veterinary inspection.

(h) All dogs and cats offered for sale and copies of certificates held by the seller and veterinarian are subject to inspection by any agent of the department of agriculture and consumer services, any agent of the United States Department of Agriculture, any law enforcement officer, or any agent appointed under F.S., § 828.03.

(i) A person may not transport into the county for sale or offer for sale within the county any dog or cat that is less than eight weeks of age.

(j) If, within 14 days following the sale by a pet dealer of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies that, at the time of the sale, the animal was unfit for purchase due to illness or disease, the presence of symptoms of contagious or infectious disease, or the presence of internal or external parasites, excluding fleas and ticks; or if, within one year following the sale of an animal subject to this section, a licensed veterinarian of the consumer's choosing certifies such animal to be unfit for purchase due to a congenital or hereditary disorder which adversely affects the health of the animal; or if, within one year following the sale of an animal subject to this section, the breed, sex, or health of such animal is found to have been misrepresented to the consumer, the pet dealer shall afford the consumer the right to choose one of the following options:

(1) The right to return the animal and receive a refund of the purchase price, including the sales tax, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering;

(2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, and reimbursement for reasonable veterinary costs directly related to the veterinarian's examination and certification that the dog or cat is unfit for purchase pursuant to this section and directly related to necessary emergency services and treatment undertaken to relieve suffering; or

(3) The right to retain the animal and receive reimbursement for reasonable veterinary costs for necessary services and treatment related to the attempt to cure or curing of the dog or cat. Reimbursement for veterinary costs may not exceed the purchase price of the animal. The cost of veterinary services is reasonable if comparable to the cost of similar services rendered by other licensed veterinarians in proximity to the treating veterinarian and the services rendered are appropriate for the certification by the veterinarian.

(k) A consumer may sign a waiver relinquishing his right to return the dog or cat for congenital or hereditary disorders. In the case of such waiver, the consumer has 48 normal business hours, excluding weekends and holidays, in which to have the animal examined by a licensed veterinarian of the consumer's choosing. If the veterinarian certifies that, at the time of sale, the dog or cat was unfit for purchase due to a congenital or hereditary disorder, the pet dealer must afford the consumer the right to choose one of the following options.

(1) The right to return the animal and receive a refund of the purchase price, including sales tax, but excluding the veterinary cost related to the certification that the dog or cat is unfit; or

(2) The right to return the animal and receive an exchange dog or cat of the consumer's choice of equivalent value, but not a refund of the veterinary costs related to the certification that the dog or cat is unfit.

(l) A pet dealer may specifically state at the time of sale, in writing to the consumer, the presence of specific congenital or hereditary disorders, in which case the consumer has no right to any refund or exchange for those disorders.

(m) The refund or exchange required by subsection (e) or subsection (f) shall be made by the pet dealer not later than ten business days following receipt of a signed veterinary certification as required in subsection (e) or subsection (f). The consumer must notify the pet dealer within two business days after the veterinarian's determination that the animal is unfit. The written certification of unfitness must be presented to the pet dealer not later than three business days following receipt thereof by the consumer

(n) An animal may not be determined unfit for sale on account of an injury sustained or illness contracted after the consumer takes possession of the animal. A veterinary finding of intestinal or external parasites is not grounds for declaring a dog or cat unfit for sale unless the animal is clinically ill because of that condition.

(o) If a pet dealer wishes to contest a demand for veterinary expenses, refund, or exchange made by a consumer under this section, the dealer may require the consumer to produce the animal for examination by a licensed veterinarian designated by the dealer. Upon such examination, if the consumer and the dealer are unable to reach an agreement that constitutes one of the options set forth in subsection (j) or subsection (k) within ten business days following receipt of the animal for such examination, the consumer may initiate an action in court of competent jurisdiction to recover or obtain reimbursement or veterinary expenses, refund or exchange.

(p) This section does not in any way limit the rights or remedies that are otherwise available to a consumer under any other law

(q) Every pet dealer who sells an animal to a consumer must provide the consumer at the time of sale with a written notice, printed or typed, which reads as follows:

It is the consumer's right, pursuant to section 828.29, F.S., to receive a certificate of veterinary inspection with each dog or cat purchased from a pet dealer. Such certificate shall list all vaccines and deworming medications administered to the animal and shall state that the animal has been examined by a Florida-licensed veterinarian who certifies that, to be the best of the veterinarian's knowledge, the animal was found to have been healthy at the time of the veterinary examination. In the event that the consumer purchases the animal and finds it to have been unfit for purchase as provided in section 828.29, F.S., the consumer must notify the pet dealer within two business days of the veterinarian's determination that the animal was unfit. The consumer has the right to retain, return or exchange the animal and receive reimbursement for certain related veterinary services rendered to the animal, subject to the right of the dealer to have the animal examined by another veterinarian.

(r) For the purpose of subsections (j) through (p) and (t) only, the term "pet dealer" means any person, firm, partnership, corporation, or other association which, in the ordinary course of business, engages in the sale of more than two litters, or 20 dogs and cats, per year, whichever is greater, to the public. This definition includes breeders of animals who sell such animals to a consumer.

(s) The state attorney may bring an action to enjoin any violation of this section or F.S., § 828 12, or F.S., § 828 13, from being a pet dealer

(t) County-operated or city-operated animal control agencies and registered nonprofit humane organizations operating a shelter or adoption center are exempt from this section.

(u) A pet dealer may not knowingly misrepresent the breed, sex or health of a dog or cat offered for sale within the county

(v) Except as otherwise provided, a person who violates any provision of this section commits a misdemeanor of the first degree, punishable as provided in F.S., § 775.082 or F.S., § 775.083. (Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-60. Penalty.

(a) Unless otherwise specified, every violation of this article is declared a civil infraction punishable by a civil penalty not to exceed \$500.00. Each day or fraction thereof that the violation continues shall be considered as a separate offense.

(b) Except for a violation of sections 14-45 or 14-47, an officer may issue a written warning in lieu of a citation for any correctable violation of this chapter allowing the owner or harbinger a specified time period, not to exceed 30 days, to produce proof that the violation has been corrected. Upon failure to produce the required information within the specified time period, such warning shall be deemed a citation. If a penalty is assessed, such penalty shall be paid within an additional 15 days, or, if a mandatory appearance is required, the owner or harbinger shall appear in county court on the given time and date.

(c) Any person who willfully refuses to sign and accept a citation issued by a member of the county sheriff's office, any municipal law enforcement officer or animal services officer shall be guilty of a misdemeanor of the second degree, punishable as provided by F.S., §§ 775.082 and 775.083.

(d) The applicable civil penalty assessable if a person elects not to contest a citation issued for violating any aspect of this article shall be set forth by resolution of the board of county commissioners, and available for inspection at animal services.

(e) A person who fails to pay the civil penalty within the time allowed, or fails to appear in court to contest the citation, shall be deemed to have waived the right to contest the citation and, in such case, judgment may be entered against the person for an amount up to the maximum civil penalty

(f) The county may require mandatory court appearances for certain aggravated violations of this article resulting in the unprovoked biting, attack, or wounding of a domestic animal; violations resulting in the destruction or loss of personal property; second or subsequent violations of animal cruelty laws; or violations resulting in the issuance of a third or subsequent citation to a person. Persons required to appear in court do not have the option of paying the fine instead of appearing in court.

