Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: The Villages rezoning

09/21/2020

Messrs. Broome and Holley;

First, I want to thank you for the time and effort you contribute toward making our county a great place to live.

Secondly, I want to urge you to do deep diligence with regard to cases # DRI2020-0001, DRI2020-0002, MISC2020-0006, the land use zoning changes requested by The Villages developer.

At the very least, I request you table these cases until there is a clear picture of the small business economy once the COVID crisis is under control and business traffic returns to something resembling normal. The developer's motive for the requested zoning changes is simply about making money where businesses have failed, largely because of the economy but also because the rents the developer charges are abnormally high for this area.

What's more, the developer claims a growing interest for apartment-style living among seniors who want to down-size. Don't you believe it. I'm confident that recent apartment leases at the Brownwood location, where the developer claims a substantial number of current property owners have signed leases reflects, not a change in desire for a simpler home, but an investment opportunity. True, annual leases are required. Restrictions may or may not allow owners to rent out their units to seasonal people. Although the developer would never know. Actually, there is a growing concern among residents about the number of homes available for short term rental through Airbnb, even for a day.

As the saying goes, the camel's nose is under the tent. Where next will the developer want to build multifamily facilities? The charm and mood of "Florida's Friendliest Hometown" is darkening. Drive through the Brownwood area where apartments are available, with more under construction. It feels like driving through the canyons of

Manhattan. The Villages is already too populous. Increasing demand on already seriously threatened diminishing resources and public services is most concerning.

I previously resided in Columbia, Maryland, one of the first planned communities in America. It was perfect, until rezoning and development got out of hand. As a resident of Sumter County now, I again urge you to look hard at the developer's requests and ask tough questions.

With respect,

ALBERT WANN

Sumter county property owner and taxpayer

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID -19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Proposed planned use change in The Villages

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006.

My comment is specifically directed to the proposed multifamily/multilevel apartment complex in the former Hacienda Hills Country Club location.

A visit to this area will quickly confirm that this area was designed as and is currently a single family housing area. The residents bought their homes here and paid a premium price with a specific lifestyle in mind. The "village" style single family housing is what was marketed to them. The residents had and still have every right to expect the basic character of their neighborhoods to remain.

Placing approximately 275 apartments and 500 new residents into a very small area that formerly had zero residents, is single family homes, and is surrounded by residential neighborhoods is clearly not in keeping with the character of this area.

There are many other locations available in Sumter County and The Villages that can be PLANNED apartment style living. Please recommend a vote to end this abuse of power, heed the wishes of the current residents, and send a signal that The Villages Developer power must be exercised responsibly.

Nick and Pam Walters
706 Melendez Way

The Villages

A visit to this area will quickly confirm that this area was designed as and is currently a single family housing area. The residents bought their homes here and paid a premium price with a specific lifestyle in mind. The "village" style single family housing is what was marketed to them. The residents had and still have every right to expect the basic character of their neighborhoods to remain.

Placing approximately 275 apartments and 500 new residents into a very small area that formerly had zero residents, is single family homes, and is surrounded by residential neighborhoods is clearly not in keeping with the character of this area.

There are many other locations available in Sumter County and The Villages that can be PLANNED apartment style living. Please recommend a vote to end this abuse of power, heed the wishes of the current residents, and send a signal that The Villages Developer power must be exercised responsibly.

Nick and Pam Walters
706 Melendez Way
The Villages

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Holley, Karl

From: qrhwnyoe@server288.web-hosting.com on behalf of Villages Promises Preservation Watch <admin@v2pw.com>
Sent: Monday, September 21, 2020 8:10 AM
To: Holley, Karl; Planning
Cc: v2pw@v2pw.com
Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID -19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!

Subject: Deny Land Use Zoning Changes

Dear Mr. Broome and Mr. Holley,

As a resident of The Villages, I am writing with sincere concern regarding the land use changes in zoning requested by The Villages Developer which is before you this September 21, 2020; Cases # DRI2020-0001, DRI2020-0002, MISC2020-0006. The current "Lifestyle" as marketed by The Villages advertisement will be negatively impacted by the building of multi-level Apartment Buildings inside our gates.

Our current "single family housing" will be hampered by the influx of large groups of people residing in such Apartments; the influx of traffic will result in an increase in accidents, both with cars and golf carts; the increased usage of our precious water and sewage resources will greatly increase the affordability of living in "Florida's Friendliest Home Town"!

For The Villages Developer to be proposing such increased usage of already seriously threatened diminishing resources is most concerning. But, to be proposing such changes during an Economic Crisis caused by the COVID-19 Pandemic is not only disturbing, but scandalous! It shows no regard for the safety, security, and livelihood of the Residents of The Villages!

You are charged with recommending Zoning Changes to improve the livability of the communities within Sumter County; it would not appear to be advisable to approve such changes at this time!

As a property owner in Sumter County, I respectfully request that you deny this Change of Use Zoning request!
