

SUMTER COUNTY BOARD OF COUNTY COMMISSIONERS
EXECUTIVE SUMMARY

SUBJECT: Adopt the Recommended Intersection Alternative Two for the C 466 at CR 209 Intersection as Identified in the Engineer Study Intersection Alternatives Report (IAR) (Staff Recommends Approval).

REQUESTED ACTION: Staff Recommends Approval

Meeting Type: Regular Meeting

DATE OF MEETING: 1/24/2023

CONTRACT: N/A

Vendor/Entity: N/A

Effective Date:

Termination Date: N/A

Managing Division / Dept: **Construction Design**

BUDGET IMPACT: N/A

FUNDING SOURCE: N/A

Type: N/A

EXPENDITURE ACCOUNT: N/A

HISTORY/FACTS/ISSUES:

On August 23, 2022, The Sumter County Board of County Commissioners (BOCC) approved Task Order #3 with Infrastructure Consulting & Engineering, PLLC. Attached for BOCC review and adoption is the future intersection alternative recommendation for the intersection of C 466 and CR 209.

Based upon the anticipated growth in the area and along the corridors of C 466 and CR 209, the subject intersection will require future geometric modifications and a change from a stop-controlled intersection. For a design year of 2040, traffic conditions anticipated to continue to deteriorate mobility and level of service performance. As identified in the study, the recommended alternative is the traffic signalization alternative two.