(g) If a person fails to pay the civil penalty, fails to appear in court to contest the citation, or fails to appear in court as required by subsection (e), the court may enter judgment as specified in subsection (d), or may issue an order to show cause, which order shall require such person to appear before the court to explain why action on the citation has not been taken. If any person who is issued such order fails to appear in response to the court's directive, that person may be held in contempt of court.

(h) Animal services shall impose and collect a surcharge of \$5.00 upon each civil penalty imposed for violation of this article. The proceeds from such surcharge shall be used to pay the costs of the 40-hour minimum standards training course required by the State of Florida for animal control officers.

(Ord No 2004-A13, § I, 7-13-04)

Sec. 14-61. Administrative procedure regarding citations.

(a) Animal services shall have the initial responsibility for collection of all fines, fees and costs associated with the issuance of the citation. Such fines, fees and costs shall be payable to animal services within 30 days of issuance.

(b) The recipient of a citation may appeal its issuance by written notification to the county clerk, who shall notify animal services of the appeal within five calendar days.

(c) Animal services shall file the citation with the county clerk within five calendar days of receipt of the notice of appeal.

(d) When a citation remains unpaid for a period of 30 days, animal services shall file the citation within five calendar days.

(e) The county clerk shall, upon filing of a citation, provide for its proper administration as established by law

(f) Once filed with the county clerk for nonpayment or appeal, the clerk shall assume all responsibility for the collection of fines and fees associated with the issuance of the citation and any court proceedings. There shall be imposed and collected a surcharge of \$5.00 upon each civil penalty for violation of this article. When a fine is collected, the clerk shall disperse the \$5.00 surcharge to the board of county commissioners for the purpose of training animal services officers, and shall disperse such other amounts as provided by law
(Ord. No. 2004-A13, § I, 7-13-04)

Sec. 14-62. Citations issued in addition to or in lieu of impounding.

In addition to or in lieu of impounding an animal found in violation of this article, any animal services officer, any member of the county sheriff's office, and any municipal law enforcement officer may issue to the known owner/caretaker of such animal a citation and/or notice to appear as defined in F.S., § 943 10

(Ord. No 2004-A13, § I, 7-13-04)

Sec. 14-63. Applicability.

This article shall constitute a uniform ordinance applicable in all unincorporated areas of the county. Additionally, this article shall apply to all incorporated areas of the county where there is no existing conflict of law pursuant to the provisions of the Florida Constitution.

(Ord. No 2004-A13, § I, 7-13-04)

Sec. 14-64. Duty to enforce.

It is hereby declared to be the duty of animal services, its officers and agents, the county sheriff's office, its deputies and agents, as well as the animal services division and police departments in municipalities having no animal control ordinances, to strictly enforce the provisions of this article.

(Ord. No. 2004-A13, § I, 7-13-04)

April 8, 2008

To Whom It May Concern:

On March 17, 2008, I examined a 4 month old, female, Welsh terrier who belongs to Gail Kania. The dog was presented for coughing and wheezing and had obvious green nasal discharge coming from both nostrils. During the auscultation both right and left lung fields were congested. There also was an open incision from the spay that was performed a few days before and it looked infected. At the time of the exam we suspected that the dog had either a complicated form of kennel cough or canine influenza.

In my professional opinion this dog should have been kept hospitalized in an isolation facility and treated for her illness. If you have any further questions please call our office.

Sincerely,

Marlene C. Pinera, D.V.M

Doctor's Instructions

Bordetella Vacc.

Kennel Cough Vaccine is required for all patients that board with us and recommended for any patient that is hospitalized. The pet should be vaccinated 2 weeks before entering the hospital for maximum protection.

Kennel Cough is a self-limiting, highly contagious virus that is transmitted through the air. Although the vaccine is very effective, there are some strains of the virus that it does not

To whom it may concern)

11/26/07

I was given a yellow lab about 3 months ago by a woman named Diane White. The dog was treated, altered, and thrown out of a pick-up truck in Marion County. I was told that he belonged to the Humane Society and given Margaret's number (228-3938) and he would handle his case. I mean could get a hold of her and the few times I did she knew nothing about the dog. (So she said). Everyone I tried to get in local vet people, they knew I had my puppy 4 times inside his mouth and he told her that the dog bit my dog 2x times and I talked to Karen # 352-637-1675, and Karen told also tried to bite me in the kitchen. Karen told me to call animal control and have him removed but not tell them he was a Humane Soc. Dog. I was told by her that they could get in a lot of trouble and myself. I called anyway and told the office about what happened. The dog is not me and in quarantine. If you have any questions ->

Results: picked up female red chow mix with county tag 07-13955 and rv from humanitarians and a red tag with "Nicki" Called owner Scott Blaze who said they gave dog to Humane Society of Inverness. I spoke to Margaret Myers of Humane society. She looked at dog and said it's not hers. She said she's seen it loose and has tried to catch it but it's not hers. Sandy Watson called humanitarians and the only information they have is for Scott Blaze 746-9940, dog vaccinated 5-8-07, 6-5-07 and rv 6-26-07.

April 8, 2008

To Whom It May Concern:

On March 17, 2008, I examined a 4 month old, female, Welsh terrier who belongs to Gail Kania. The dog was presented for coughing and wheezing and had obvious green nasal discharge coming from both nostrils. During the auscultation both right and left lung fields were congested. There also was an open incision from the spay that was performed a few days before and it looked infected. At the time of the exam we suspected that the dog had either a complicated form of kennel cough or canine influenza.

In my professional opinion this dog should have been kept hospitalized in an isolation facility and treated for her illness. If you have any further questions please call our office.

Sincerely,

Marlene C. Pinera, D.V.M

Doctor's Instructions

Bordetella Vacc.

Kennel Cough Vaccine is required for all patients that board with us and recommended for any patient that is hospitalized. The pet should be vaccinated 2 weeks before entering the hospital for maximum protection.

Kennel Cough is a self-limiting, highly contagious virus that is transmitted through the air. Although the vaccine is very effective, there are some strains of the virus that it does not

SIGNED [Signature] 9711

To whom it may concern

11/26/07

I was given a yellow lab about 3 months ago by a woman named Diane White. The dog was stationed, and thrown out of a pick up truck in Marion County. I was told that he belonged to the Humane Society and given Margaret's number (228-3938) and he would handle his case. I mean could get a hold of her and the few times I did she knew nothing about the dog. (So she said). Everyone I tried to get in local with people, they knew nothing about the dog. It was like some dog secret. I talked to Karen # 352-637-1675, and told her that the dog bit my dog 2x times and had my puppy 4 times inside his mouth and he also tried to bite me in the kitchen. Karen told me to call animal control and have him removed. Just not tell them he was a Humane Soc. Dog. I was told by her, that they could get in a lot of trouble and myself. I called anyway and told the office about what happened. The dog is not me and in quarantine. If you have any questions ->

Results: picked up female red chow mix with county tag 07-13955 and rv from humanitarians and a red tag with "Nicki" Called owner Scott Blaze who said they gave dog to Humane Society of Inverness. I spoke to Margaret Myers of Humane society. She looked at dog and said it's not hers. She said she's seen it loose and has tried to catch it but it's not hers.
Sandy Watson called humanitarians and the only information they have is for Scott Blaze 746-9940. dog vaccinated 5-8-07, 6-5-07 and rv 6-26-07.

Regarding Citation #4295

Please cancel the above citation which was written on April 20, 2004.

