Policy 1.1.5U Interstate Highway Interchanges

- 1) Sumter County recognizes the unique economic development potential represented by Interstate Highway Interchanges and encourages the provision of utilities at these areas and their development for higher intensity uses which serve highway traffic or require direct access to the Interstate Highway System.
- 2) Areas surrounding Interstate Highway Interchanges shall be designated as Primary Economic Activity Centers and placed within the Urban Development Area to provide use and density incentives for both the provision of utilities and development of the interchange areas. These designations shall be reflected on the appropriate maps within this Future Land Use Element of the Unified Comprehensive Plan.
