HISTORY/FACTS/ISSUES:

On August 23, 2022 the BOCC previously approved the construction of a water main on C 44A from SR 44 to CR 219. The project was completed and final accepted by Public Works on July 1, 2023.

The waterline construction includes fire hydrants and will provide fire flow for both residential and commercial properties along this route with an opportunity to expand water service to the surrounding area.

With the completion of the water line construction, we are requesting the transfer of ownership of the waterline to the City of Wildwood. The City of Wildwood will accept ownership and all future maintenance responsibilities and associated costs for the water main, associated hydrants, valves and other appurtenances.