Ms. Meier has been reissued a new citation for lesser charges as she did have proof of rabies vaccination for the animals in question.

Thank You.

Sincerely,

Xan Rawls, Director
Animal Control Services

DVM DR. [unclear] License 627 Rabies Vaccine Information: MFG BY FTD Ser No 773129A

On February 12, 2009, I, Lora Peckham received a phone call from Dr Hall, Suncoast Veterinary Clinic in Homosassa. Dr Hall stated she would like to speak to someone regarding Margaret Meier Nolan, Human Society of Inverness. Dr Hall said she had a client who brought in a very sick puppy for treatment and she felt a need to make us aware of the circumstances. The details she conveyed are as follows:

A couple brought in a sick puppy and asked that she treat it. Dr Hall stated that her first concern was that the puppy had been adopted to a couple that had both been unemployed for the past 5 months and have no income and no means to properly care for any animal, let alone a sick one. They were told the puppy was 8 weeks old when they adopted it from the Humane Society of Inverness at the Howards Flea Market on February 1, 2009. The adoption cost them \$175.

Dr Hall stated that in her professional opinion, the puppy is only 5-6 weeks old today and would have been 4-5 weeks old when it was adopted to the couple. She also believes that the majority of the problems the puppy is having were existing at the time of the adoption. The couple provided the adoption paperwork the Humane Society of Inverness gave them when they adopted the puppy and the paperwork showed that the Humane Society acquired the puppy on January 28, it was spayed on January 29 and was tested for parvo at that time. It was adopted to the couple on February 1.

The couple said they called Margaret Meier after the puppy got very sick and told them about the problems they were having and she said she couldn't help them, they should take the puppy to a vet. She did, at some point, offer to take the puppy back. They then brought it to Dr Hall's office.

Dr Hall diagnosed the puppy with Coccidia and determined that both front legs have a severe deformity (bowing of the front legs) which could be a result of a congenital deformity or a nutritional problem. Also, the spay incision was not properly stitched after surgery and had opened up and was not healing properly. She was able to convince couple to sign the dog over to her so she could try to save it, since they have no money to treat it.

Dr Hall stated that she was calling to find out if there is anything Animal Services can do to help her file a complaint against Margaret Meier to shut down her organizations. She said they receive complaints about her constantly regarding the poor condition of the animals and the way they are kept. They also regularly see animals that came from the Humane Society of Inverness that are very sick. She feels someone should do something to shut her down and she is willing to help in any way she can. She has pictures of the puppy and is willing to write statements and testify if needed.

After speaking with our Director, we are uncertain what we can do to assist Dr Hall since a vet had to see the puppy to perform the spay and that vet could easily say in his professional opinion the puppy was 8 weeks old when spayed and was healthy at that time. We are also not sure what organization such a complaint would be filed with. A

statement will, however, be added to Margaret Meier's file to document my conversation with Dr Hall.

February 26, 2007

Ms. Margaret Meier-Nolan
Humane Society of Inverness
2109 S. Mohican Trail
Inverness, FL 34450

Dear Ms. Meier-Nolan:

Thank you for inviting us to visit the Humane Society of Inverness at 2109 S. Mohican Trail in Inverness on February 22, 2007, to resolve concerns regarding allegations of poor animal conditions at your shelter. As we discussed, the conditions we saw on site that day did not amount to animal neglect or abuse. The animals appeared to have adequate food, water and shelter, and there was a feed room with an ample supply of clean food for the future. I understand that the dogs you had on site with mange were recent cruelty cases you had taken in from the Levy County Animal Control agency and that you were working with your vet at Dunnellon Animal Hospital to treat these animals. While one pen contained a significant amount of animal waste because it had not been cleaned all day, we understand that you only had six hours notice before our arrival and you stated that you would have the pen cleaned shortly. As promised, I am providing this letter to confirm that we did not see conditions at your facility on February 22, 2007 that would support an allegation or complaint of animal neglect or abuse. Accordingly, I am forwarding a copy of this letter to the Citrus County Animal Services Division for inclusion in your file.

While the conditions of your facility were acceptable with respect to the shelter and care of the animals, we did note some issues concerning County code requirements for zoning and building use, as well as structural and fire safety. We noted during the visit that you have approximately three employees and a number of volunteers working on site. In addition, a customer looking to obtain an animal from your facility pulled up while we were there. Therefore, an issue concerning utilization of a residential property for commercial use exists. If allowed to operate this type of business in your neighborhood, you will most likely have to comply with commercial building standards. As discussed, the County will research the property designation and determine if your use is compatible with the zoning designation.

Ms. Margaret Meier-Nolan
February 26, 2007
Page Two

Most certainly, the regular use of extension cords in the main building and use of a mobile home that was completely flooded during the 2004 tropical storms is of particular concern when the structures are used by the general public in a commercial context. While I understand that you live in the house, your employees, volunteers and customers go there for business dealings with the Inverness Humane Society. If the building and location are approved for commercial use, you will need to assure compliance with the Citrus County Land Development Code and applicable fire and life safety codes for commercial buildings. Officials from the Code Enforcement Section and the Fire Prevention Section will be in contact with you regarding these matters.

In the meantime, if you have any further questions, please feel free to contact me.

Respectfully,

Charles Polisen
Public Safety Director

Re: Humane Society of Inverness

Date: June 9, 2006

In conjunction with an ongoing investigation regarding the Humane Society of Inverness, I was recruited by the office of Animal Control Services to assist with a fact finding mission.

As a request by Xan Rawls, I was to make a donation to the Humane Society Of Inverness, at the local flea market on Saturday June 8, 2006, and retrieve any information regarding their organization.

Accompanied by Officers Barbara Geer #24, and Susan Schrader #27, at approximately 11:00 a.m. we arrived at Howards Flea Market in Crystal River, Fla. Officer Schrader positioned herself in an area where photos could be taken, and Officer Geer positioned herself at the other end of the aisle, where she as well could observe.

I then approached the Humane Society's display area. In a ground level x-pen were 3 very thin puppies, in a wooden and wire playpen to the back were two other puppies. I approached an older woman standing at a donation jar, she had another dog on a leash. I asked her about their organization, and she proceeded tell me where they were located, and that they were a non-profit organization.

At this point, I held up a five dollar bill and said I would like to donate it to their organization, but asked if I could please have a receipt so that I could declare it off my taxes. The woman said she couldn't write me a receipt because she didn't have a pen or paper. I then pulled out a small yellow business card I had in my pocket from one of the other booths and asked her if she could write on the back of it. She then said I would have to wait because her hands were full holding the dog and the other gentlemen working with her was busy giving shots on dogs and cats at a table behind her. I waited and when the gentlemen was free I asked him if we could borrow his pen, and the woman jumped in and said I wanted a receipt, and he would have to write it. He agreed and as he was writing on the back of the yellow card I had supplied them I placed the five dollar bill in their donation jar.

At this point I thanked them for their time and walked away from the area. I presented the receipt to Officers Geer, and Schrader, and informed them of the information I had

gathered. I proceeded on my way and away from the officers who were out of sight at the other end of the aisle. The officers then proceeded to the display area and continued down the other aisle.

Any additional information required, please feel free to contact me at any time at 352-489-6850

Officer: SCHRADER, SUSAN	

Results: Picked up 2 kittens from John Nolan, 1 black male, domestic short hair and one brown tiger female, approx 6 weeks old.

