HISTORY/FACTS/ISSUES:

CSX requires the closure of three railroad crossings for every new railroad crossing; however, CSX supports the closure of two instead of three for the regional road widening project at CR 525E from US 301 and its realignment to connect to CR 525E on the west side of CR 525.

The Florida Department of Transportation (FDOT), per rule 14-57.012, is the intermediary on these issues as they manage this process. FDOT requested Sumter Count provide a public hearing for input on the planned railroad crossing items as noted in the subject.

There are three property owners between US 301 and the CSX rail crossing at CR 105. Sumter County is the owner of the SW quadrant, Mr. Hannon is the owner on the northside SE quadrant, and Mr. Thalgott is the owner on the South side between Sumter County’s and Mr. Hannon’s property.
