### HISTORY/FACTS/ISSUES:
Sumter County is the successor of the abolished Sumter County Recreation and Water Conservation and Control Authority. The easement provided for the operation and maintenance obligations to be performed by the County. These obligations and rights set forth in the easement are no longer to the benefit of Sumter County or the public as the property owner will work directly with the Southwest Florida Water Management District to achieve the benefits of water management as the property develops through their permitting process as well as that of the City of Wildwood.