Officer #27 and officer #24 Went to the home of Margret Meier to examine her animals and the living conditions of these animals. We took pictures of our findings. One kennel didn't have proper shelter for the dogs. We advised Ms. Meier of the County Ordinance for shelter. The conditions were not up to the standard that we like, but she said she is trying to improve daily by installing concrete floors, housing and keeping better records on all the animals. We explained that as a representative of the Humane Society she is held to a higher standard than most. She was told that we would be back to check periodically on care and condition of the animals. She was given a Warning citation (#1219) for unlicensed animal times 4.

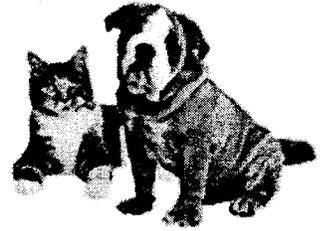

We went across the street to the home of John Nolan, who is the husband of Ms Meier's. As we stepped onto the property to go through the entry gate we noticed a kennel of Irish Wolfhound pups who appeared to be approximately 6 weeks old. There was a strong offensive odor coming from the kennel. The puppies

had no water and the pen didn't have adequate shelter for all 10 animals. The dirt floor was covered with feces and urine. When we asked Mr. Nolan about this situation he became irritated with our questions, stating that he works nights and hasn't had a chance to feed the animals since 2 A.M. He was told that this is failure to provide humane treatment and that the wolves are required to be registered with the county and have to meet proper requirements for housing. Mr. Nolan was very angry with us for writing citations. He refused to sign the citations and we had no choice but to call a deputy sheriff for assistance. After the deputy explained the ramifications he did sign the citations and we left the property. Citation #5982, Failure to provide humane treatment issued. Warning Citation #1218 Unvaccinated and unlicensed animals x10--- Warning Citation #1220 Hybrid wolves x 3 issued

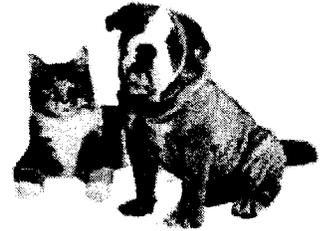

6/26/06 apl. Margaret Meier came in to get county license on 4 animals - she had 3 certificates of rabies from HOF and 1 from another vet. She said they were all given 3 year rabies in 2005 and that she just needed tags on them. The certificates from HOF did not indicate a 3 year rabies, so I called HOF. They inform their clients that it is up to them to prove to us that the dog was current when it received the rabies vaccination. I told Ms. Meier to bring in the previous years rabies certificates on the dogs and she could obtain a county license. The fourth certificate has a hand written notation next to the rabies vaccine indicating it was a 3 yr., however, it also indicated the dog was only 3 1/2 months old. I made copies of all 4 certificates and placed them in the file.

CASE REPORT

June 18, 2002

Activity 02-2038.4

Complainant: PBCACC

Defendant: Margret Meier
18097 W. Sycamore
Loxahatchee
792-4316

This possible cruelty complaint involved a sick dog that was "adopted" out by defendant Margret Meier, of 18097 W. Sycamore. Dr. Jeyapaul euthanized the dog the following day. Original complainant advised that she responded to Meiers house after viewing a picture of the Maltese "Honey" on the website Petfinders.com. She arrived on a Friday, and Meier allowed her to take the dog right away as long as she promised her that she would take the dog to its scheduled appointment with Jeyapaul on Monday. Complainant stated that the dog would not eat or drink all day Friday, so when she called Meier on Saturday morning arrangements were made to take the dog immediately to Jeyapaul. Complainant attempted to reach Meier during the day Saturday and again on Sunday, using email as the main source of contact attempts. She finally called Jeyapaul on Sunday and was advised that Meier had authorized the dog to be euthanized that day. Complainant stated that she incurred no bills from the vet, but that she had given Meier a \$175.00 check for the adoption fee. The check was cashed three weeks later, and Meier claimed to the complainant that her daughter mistakenly had done so. The complainant waited several weeks for a replacement check from Meier, and finally received one after threats of a lawsuit. However, the check received from Meier was returned due to insufficient funds.

Complainant stated that she and her husband had fallen in love with Honey during the one night they had her, and that they would have spent money on the dog to bring her back to health. She stated that this incident occurred in March and that she was hoping that Meier would do the right thing over the incident. Because she had not, the complainant felt that she must call ACC to advise of the conditions she had witnessed. She stated that the house was a complete mess and reeked of urine and feces. Many dogs were present in crates and cages. The dog Honey was brought to her from a back room, so she could not advise the conditions of her cage. Complainant advised that she was shocked at the number of dogs and the filthy, unsanitary conditions under which they were forced to live.

Upon my and Capt. DiPaces arrival we made contact with Meier who allowed us into her house to view her dogs. The house REEKED of urine and feces. Meier showed us a cleaner called Wintergreen 256 that she stated she uses daily. The dogs are allowed out of their crates three times a day and Meier advised that they are normally given a few hours of free time. Many of the crates housing the 22 adult dogs contained feces and urine, although Meier stated that they had all been out earlier in the morning. The areas immediately surrounding the crates had what appeared to be old urine, feces, and some food particles underneath them. Meier stated that she moves the crates and mops under

them every other day. All of the dogs did have water provided. The living room area housed nine dogs in crates, the back bedroom housed eight dogs in crates, and Meiers bedroom house her five Bouviers in crates. Meier provided PBC tags for her own dogs but could produce no tags for any of her rescue dogs. She was reminded that on July 25, 2001 she was issued a violation notice for this offense, and that copies of sections 22, 23, and 25 were left for her as well. Tag requirement for all animals sold/adopted in PBC was explained to Meier once again.

Citation # 21327 was issued to Meier first offense section 24, for failing to provide proper manner of keeping for the animals under her care. She was advised that her house was filthy and that she had too many dogs for one person to physically be able to handle. Meier advised she was moving and her new rented address of 16356 Pimlico Court was located. She stated that most of the dogs are going with a friend to Okeechobee County and that she will only keep her own dogs and five additional rescue dogs. Meier was adamantly advised to not take in any more rescues and that she needs to place the ones she has before she brings in any more in.

Refer to Activity 02-2038.5 for additional citation. No recheck scheduled at this time.

CASE REPORT

January 31, 2002

Activity 02-2038

Complainant: Phyllis Goldstein
5545 Haverhill Road
Lake Worth 33463
964-8270 (W)

Defendant: Margret Meier
18097 W. Sycamore
Loxahatchee 33470
792-4316

Complainant Phyllis Goldstein of 5545 Haverhill Road in Lake Worth advised that she sold five Bouvier puppies to defendant Margret Meier of 18097 W. Sycamore in Loxahatchee in December. Meier originally purchased two pups and advised Goldstein that one of the pups was being shipped to California and the other one was going to the Islands. Meier returned a week later and obtained three more puppies. She didn't advise Goldstein why she was purchasing these puppies. Goldstein stated that Meier paid \$900.00 by check for the first two puppies but that the check didn't clear the bank. The three additional pups were also purchased by check in the amount of \$1200.00. This second check went through the bank but the original check has yet to clear. Goldstein has attempted to speak to Meier but has received no satisfaction. Goldstein was advised that her money concerns with Meier are a civil matter and should be taken up with the court system. However, ACC was concerned on Meiers' "rescue" status as a non-profit organization if she is purchasing puppies to resell as a broker.

