HISTORY/FACTS/ISSUES:

In February 2022 County staff started an investigation into the maintenance of CR 311W next to State Route (SR) 93 (Interstate 75). During these investigations, the following was discovered:

- County staff gained the SR 93 right-of-way map for section 18130 that showed the portion of CR 311W that parallels SR 93. From the map, CR 311W begins at station 1488+14.31-LT and continues to station 1561+29.96-RT. On this map, CR 311W is also identified as “Existing Frontage Road”
- County Staff gained a Florida Department of Transportation (Department) Right-of-Way (ROW) map for a portion of CR 311W, approved by the Department on February 2, 2010. The ROW map identified the maintenance limits of CR 311W beginning at station 1525+00 -LT and ending at station 171+39.11 - LT.
- County staff identified a 60 foot wide Sumter Electric Cooperative, Inc. easement that overlaid a significant amount of the existing CR 311W (West side of SR 93).
- County staff identified a 60 foot “Existing Frontage Road” between 1488+14.31-LT and 1525+00-LT, that was included in SR 93 right-of-way map for section 18130, but was not included in the February 2, 2010 ROW map. County staff coordinated with FDOT staff on the ownership on this section of frontage road, and the Department confirmed the “Existing Frontage Road” was in fact their roadway.

Based on the retrieved data, coordination with the Department, and the existing Sumter Electric Cooperative, Inc. easement, County staff recommends ceasing maintenance of a portion of CR 311W as the roadway is not owned by Sumter County.
