Brad - as we discussed recently, the County will pursue CDBG funding from the Economic Development Category to fund an access road that will serve the Langley Medical Facility in Sumterville. The access road will connect to a turn lane on US 301 that will be constructed with County funds. The County funds for the turn lane can be used as local match for the CDBG-ED access road grant application.

In order to begin the process, the County will need to advertise for CDBG-ED grant consultants. Attached for your use is the RFP that the County used for the Panacoochee Retreats CDBG project. I have edited the RFP to fit the CDBG-ED project. This RFP is for you to provide further edits as needed. Also attached is an instruction sheet that describes the advertising requirements for CDBG RFPs.