Upon my arrival I could make no contact with Meier. I did observe three chain link pens on the East side of the property along with several wire type pens in the area immediately surrounding the back sliding doors. Two to three large Bouviers were observed inside the house; no other dogs were seen.

Notice was left for Meier. Recheck has been scheduled pending a return phone call.

On June 8, 2002, I responded to a call at the WalMart at Southern road 441, regarding dogs being sold in bad condition.

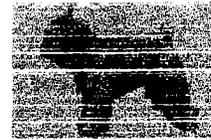

Upon my arrival, I made contact with the head of All Breed Rescue, who advised Sgt. Yeates had checked out their non-profit organization. She also advised they had permission from WalMart to be on the property. I observed all the dogs which appeared to be in good condition, all dogs had fresh water and proper crates. No resident set.

Bouvier and Friends of Florida Rescue

Mark / Linda Hummel

H 863-9366
W. 682-2768

To the new family of the adopted dog

Important Information

All dogs available through Bouvier and Friends of Florida have been examined by a licensed Veterinarian (DVM) and are sound medical health.

You have been provided with a current health certificate of previous shots, deworming and medical/Surgical History.

Young Puppies are constantly developing. So are their immune systems. Early on, their systems aren't ready to fight off disease. Lucky for them, their mother has passed on disease-fighting antibodies. But a lot of our puppies come to our rescue without having the mum available, so sometimes this puppy did not get nursed from the mum. So please don't allow your puppies to play in Public Areas, (parks, beaches or places where other dogs are present until the third puppy shot is administered.

Parasites

Deworming for internal parasites is common and we start this with our puppies in the age of 4 to 6 weeks. However during the first year a puppy needs frequent deworming after the first year annual rechecks may include preventive deworming.

Adult dogs.

Once protection has been established through our Vet, booster vaccinations are recommended maintaining protection against diseases. For most vaccines, these are annual. Your Veterinarian will make the appropriate recommendation for your dog. Vaccinations are certainly important reasons to visit your Veterinarian at least each year, but they aren't the only reasons. Routine physical checkups are essential in evaluating the health and condition of your dog. And that is key for the long term health and wellbeing of your very dear companion.

Even with an effective vaccination program, your dog won't be protected against every infectious disease. However common sense strategies can help. Keep your dog from coming in contact with animals that are known to be sick. And be sure to let your vet know of any significant changes in your dog's habits, health or condition. Remember your dog is counting on you!!!

Remember that Florida is an area where heartworm infection is likely. Ask your veterinarian for preventive medication.

Important

Please be advised that if you have any questions or complaints you have to contact us and not Petsmarkt. However Petsmarkt donated the space for approved Rescue organizations but is not responsible for the adoptions. You have to contact us

We wish you a happy and long life with your new dogs. Thank you for saving a life

----- Medical Notes -----

05/28/2001 10:41:27

Examination Notes.

S: Pet presents for not feeling well, vomiting up all food tried. Pet came from Margaret (Petsmart) yesterday. Since yesterday, pet has not held down any food at all. Pet is extremely lethargic. Pet does cough/hack also. Pet was recently neutered, stitches still present. Owner was given some sort of white pill and told these were for the pet's eyes. Pet has history of kennel cough and was treated for 3 weeks with Doxycycline, then was neutered and started on Metronidazole for only a few days before showing these signs.

O: Temp=104.3 (HIGH) mm=pink, lethargic, vomiting up frothy white flem, eyes are red, especially left, pet has upper canines coming in, adult teeth, h/l-increased resp sounds bilaterally, crackles present, pet gagging and coughing frequently, trying to vomit, vent-general erythema to nictitans mem

A: RO kennel cough, distemper, asp pneumonia

P: Bloodwork, poss rads, IV cath and fluids, low rate to assure no over hydration, 4 mg Dex SP IV to offset poss allergic reaction to meds pet may have received, 50 mg vefazolin IV, 10 mg Lasix IV, 0.25 ml Reglan IM, 25 mg Aminophylline IV. All these meds were given approx 11 am except Aminophylline which was closer to 2:00 pm. Pet upon hospitalization shows abdominal breathing, green discharge to nostrils, respiratory distress. As time goes on signs are getting more and more pronounced, mucoid discharge from nose, heavy fluid sound to respiration, coughing fits are having poss seizure like appearance, ie chewing gum seizures, eyes are hypersensitive. O assures no poss of toxin exposure.

Discussed w/ O possibility of distemper and the fact that if it is, that definitely gives a poorer prognosis than anything else we had discussed. Informed O that there is a test available through Antech but that the lab is closed, may send out tomorrow depending on how the pet does overnight. Conjunctival scrape was done and there did appear to be inclusion bodies present, I am not a histopathologist however.

1 Prognosis: Called pharmacy (Z2971) code on pills is Metronidazole 250mg. Px is guarded, regardless of dx, pet is in rough shape.

Bouvier puppies

CASE REPORT

January 31, 2002

Activity 02-2038

Complainant: Phyllis Goldstein
5545 Haverhill Road
Lake Worth 33463
964-8270 (W)

Defendant: Margret Meier
18097 W. Sycamore
Loxahatchee 33470
792-4316

Complainant Phyllis Goldstein of 5545 Haverhill Road in Lake Worth advised that she sold five Bouvier puppies to defendant Margret Meier of 18097 W. Sycamore in Loxahatchee in December. Meier originally purchased two pups and advised Goldstein that one of the pups was being shipped to California and the other one was going to the Islands. Meier returned a week later and obtained three more puppies. She didn't advise Goldstein why she was purchasing these puppies. Goldstein stated that Meier paid \$900.00 by check for the first two puppies but that the check didn't clear the bank. The three additional pups were also purchased by check in the amount of \$1200.00. This second check went through the bank but the original check has yet to clear. Goldstein has attempted to speak to Meier but has received no satisfaction. Goldstein was advised that her money concerns with Meier are a civil matter and should be taken up with the court system. However, ACC was concerned on Meiers' "rescue" status as a non-profit organization if she is purchasing puppies to resell as a broker.

Upon my arrival I could make no contact with Meier. I did observe three chain link pens on the East side of the property along with several wire type pens in the area immediately surrounding the back sliding doors. Two to three large Bouviers were observed inside the house; no other dogs were seen.

Notice was left for Meier. Recheck has been scheduled pending a return phone call.

Our Letter Dated:
January 1997
Addendum Applies:
No

Dear Applicant:

~~877-829-5500~~
This modifies our letter of the above date in which we stated that you would be treated as an organization that is not a private foundation until the expiration of your advance ruling period.

Your exempt status under section 501(a) of the Internal Revenue Code as an organization described in section 501(c)(3) is still in effect. Based on the information you submitted, we have determined that you are not a private foundation within the meaning of section 509(a) of the Code because you are an organization of the type described in section 509(a)(1) and 170(b)(1)(A)(vi).

Grantors and contributors may rely on this determination unless the Internal Revenue Service publishes notice to the contrary. However, if you lose your section 509(a)(1) status, a grantor or contributor may not rely on this determination if he or she was in part responsible for, or was aware of, the act or failure to act, or the substantial or material change on the part of the organization that resulted in your loss of such status, or if he or she acquired knowledge that the Internal Revenue Service had given notice that you would no longer be classified as a section 509(a)(1) organization.

