Occupation*

General Contractor, Residential Swimming Pool Contractor

Place of Employment

Advanced Construction & Remodeling, LLC

Professional Organizations

Design Build institute of America

Civic and Professional Accomplishments

United States Army, Infantryman. I served my country in combat overseas with 10 honors/awards for exemplary service prior to my honorable discharge. After military service I completed a dual major at Florida State University for my bachelors degree, and then obtained my masters degree in business at Georgia State university. I worked in various construction jobs during my college career. After college I was recruited by a prestigious global management and technology consulting firm, Andersen Consulting. After 5 years of working around the world as a technology consultant, I decided to switch gears and pursue my first passion, construction. I became a State Certified General Contractor in 2006. I founded my construction company in the same year, and we have been successfully serving the residents of Sumter County ever since.

Training or experience related to this appointment?

20+ years of construction experience. 16 Years as a state certified general contractor, and 14 years as a state certified residential swimming pool contractor. Worked with hundreds of contractors, subcontractors, and material suppliers serving the residents of Sumter County.

What contributions do you feel you could make if you were selected to this committee/board?

Over the last 18 years I have worked in the construction industry serving the residents of Sumter County. During this time I have gained valuable experience working with the Sumter County Building Department, hundreds of fellow contractors, and thousands of residents on a wide range of construction projects spread all across the county. In addition I have worked on various construction projects in various other counties and municipalities that have exposed me to the procedures and processes of similar governing bodies. The experience and knowledge I have gained over these years would be a valuable asset in the administration of the Sumter County Construction Industry Licensing Boards activities and responsibilities.
