MISSION

"The FGUA provides communities with high value, cost effective utility management alternatives within a public government structure that maximizes customer service quality."

STRUCTURE

Seven-member Board of Directors (with seven alternates) comprised of appointed representatives from participating counties or municipalities.

Board establishes policy and sets goals for everything from customer service standards and rate setting, to the acquisition of utility systems.

Local governments are represented on the leadership board and maintain important decision-making control over utilities serving their communities.

FGUA representatives have participated in more than 1,600 community events.

- Managed more than \$500 million in financial transactions
- Managed more than \$220 million in capital improvement projects
- Acquired more than \$322 million in water and wastewater utilities

FOUNDED

Formed in 1999 through an interlocal agreement between Brevard, Lee, Polk and Sarasota counties.

Today, counties include Citrus, DeSoto, Hendry, Lee, Pasco, and Polk.

SERVICES BY THE NUMBERS

- Manages approximately 120,000 customer connections daily
- 2,000 reclaimed water customers
- 152 wells
- 75 water treatment plants
- 32 wastewater treatment plants
- Delivers more than 10 million gallons of drinking water daily
- Treats more than 7 million gallons of wastewater daily

BENEFITS

The benefits a local government receives from joining the FGUA include:

- Leveraging economies of scale
- Public ownership alternative
- Reliable, efficient, and responsive utility management
- Centralized management, operations, and planning