You are required to make your annual information return, Form 990 or Form 990-EZ, available for public inspection for three years after the later of the due date of the return or the date the return is filed. You are also required to make available for public inspection your exemption application, any supporting documents, and your exemption letter. Copies of these documents are also required to be provided to any individual upon written or in person request without charge other than reasonable fees for copying and postage. You may fulfill this requirement by placing these documents on the Internet. Penalties may be imposed for failure to comply with these requirements. Additional information is available in Publication 557, Tax-Exempt Status for Your Organization, or you may call our toll free number shown above.

If we have indicated in the heading of this letter that an addendum applies, the addendum enclosed is an integral part of this letter.

Letter 1050 (DO/CG)

CASE REPORT

March 7, 2003

Activity 03-4128

Complainant: PBCACC

Defendant: Margret Meier
16356 Pimlico Dr
Loxahatchee
792-4316

This call concerned a general manner of keeping and number of animals compliance check at 16356 Pimlico Drive in Loxahatchee. Defendant Margret Meier, with Bouvier & Friends rescue, was telephoned by ACC regarding a Bouvier animal ID #1024283. This check was scheduled to verify that Meier was within the limit of the number of animals allowed for her size property, and that all of the animals were properly taken care of. Meier operates a rescue group and receives numerous dogs that are placed either into homes or with other rescue groups. She advised me on March 5, 2003 that she had six of her own dogs(Bouviere) and two rescue Shih-tzus.

Upon my arrival today I observed Meiers Bouviere confined in crates inside the house, along with six rescues kept in outside chain link runs. Meier advised that one of the dogs, a Shepherd type named "Izzie", belonged to Carole Chapius with Pet Haven rescue. Chapius, who was going away for the weekend and left the dog with Meier until she returns, verified this. A Shepherd/Rottweiler named "Paco" has an old injury to his right front foot and will most likely be a permanent dog at Meiers, as she does not believe the dog will ever find a home to be adopted into. A very elderly Chow was present, Meier stated that dog has not been well lately and will most likely be euthanized soon. A Pointer named "Carlos" is still presently waiting for a home. Also observed in a chain link run (in the front yard) were two Shih-tzus. Meier stated that another rescue group is coming for the dogs today, which is the reason they were in the front yard as opposed to being in the back. She will be gone to dog training, but the rescue will still be able to come in and pick up the dogs.

I asked Meier why she told me that she only had eight dogs, when I found there to be 12. She felt that the Shih-tzus shouldn't be counted as they were leaving today, and wasn't counting Chapius' dog, the old Chow wasn't counted as he will be euthanized soon, and the now permanent dog "Paco" she still considers a rescue and felt shouldn't be included in the total count. I advised Meier once again that every single dog on the property, no matter if it will be there for one year or for one hour, is included in the total count, regardless of the circumstances. Meier was given this information as well on my previous visit. Meier also advised that because she had 1.87 acres she was allowed to have up to 20 adult dogs.

All of the dogs appeared well cared for, and all had shelter and water present. Meier will pick up the Bouvier here at ACC to be treated for heartworms and then adopted into a home.

Sgt. A. Yusko

Once back at ACC I verified through the PBC Property Appraisers Office website that the total property size for 16356 Pimlico Drive is 1.28 acres, not the 1.87 that Meier had advised. Meier was advised of this information, and given a copy of the printout from the Property Appraisers Office at the time she came into ACC to rescue the Bouvier. She was advised that based on this new information, she is only permitted to have 10 dogs on her property. Meier advised that she would check into this, as the reason she moved to this site was the fact that she believed she could have up to 20 dogs. She is aware that ACC will not allow her to adopt and/or rescue any more dogs until she reduces her numbers and is in compliance.

10-09-02

Anita,

I received a call from Patty Hindle in Administration. She had received a call from "Isabel" (793-6784) who lives in Loxahatchee. She is 78 years old and her husband is not well. The next door neighbor has about 20 dogs in cages in her yard. I asked if they were under shelter, she replied in the negative. I asked her if it rained did the dogs get wet and she answered in the positive. The cages are not under a tree, so there is no shade. Isabel stated that the dogs bark from approximately 2-5am. The neighbor has constructed a wooden fence, approximately 6' high. Isabel stated that the neighbor rents this house. She states they live on 1 1/4 acre sites that are single family units. She stated that they are zoned agricultural/residential. She feels the neighbor is running a kennel. Isabel stated that she had contacted ACC previously and we brought forms to her to complete to go to court. She stated she cannot go to court as she is too nervous and does not want to get in trouble.

I spoke to Gina about this. The address is 16356 East Pimlico Drive, Loxahatchee. Kathy looked this up in our system. Evidently this residence is one of our defendants and has been cited before.

I called Isabel and explained that you would be contacting her per Gina's instructions.

Thanks,

Donna

t/administration/isabel report 10-09

10/11 @ 4:30
- Spoke with Isabel explained
ACC 9/8/02 and that we were
in compliance w/ 24
- Dogs bark incessantly
- affidavits have been sent
- Explained in detail nuisance
procedure and court
- camp is on W side - hears
dogs with house bark and these
dogs (at least 10) are let loose
to run in fenced yard
- diff never heard

CASE REPORT

September 19, 2002

Activity 02-2038.6

Complainant: PBCACC

Defendant: Margret Meier
16356 E. Pimlico
Loxahatchee

This possible cruelty/number of animals/agency compliance recheck concerned dogs kept by Margret Meier of 16356 East Pimlico Drive in Loxahatchee. Meier operates the non-profit "Bouvier & Friends, Inc." rescue organization. She recently moved from Sycamore Drive in Loxahatchee and did reduce the number of dogs on the property prior to moving.

Upon my arrival today I found Meier out in the privacy-fenced backyard cleaning dog pens. She allowed me into the yard and into her home to view her dogs. A total of 25 dogs were observed on the property. Most of the dogs are kept in large chain link fenced sections of the yard. Shelter, airline crates, and water buckets with fresh water(well) were present for all of the dogs. At this time some of the dogs were observed in wire crates while Meier cleaned their pens. She advised that usually she allows the dogs to run loose in the large backyard but that she occasionally crates them until she is finished cleaning. In the living room of the house I observed six Bouviers in wire crates. The dogs had water available and bedding was present. The front part of the house had black ceramic tile as flooring. The flooring in the bedrooms consisted of carpeting. One of the back bedrooms contained two rescue Bouviers in wire crates. The crates had bedding and water present. The carpeting in this room reeked of urine; Meier advised that she has no trays for the crates so if the dogs urinate it goes right through to the carpeting. She also stated that the male dog lifts his leg while inside the crate. Meier stated that she plans on removing the carpeting from this room. Another spare bedroom contained three rescue dogs from another county. These dogs also had bedding and water present. The crates in this room had trays available so the odor of urine was not nearly as evident as in the first carpeted room. All of the dogs appeared to be in good health. An older Chow mix kept outside appeared slightly uncomfortable but Meier claimed that the dog was much happier since she moved him out.

