Code Compliance ensures property values are maintained by assisting property owners in complying with health, safety, and welfare standards. Periodically, liens are placed on property to support the compliance process. The purpose of the lien is not to generate funds for the county; therefore, once property is brought into compliance, the actual costs incurred by Code Compliance are collected, and the balance of the lien amount is requested to be released.

The lien amount figure is calculated by multiplying the daily fine amount (established by the Special Master) by the total number of days the property remains in violation. Staff costs are calculated by adding the number of inspections performed during the code case, all actual costs of postage, and an administrative cost.