The size of the property is 1.87 acres, so Meier is allowed up to 20 adult dogs. Meier stated that five of the dogs are leaving on September 22, 2002 and that she will be bringing no more dogs into her home until these five are gone. I advised Meier that she has told me in the past that she will not be bringing more dogs in, but that she always has more when I arrive on a recheck. I also reminded her that she told both Captain DiPace and myself that she would only keep 10 dogs on this new property. She did farm out the extra dogs that she had prior to moving so that she would be in compliance and move in with only the 10 dogs. Meier stated that she sometimes has rescue dogs that stay for one or two nights and claimed that she wasn't aware that these dogs would count in the final number of dogs on the property. I advised her that if the dogs stay for one day that they will be included in the total. I further advised her that the house itself already smelled of dog/urine and that she needed to provide a more thorough cleaning schedule in addition to removing any carpeting that the dogs may have access to. Meier advised that her work schedule has been extremely busy and that she has barely had time to do any adoptions because of this. She did provide proof of current PBC tags on her own six Bouviers. She was reminded that all dogs and puppies that are adopted out to someone residing in Palm Beach County must be provided with a PBC rabies tag.

Meier was verbally warned to reduce the number of dogs on her property. She is now aware that all dogs on the property count in the total number of dogs allowed, regardless of how long the dog has been or will be there. Meier was advised that until she is in compliance with the number of animals allowed she would not be permitted to become a Placement Partner member and so will not be contacted or allowed to rescue any animals from PBC Animal Care & Control. As such she will also not be involved with the Microchip program afforded Placement Partner members, nor with any other included benefits to being a Placement Partner member. A follow up call is scheduled to conduct a general manner of keeping/agency compliance check.

Sgt. A. Yusko

On October 24, 2001 while picking up a dog (938447) from the Pride & Groom grooming shop at 10349 Southern Boulevard I was shown a Bouvier that had been brought in to be shaved down/groomed. Groomer Vicki Abelson advised that the dog was completely matted and reeked of urine. She was told by owner/rescuer Margret Meier, of 18097 W. Sycamore Drive in Loxahatchee, 798-6807, that the dog was picked up as a rescue from a veterinarian at 2:00 this morning. She stated that the dog was in that condition when she picked her up. While I was there Meier did arrive for the dog. She advised me that she got the dog about 4 days ago and that the dog has been kept loose in one of her back rooms with her other Bouviers. Meier advised that she has been calling around searching for a groomer that does this breed and that she happened to locate Pride & Groom only after coming with a friend to a nearby vet. She stated that she has been busy with her other rescue dogs as well as her own dogs and that she has had no time to bathe this Bouvier herself. Abelson believes that this dog has possibly been kept crated for quite some time and was only now being groomed as a potential adopter was coming for the dog. She advised that the dog was completely matted, particularly in the back end, and that this fur was soaked with urine. Meier did advise Abelson that she has two more Bouviers that she wishes to bring in next week for grooming.

Defendant : Margret Meier
18097 W. Sycamore Ln.
Loxahatchee, 33470
792-43116 318-3484

This possible cruelty recheck concerned many animals owned by Margret Meier, of 18097 W. Sycamore Lane in Loxahatchee, being sick and improperly cared for. The Director of ACC did also receive an additional complaint on the dogs' under Meiers' care. Meiers does work with the private non-profit rescue group "Bouvier and Friends of Florida Rescue".

Upon Lt. DiPaces' and my arrival we made contact with Meier who was cleaning and feeding dogs at the time. She allowed us into her house to view her animals and their living conditions. In the dining room we observed five dogs in individual crates. One of the dogs, "Molly", a black and tan female Miniature Pinscher type, appeared to be having difficulty breathing. Meier advised that the dog had a 2:00 appointment with Dr. Jeyapaul. She advised that the dog was acquired three days ago from Lila at Best Friends Rescue, 305-444-1323. Best Friends Rescue supposedly had the dog for 10 days and had her on Prednisone, which they gave to Meier to continue giving to the dog. Meier stated the dog was between 4-6 years old and that she had been hand feeding her as she refused to eat on her own. Molly was rescued from Dade County Animal Control. The remaining dogs in the dining room all had water and food present and all appeared to be healthy. The next room we entered was a back bedroom which was vacant of any beds. There were eight crates each containing a dog. Each dog had water provided. One of the dogs, a mixed breed named "Carlos", appeared to have Demodectic Mange. Meier stated that several dips have been administered and that "Carlos" has improved greatly. Another dog, a Cattle Dog Mix named "Walker", appeared to be lame on his right front foot. Meier advised that x-rays have been taken and the doctors believe the lameness is caused from an old injury. The remaining dogs in this room appeared to be healthy, although the room itself was in need of a cleaning. Heavy amounts of dirt and possibly dried liquid feces were present on the walls behind several of the crates. We next observed Meiers' own four Bouviers. These dogs all appeared healthy but only two of them wore tags. They were loose in the kitchen but were placed into a back room so that we could pass through to enter the living room area to view the next group of dogs. Here we observed five dogs, all in individual crates with water present. One of the dogs, a Chinese Crested Powderpuff, had veterinary tape placed around the ears. Meier advised that the vet tried to splint and tape the ears to try to get them to stand erect, but that it wasn't successful. This dog is leaving for Chinese Crested Rescue in North Florida later this week. A young Boxer was present that was given to Meier a few weeks ago. Meier did bring this pup into ACC to report its emaciated condition. Sgt. Illicete does have photographs of the dog. The pup was treated for hookworms and is receiving Pancreved Powder by Vedco to assist in keeping its food down and obtaining the necessary nutrients from this

food. The Boxer has gained weight and appeared to be healthy at this time. The remaining dogs in this room all appeared healthy and well cared for.

Meier was issued a violation to obtain current tags for her own dogs. In addition, she was advised of the requirement to supply PBC rabies tags for all dogs that she adopts out within Palm Beach County. She was given a copy of PBC Ordinance 98-22 Sections 22, 23, and 25. Before Lt. DiPace and I left the property we did discover "Molly" now deceased in her crate. Meier immediately placed the entire crate into her van to transport it to Dr. Jeyapaul. She did later telephone to advise that the dog died from heart disease.

CASE REPORT

Activity 01-9274

June 1, 2001

Complainant : Anonymous

Defendant : Margarite Myer
18097 Sycamore Road
Loxahatchee, 33470
792-4316
(305) 318-3484

This anonymous possible cruelty complaint concerned defendant Margarite Myer of 18097 W. Sycamore Road housing numerous dogs that she adopts out through a rescue organization. A recent adopter of one of Myers' dogs lost the dog to possible distemper after adopting it from Petsmart on Okeechobee. Petsmart has apparently denied Myer from using their facility for adoptions since this incident. Anonymous complainant also advised that Myer has come up to Palm Beach County from Broward County.

Upon Lt. DiPaces' and my arrival we could make no contact with Myer. Many dogs could be heard barking from inside the house. Numerous bags of dog food were present piled up on both the front porch as well as inside the house (as seen from the front door) near the kitchen area. Various crates, garbage cans, and dog bowls were observed along the West side of the garage and in the driveway in front of the garage. A chain link pen with two plastic houses inside along with a tarp that had fallen down was present in the West side yard as well. A plastic crate was observed next to a tree that had a cable tie out and a collar attached to it.

Notice was left for Myers to call. Recheck is scheduled.

Bouvier since 27 years, breeding for working, show and pets (click Breeder Info to see more)

Thinker & Lil Stinker, born 2/28/05 Posted: 2/16/2005

Bouvier des F

Breed: Bouvier des Flandres

Age:

Anders Bouviers has owned and raised the Bouvier des Flandres for over 27 years and strives to breed the best Bouvier des Flandres by combining working lines from the United States and Europe. Our Bouviers are bred for temperament and a sound working drive. We have both working, show and pet puppies available.

The parents of our puppies have AKC titles or are dogs we work at home. Every litter is whelped and raised in the home. We vaccinate our puppies before they leave home, tails are docked and dew claws removed. We leave the ears natural. If new owner wants cropped ears, they can ask their personal vet, to perform the operation for them.

Asking Price: \$1,000.00 US

I (we) hereby certify and agree:

1. If the new pet is not yet spayed/neutered, this will be done at my expense within 30 days of this contract with a copy of the spay/neuter certificate to be sent to Bouviers & Friends of Florida.
2. If I am unable to keep my pet due to family illness, change in family situation or ANY other reason, I am to contact Bouviers & Friends of Florida and surrender the animal to them.
3. I agree that this pet is to be maintained as a member of the family, not as a back yard dog or on a chain.
4. I agree that I am willing to allow a home visit from a representative of Bouviers & Friends of Florida within the first year to ensure that this is a successful placement between the family and the dog.
5. I agree that I will keep my dog in good health, maintain annual vaccinations, rabies certificates and provide it with normal veterinary care in case of illness or injury.
6. I agree that I will attend at least a basic obedience course with my dog in order to provide the dog with proper socialization.

RESCUE REVIEW

Volume 1, Issue 1

April, 2002

Our First Issue:

- Our introduction
- Talents and Treasures
- Contact Information

Our Group – President's Message

Let me introduce our organization and tell you a little about "Bouviere and Friends" an all breed rescue. Firstly, a Bouvier (des Flanders) is a large working dog. I fell in love with the breed when I lived in Germany and had my first Bouvier, Boris. When I came to live in this country, I imported Bouviere from the same kennel as my Boris. I had been involved with rescue when I lived in Germany and wanted to do the same thing here! BUT, when I began my rescue work about 3 years ago, there were no Bouviere to be rescued, SOOOO that's how I got involved in all breed rescue. Since I lived at the time in Miami, that's where I started my rescue operations. I worked closely with the Humane Society and then I saw the real need was at Animal Control, the conditions there were not the greatest! So, now I had a

mission, to save dogs who were ready to be euthanized, nurse them back to health, socialize them and find forever, loving homes for them! One of my early rescues was "Lucky", he was a Sharpei who had been attacked by Pit Bulls, the needle was just being put into his leg when I whisked him away and saved him. I could see the appreciation on these dogs' faces when I took them out of this terrible place! You don't think they could smell death in this place, because that's where they were, on Death Row! This is the biggest "high" I ever felt, saving these unfortunate creatures who through no fault of their own ended up in dire circumstances. Little did I know then it would become my life's passion and consume my whole being! I moved up to West Palm Beach last year and live in Loxahatchee. I love the area, it is such good animal country. You can see that in

the daily newspaper every day. Lots of nice, heartwarming animal stories, but the story still remains the same in Miami, so a lot of dogs I rescue still come from there. I am associated with a wonderful group of rescue people called "Florida Rescue" and we canvass all the dog pounds in Florida and contact each breed

A HAPPY FORMER RESCUE BOUVIER, LEHUA!

specific rescue. For example, when we see a Pug, we call Pug Rescue and foster the dog until they can pick it up and so forth. We can cover a lot more ground when we work together.

**Stephen & Chintz
A Match made in
Heaven!**

I am in the process of trying to raise funds to open a no kill shelter. I have basically been doing this all on my own for the past 3 years, but it is very hard to care for all the special needs of our dogs. I have Amanda, who I saved from Miami Dade Animal Hospital. She had distemper and Parvo, and puppies, when I saved her. She and 2 of her pups pulled through. After all this, she collapsed. I was sure it was from her illnesses, but it turned out she had hip dysplasia in both hips. All of a sudden she was crippled. She had eaten the odds twice before. Could I let her down and not help her through this latest hurdle? NO, I

COULD NOT! Amanda has had both of her hips successfully replaced and she is just starting to walk again now, but I paid for this all myself. Sometimes, my dogs come before my rent and always their needs before mine. Other special needs dogs are blind, deaf, many were heartworm positive and I paid for these all myself, but I CANNOT do this alone, so we are beginning a fund raising campaign, asking adopters to join our membership. You can help support our dogs for only \$15 a month, the cost of a few McDonald's snacks. When you join Bouviers & Friends of Florida, All Breed Rescue, you will re-

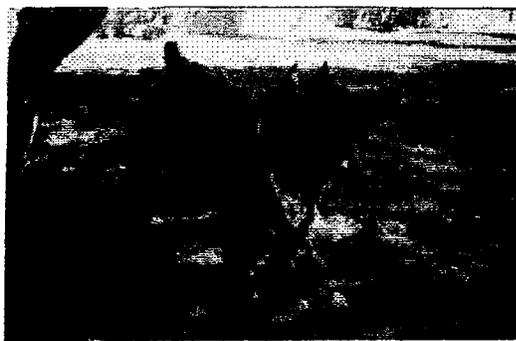

ceive a monthly newsletter, a "B & F" T-shirt and the eternal gratitude of me and my little fuzzy rescues! Please take a moment and fill out the attached application form. Your rewards will be many!

Remember, when God told Noah to build the ark, he told Noah to take 2 of every animal, so God was in the rescue business way before we were!

Sincerest thanks for your kind support.

*Margret Meier
Founder*

"Remember, when God told Noah to build the ark, he told Noah to take 2 of every animal, so God was in the rescue business before we were"

My name is Fancy! I live in Arizona with Brigietha, who came here from Florida and Margret! I am also a girl who needed a new home. We are very happy here!

TALENTS AND TREASURES

I understand that not everyone can afford to financially contribute to our organization, but many of you have talents that we need just as much as financial support!

WE NEED

VOLUNTEERS:

We need volunteers to help present our dogs for adoption at shopping centers on weekends.

We need volunteers to help write articles and to publish our newsletter!

We need volunteers to contact businesses to advertise

in our newsletter.

We need volunteers, creative people to create fund raising and fun activities.

We need handymen to help build runs and kennels for our dogs!

TREASURES:

Here is a wish list of items that we need. Remember, we can provide a receipt for next year's taxes! Your trash could be OUR treasure!

We need building materials, fences, anything we could use to confine our dogs.

Old kennels or dog houses.
Sheets, towels, blankets.

We need a van to transport dogs. If you have an old one that is in running condition but you are not using it, we can give you a tax receipt.

We need qualified foster homes. If you have the time for some basic training and socialization, have room in your heart to foster a dog for a week or two, sometimes several months, nurse them back to health and then have the satisfaction of knowing they went to that perfect home, we want to talk to you!

"Future articles will feature members of our Special Family — people who have made room in their hearts and homes for a dog that had NO chance"

IN UPCOMING ISSUES . . .

Future issues will feature stories of happy endings in rescue — the fuzzy faces who were saved from certain death to start new lives with new families!

Look for these special fea-

tures which will show that our efforts really DO make a difference, for the pets as well as for their new families!

There will also be features of endings that weren't so

happy, but we tried to make a difference!

Become part of our family! Adopt a new pet, help us to be able to continue our work.

Palm Beach County Animal Care & Control
Placement Partner Application

(To be submitted by the President, Chairman or Chief Officer of the PP organization.)

1. Title of Placement Partner Organization: Bowier & Friends All Breed Rescue
